

Jing-Zhang Authenticity Commons

A bidirectional evidence spine that sends errors back to their source

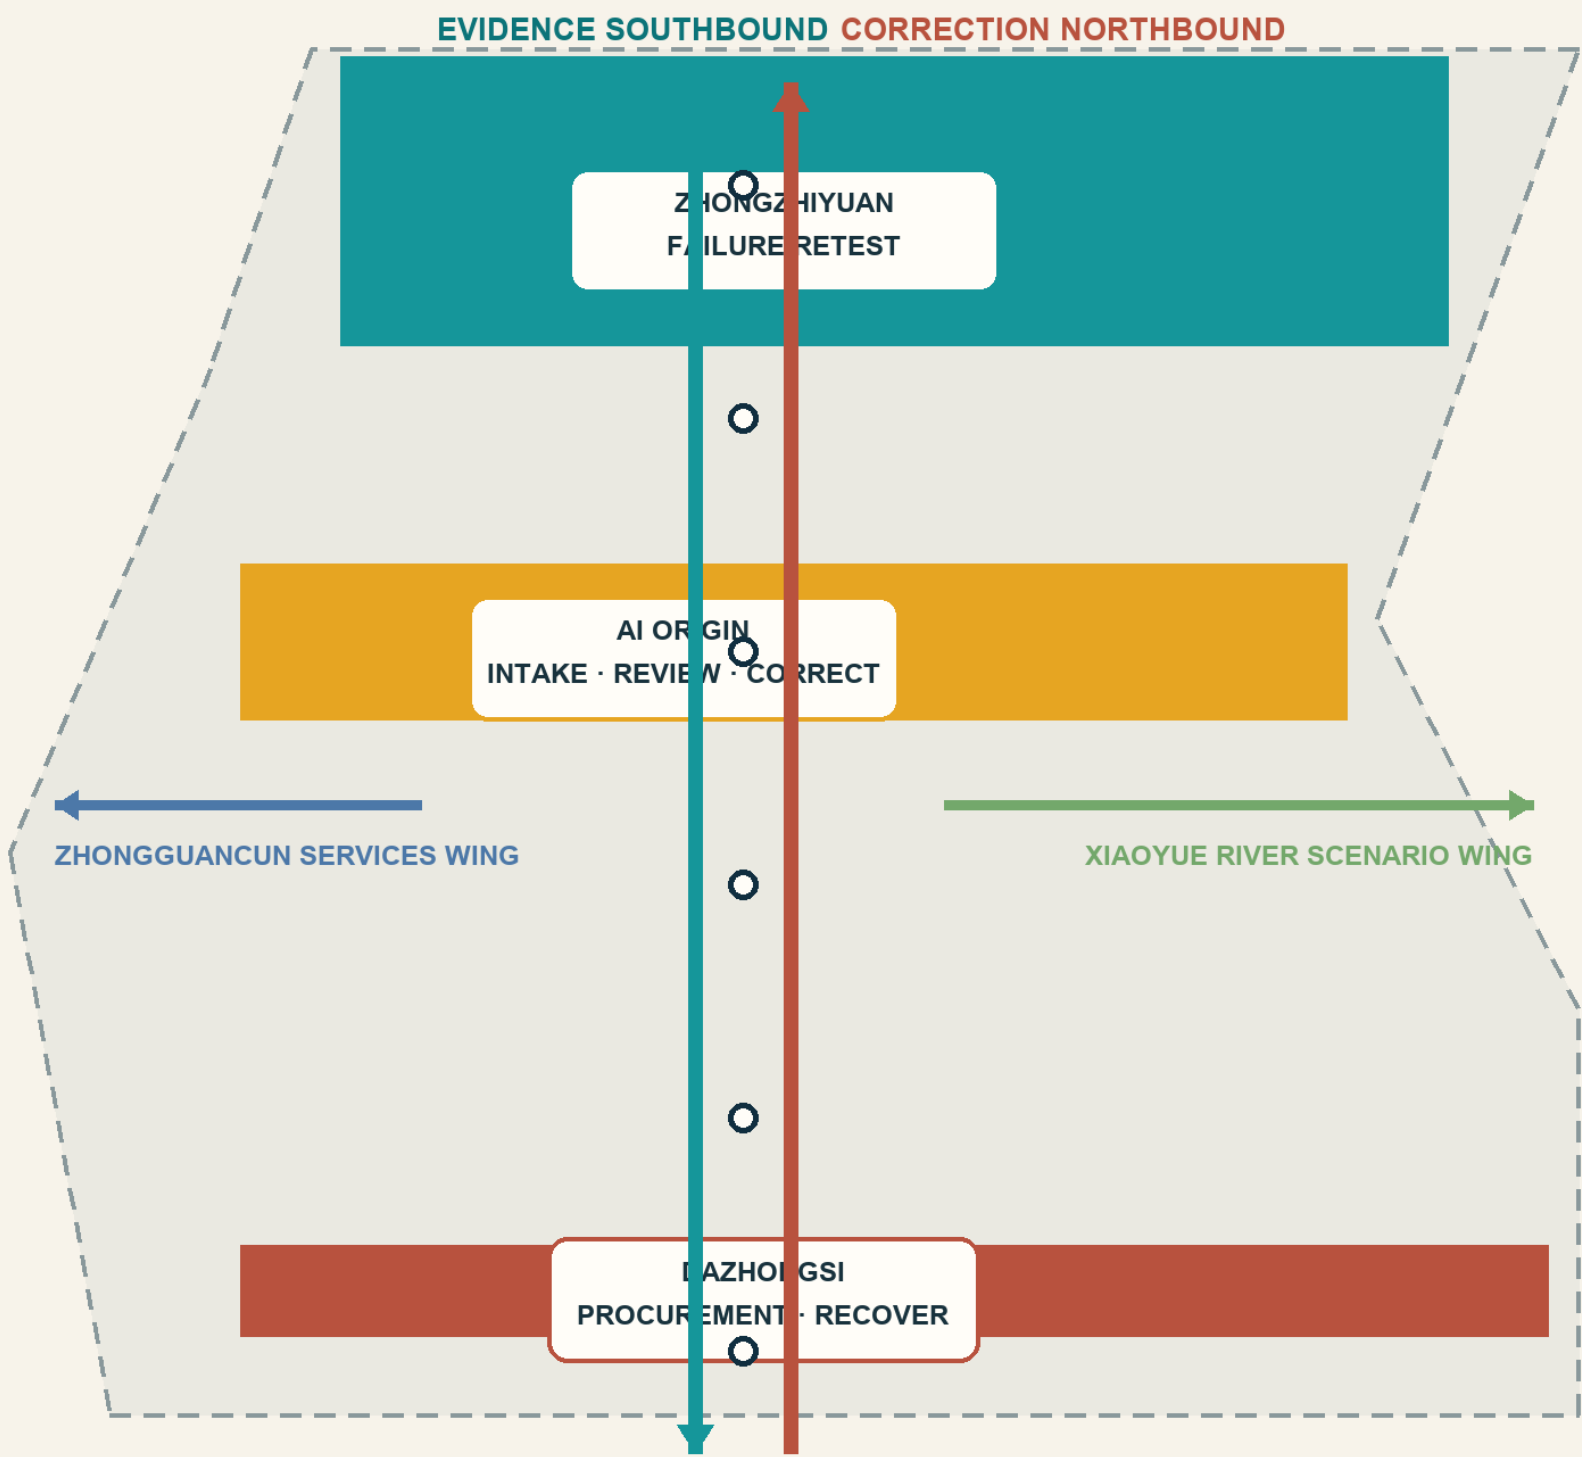

P0 INDEX | 96 sqm / 2 cases per hour / 5 seats / 780 seat-hours / 6 packages / 10 gates, 0 open

30 s: proposition + P0 index | 3 min: figures + acceptance | 15 min: narrative + machine evidence

Reference values are not a site survey, approval, quote, funding commitment or operating achievement.

01 Bidirectional Evidence Spine

Start with one person, one error and a path that can return

PROVISIONAL GEOMETRY IS A LOW-CONTRAST CONSTRAINT, NOT AN OFFICIAL REDLINE.

PUBLIC TEST

IF AN ERROR CANNOT BE CORRECTED THROUGH EVERY CHANNEL THAT CARRIED IT, THE AI SERVICE MUST NOT REMAIN IN JING-ZHANG.

THE VISITOR ASKS ONLY:
DID CORRECTION RETURN
TO EVERY PLACE WHERE I SAW THE ERROR?

V1 TRACE SOURCE + CHANNELS

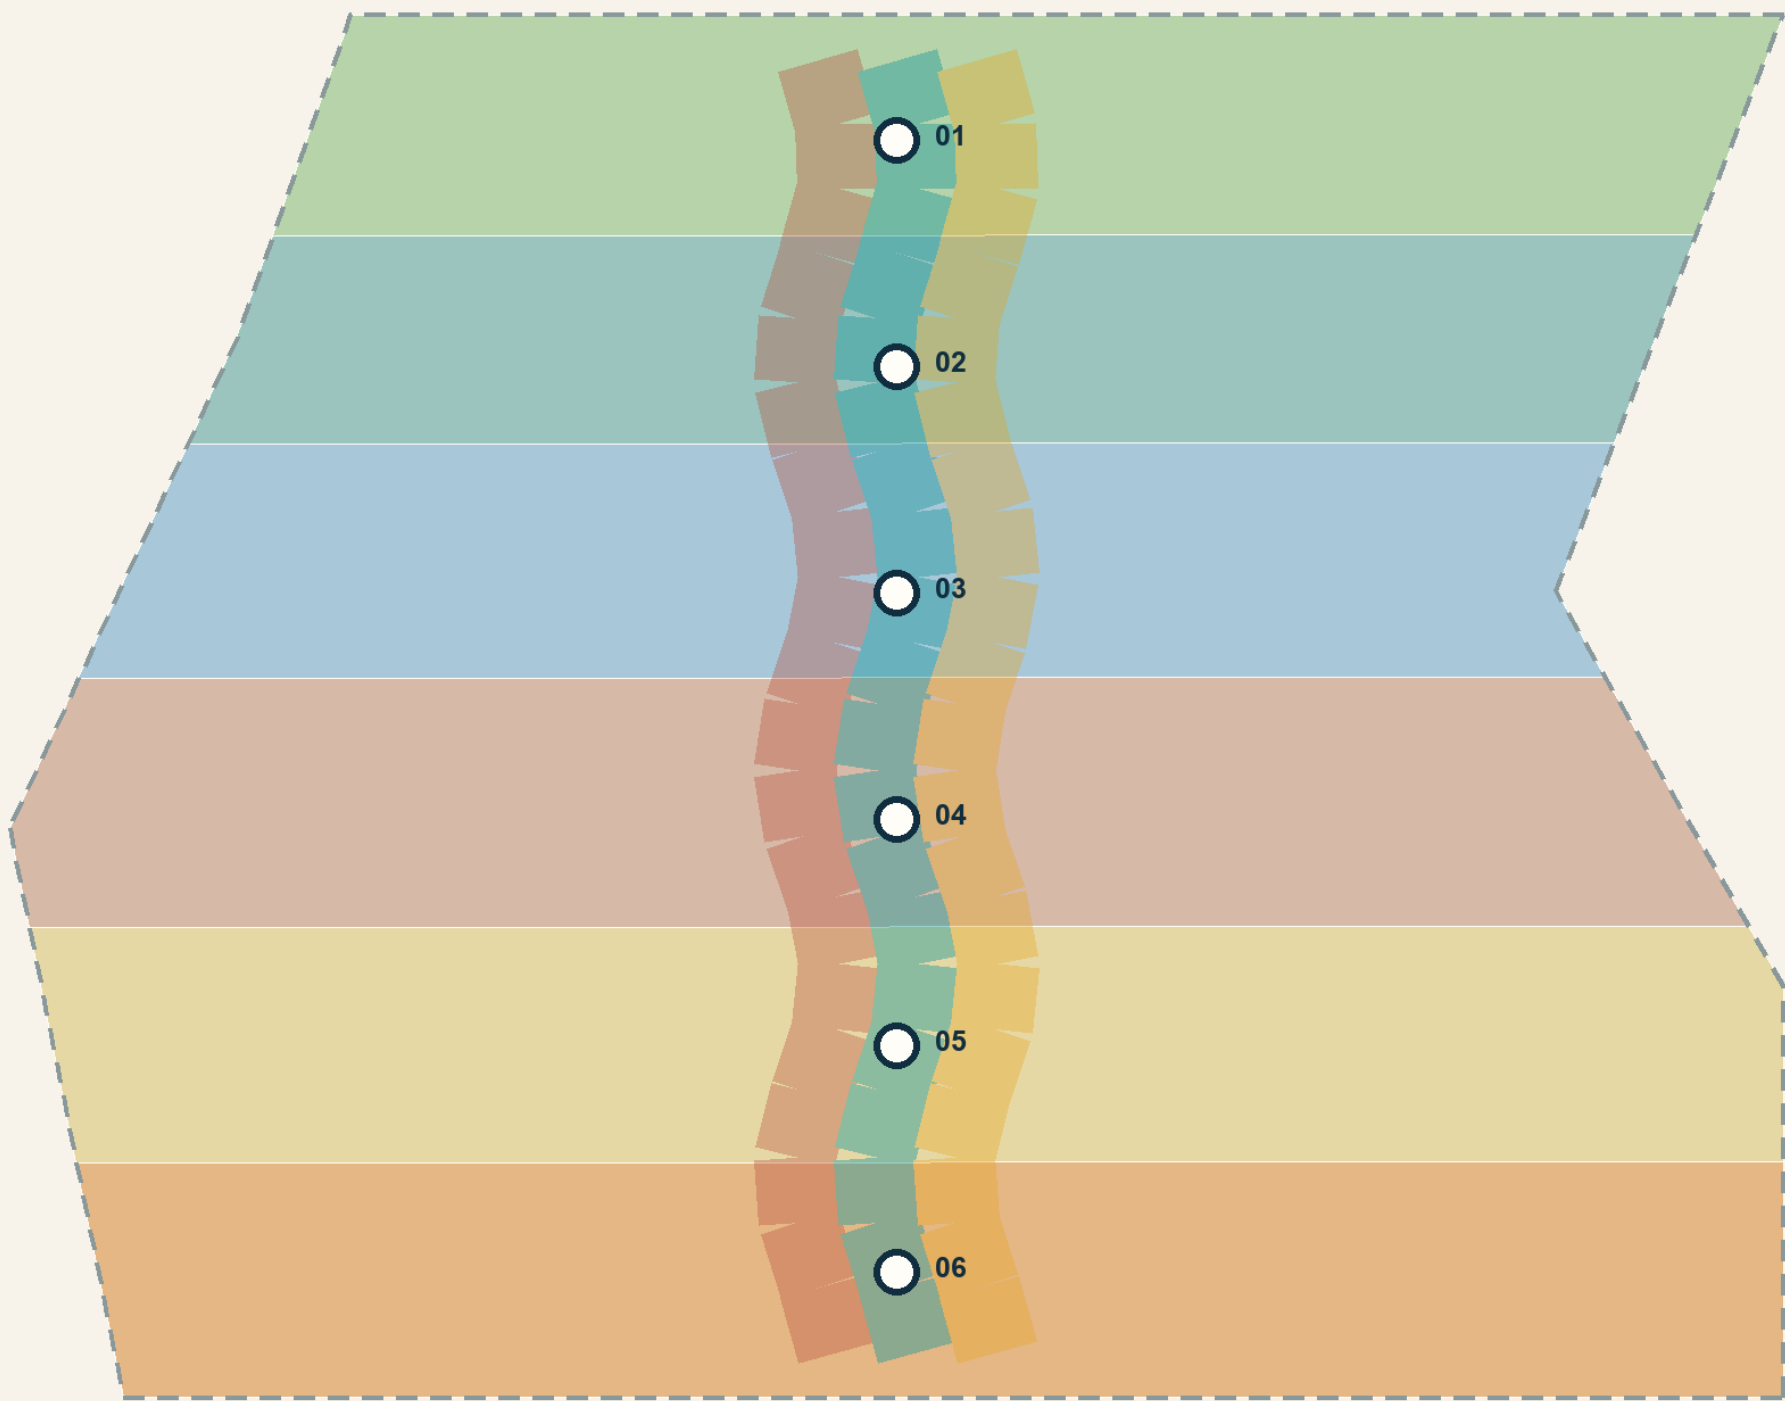

V2 INDEPENDENT FACT REVIEW

V3 PAUSE · CORRECT · RETEST · RECOVER

JZAC v1.5 candidate

02 Corridor Skeleton + Concept Land Use

The three belts overlap as working interfaces, not abstract parallel strips

CONCEPT LAND-USE CODES

- 09 Commercial services
- 0702 Community services
- 0803 Culture
- 0804 Education
- 0802 R&D
- 1401 Park green

THREE OVERLAPPING BELTS

- JING-ZHANG CULTURE
- URBAN AI LIFE
- AI CONVERGENCE

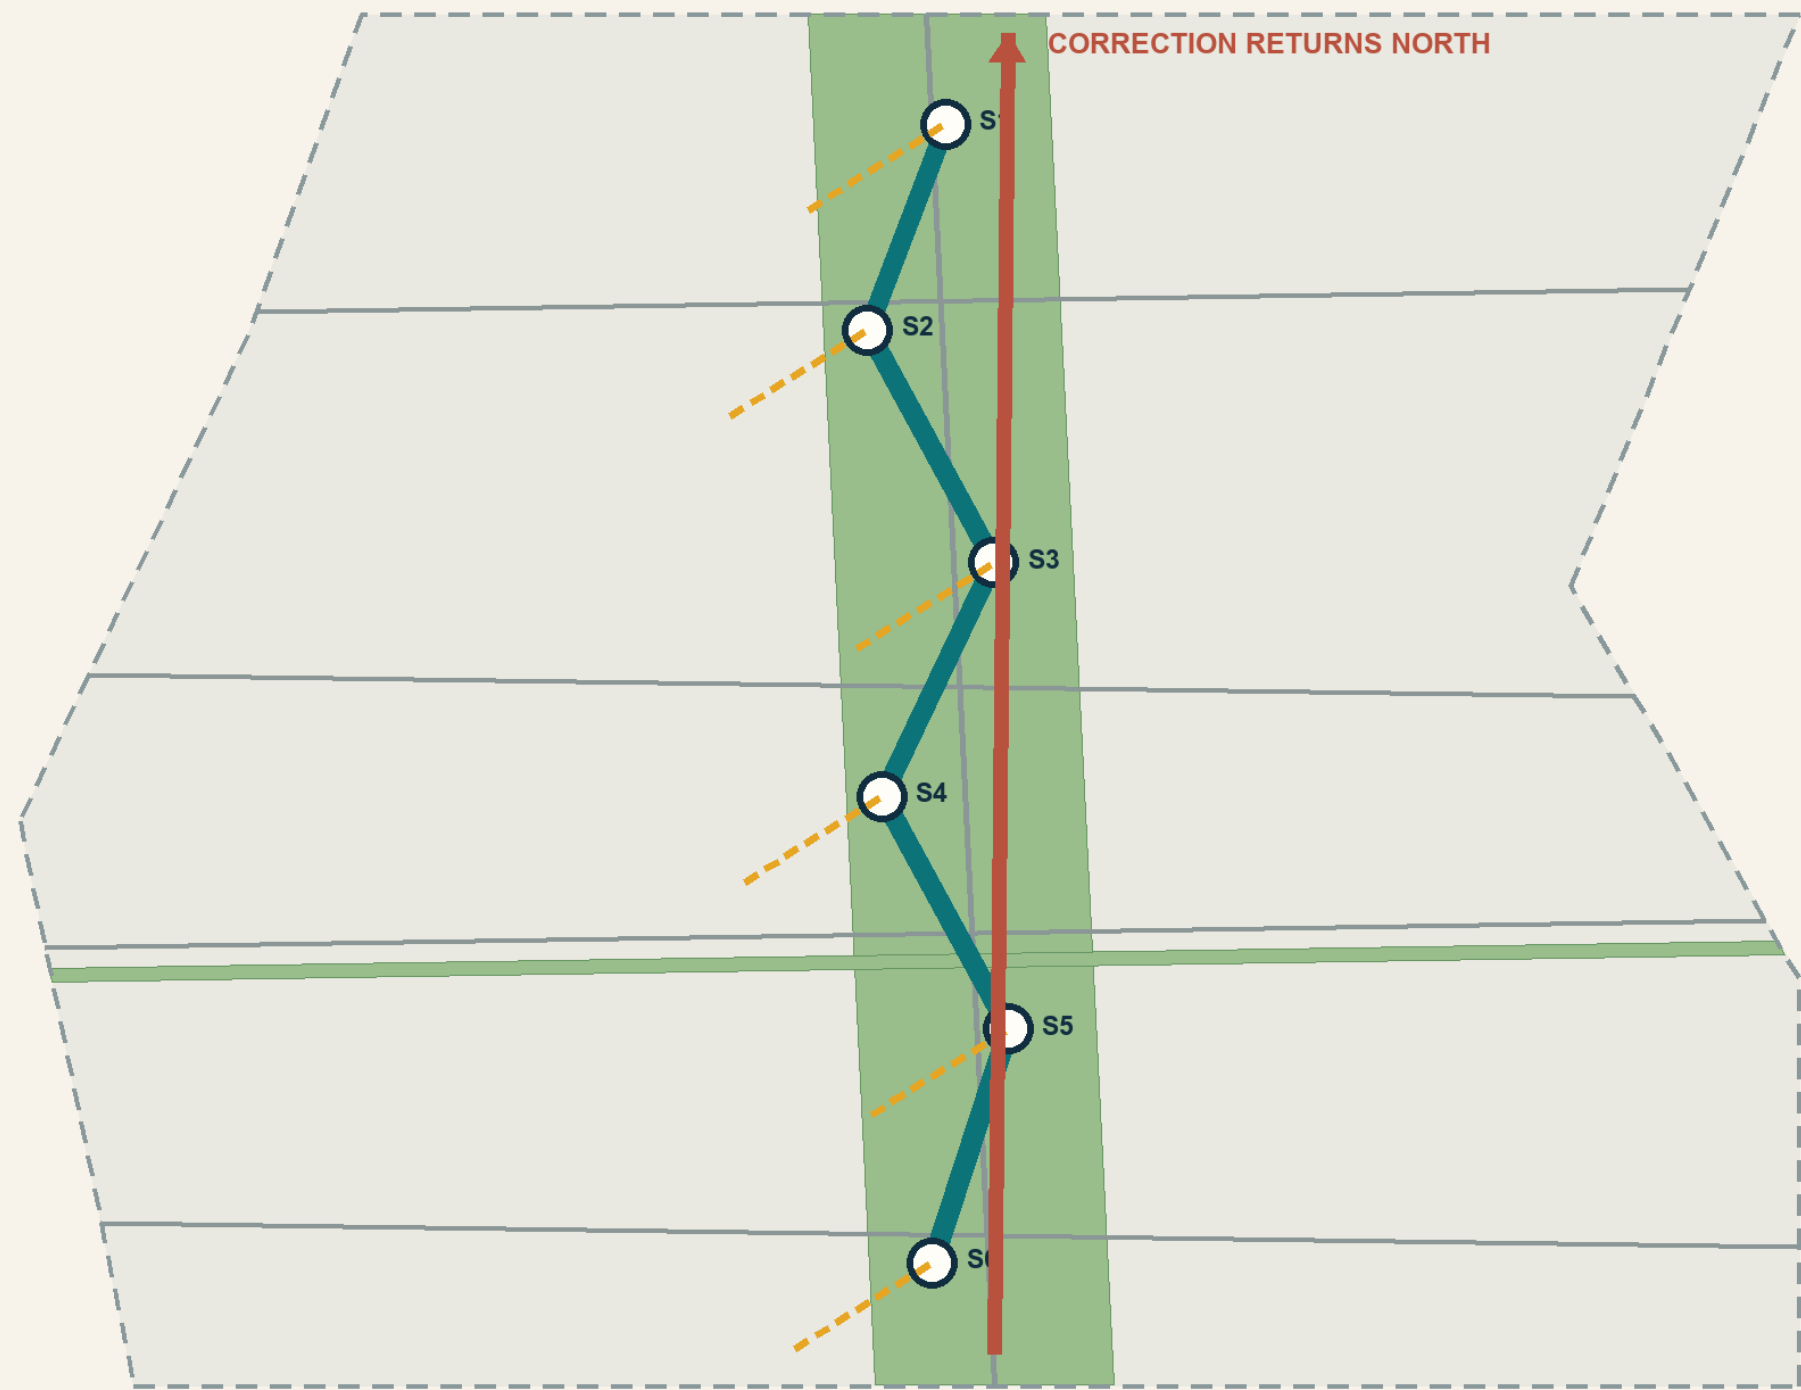

The gap-free partition comes from submitted GeoJSON. Code 09 follows the latest official enum. Recompute after official geometry, controls and ownership arrive.

CONCEPT PROPOSAL / OFFICIAL CONTROLS PENDING

JZAC v1.5 candidate

04 Public Arrival + Blue-green Access

Access serves people; correction serves information; both meet at six staffed stations

A COMPLETABLE ACCESS CHAIN

- 01 PUBLIC TRANSIT
- 02 GREEN SLOW-MOBILITY SPINE
- 03 ACCESSIBLE LAST 50 M
- 04 SCREENLESS + HUMAN HANDOVER
- 05 SAME-CHANNEL RETURN

CENTERLINES AND STATIONS ARE CONCEPTS, NOT ROAD REDLINES, TRANSIT COMMITMENTS OR MEASURED WALK TIMES. SCREENLESS AND DIGITAL ROUTES CARRY EQUAL DECISION, APPEAL AND CORRECTION RIGHTS.

SUBMITTED LAYERS: ROADS + GREEN SPACE + PUBLIC SPACE

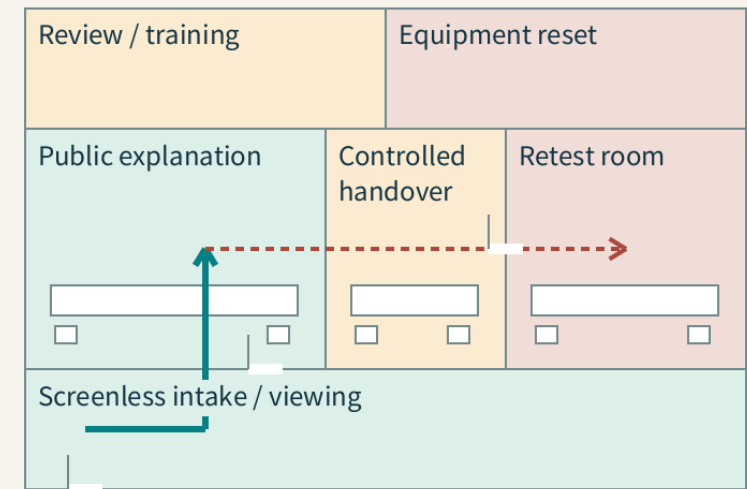

JZAC v1.5 candidate

THREE SPACES, THREE DIFFERENT RESPONSIBILITIES

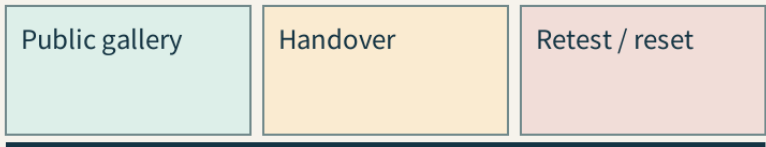

Shared 12x8 relational grids are non-metric. Only AI Origin P0 has a separate 96 sqm participant reference fit; neither is a site survey.

Zhongzhiyuan • Retest

PLAN • LOCAL GRID 12 × 8

SECTION • PUBLIC / CONTROLLED

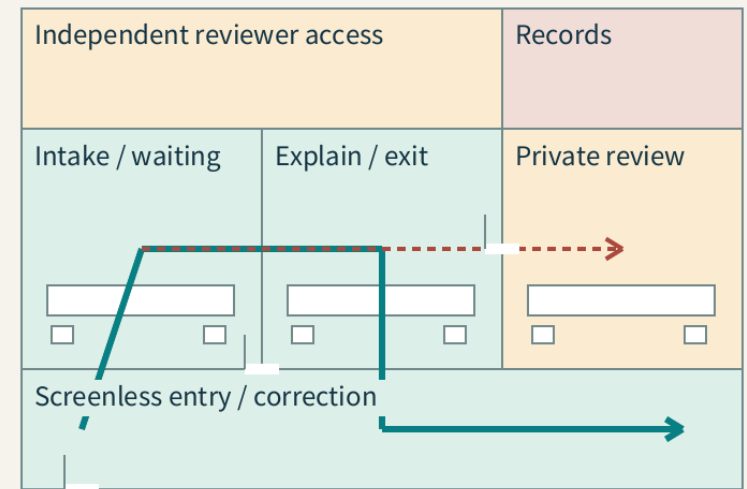

- Daily: gallery open
- Drill: isolated retest
- Reset: remove equipment, log

TEAL = public / screenless route • RED DASH = controlled evidence handover • Door / furniture symbols are illustrative

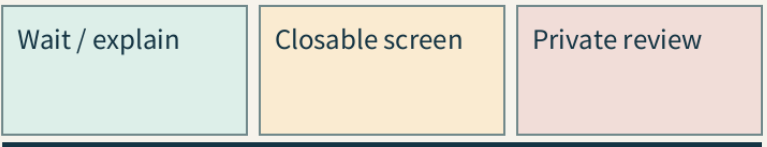

AI Origin • Review

P0: 12 m x 8 m = 96 sqm reference fit

PLAN • LOCAL GRID 12 × 8

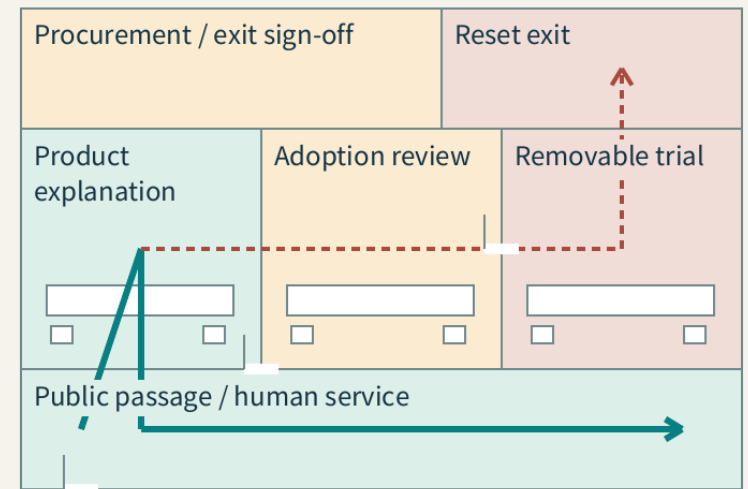

SECTION • PUBLIC / CONTROLLED

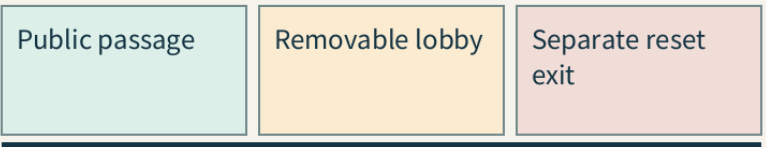

- Daily: counter and path open
- Drill: pause, independent review
- Reset: 2 channels corrected

Dazhongsi • Reversible use

PLAN • LOCAL GRID 12 × 8

SECTION • PUBLIC / CONTROLLED

- Daily: public service stays
- Drill: fit-out / procurement
- Reset: remove, clear, sign

Shared 12x8 relational grid is non-metric; only the AI Origin P0 inset is a participant reference test fit, not a site survey or approval.

05 COMPUTABLE SPACE, P0 READINESS AND 90-DAY ACCEPTANCE

Keep package evidence, participant assumptions and field outcomes visibly separate

01 COMPUTABLE BASE

11.4128 km2

provisional boundary

16.1588%

concept green ratio

0.9275%

six-station public space

15 / 12

scenario contracts / journeys

Computed from submitted GeoJSON; provisional design-model values, not statutory controls.

02 P0 REFERENCE PACKAGE

96 sqm

six-zone participant test fit

2 / hour

bottleneck screen; not an SLA

5 seats

minimum concurrent duty seats

780 h

90-day reference seat-hours

6 packs

cost shares only; no amount

10 / 0

external gates / gates open

All P0 quantities are transparent participant assumptions pending survey, approval, quotes, funding and named acceptance.

03 PILOT-A ACCEPTANCE

1-15

authority + baseline

16-45

three-area relay

46-70

fault injection

71-90

adopt / modify / retire

2 / 2

same-channel correction

4 / 4

fail-closed drills

4

conditional safe states

PENDING

authorized field KPI

Known = computable package evidence; assumed = disclosed P0 reference; unknown = authorized field outcomes.

JZAC v1.5 candidate

Eleven cases, each with a transfer, a Jing-Zhang landing and a non-transfer red line

CASE	TRANSFER	JING-ZHANG LANDING	DO NOT COPY
C2PA Content Credentials	Adopt signed provenance receipts, revocation status and explicit separation between provenance and truth.	heritage and creator receipts	Do not make a C2PA-valid asset automatically true or safe.
DARPA Semantic Forensics	Combine multiple forensic signals and keep analytic uncertainty visible.	controlled forensic testing	Do not translate defence research into pervasive civic surveillance.
NIST OpenMFC	Use blind tests, validators, versioned datasets and multiple performance metrics.	Open Benchmark Season	Do not publish one leaderboard score as a universal certification.
NIST AI RMF and AIRC	Use named owners, pre-release gates, monitoring, incident response and human oversight.	six contracts and release gate	Do not claim NIST alignment equals regulatory approval.
Helsinki AI Register	Publish purpose, data, operator, oversight, lifecycle status and feedback route.	staffed and paper public register	Do not limit transparency to web users; retain staffed and paper access.
Amsterdam Algorithm Lifecycle Approach	Bind evidence disclosure to procurement and supplier contracts.	procurement dossier and expiry wall	Do not copy legal clauses without Chinese law and procurement review.
AI Singapore 100 Experiments	Stage validation from scoped problem to PoC, production readiness and handover dossier.	90-day relay pilot	Do not promise identical funding or eligibility.
Munich Re aiSure	Design a reproducibility dossier that underwriters may inspect.	Technology Wing risk clinic	The commons must not set premiums or guarantee insurability.
Finnish media literacy framework	Pair public verification with repeatable teacher-led learning and non-formal education.	civic translation and classes	Do not assume Finnish curricula or institutions can be copied directly.
Zollverein industrial heritage reuse	Use retained railway fabric as working civic infrastructure, not scenery.	Jing-Zhang service infrastructure	Do not equate heritage branding with proven local conservation status.
EU Verifiable Credentials	Use minimum disclosure, revocation and offline/proximity verification patterns.	optional credential interface	Do not require a smartphone wallet for public access.

Method transfer only: source evidence never proves site conditions, approval or current partnership.

Fifteen recoverable service contracts, not an application menu

S01 Multimodal Provenance Intake

owner - evidence - human fallback - gate - recovery

S02 Image and Video Deepfake Benchmark

owner - evidence - human fallback - gate - recovery

S03 Pre-release Information Integrity Gate

owner - evidence - human fallback - gate - recovery

S04 Trusted Procurement for SMEs

owner - evidence - human fallback - gate - recovery

S05 AI Insurance and Reproducibility Desk

owner - evidence - human fallback - gate - recovery

S06 Health Message Verification and Pre-visit Clarification

owner - evidence - human fallback - gate - recovery

S07 Education Material and Credential Verification

owner - evidence - human fallback - gate - recovery

S08 Contract, Invoice and Promotion Verification

owner - evidence - human fallback - gate - recovery

S09 Community Rumour Triage

owner - evidence - human fallback - gate - recovery

S10 Screenless Anti-scam Verification for Older Adults

owner - evidence - human fallback - gate - recovery

S11 Accessible Audio-visual Explanation Verification

owner - evidence - human fallback - gate - recovery

S12 Creator Rights and Content History Registration

owner - evidence - human fallback - gate - recovery

S13 Transit and Public Notice Version Check

owner - evidence - human fallback - gate - recovery

S14 Victim Correction and Reputation Recovery

owner - evidence - human fallback - gate - recovery

S15 Jing-Zhang Industrial Heritage Archive Verification

owner - evidence - human fallback - gate - recovery

12 journeys include people without smartphones, disabled visitors, residents, clinicians, educators, creators, firms, evaluators, procurers and counter staff.

AI Origin Civic Review Hall - participant reference test fit

12 m x 8 m = 96 sqm; separately declared from the non-metric relational diagrams

Reference circulation target: 1.5 m clear route with turning allowance; compliance requires survey and professional review.

Maintenance: each session / weekly / day 45 / day 70 / day 90. All quantities are testable assumptions, never field facts.

DRAWING CHAIN

1:500 -> 1:100 -> 1:50 -> 1:20

CAPACITY

15/30/30/30 min -> bottleneck 2 cases/hour

STAFFING

5 seats x 4 h x 3/week x 13 weeks = 780 h

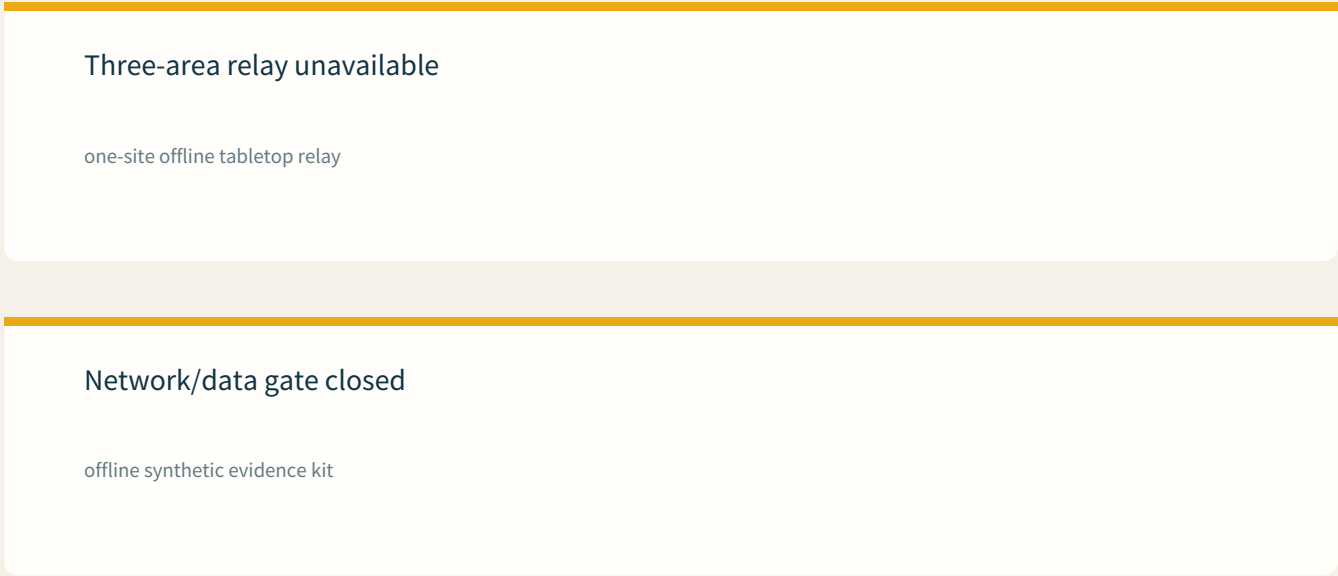

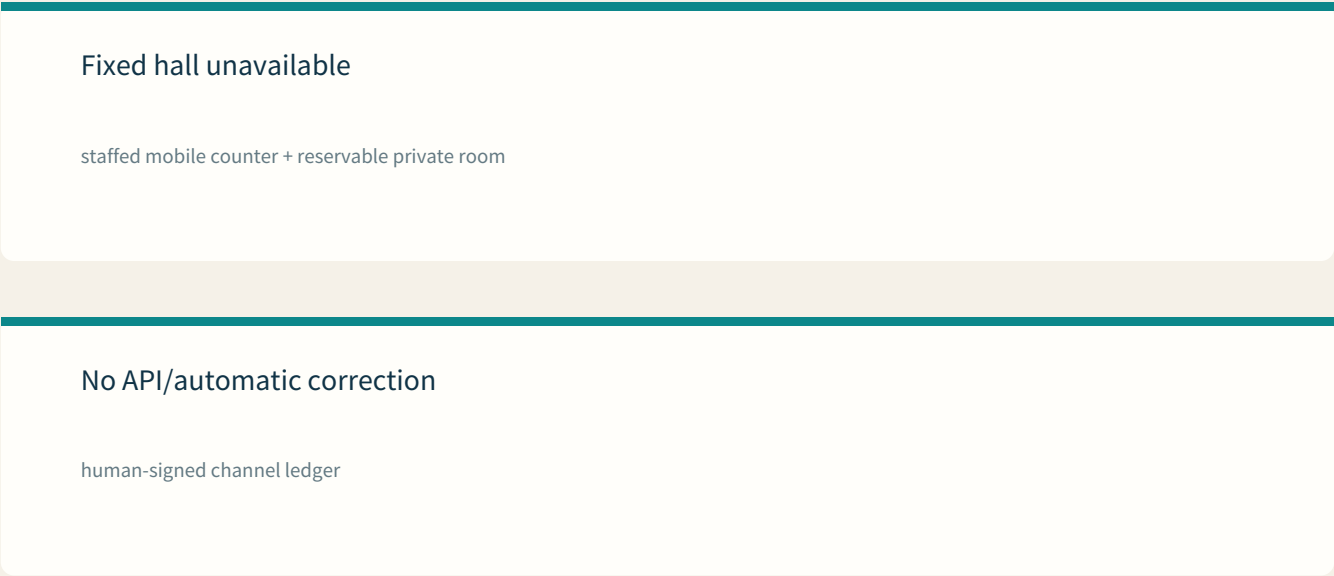

PROCUREMENT

6 packages; 12/23/15/12/28/10%; no amounts

Ten external gates remain HOLD; field release remains false

SAFE BRANCHES DECREASE INTENSITY, NEVER RIGHTS

Every branch preserves: public pause - human review - same-channel correction - recovery/retirement - evidence log.
