

Overall Design Overview — Jing-Zhang Memory • AI Archive Gallery (provisional)

Overall Design Overview — Jing-Zhang Memory • AI Archive Gallery (provisional)

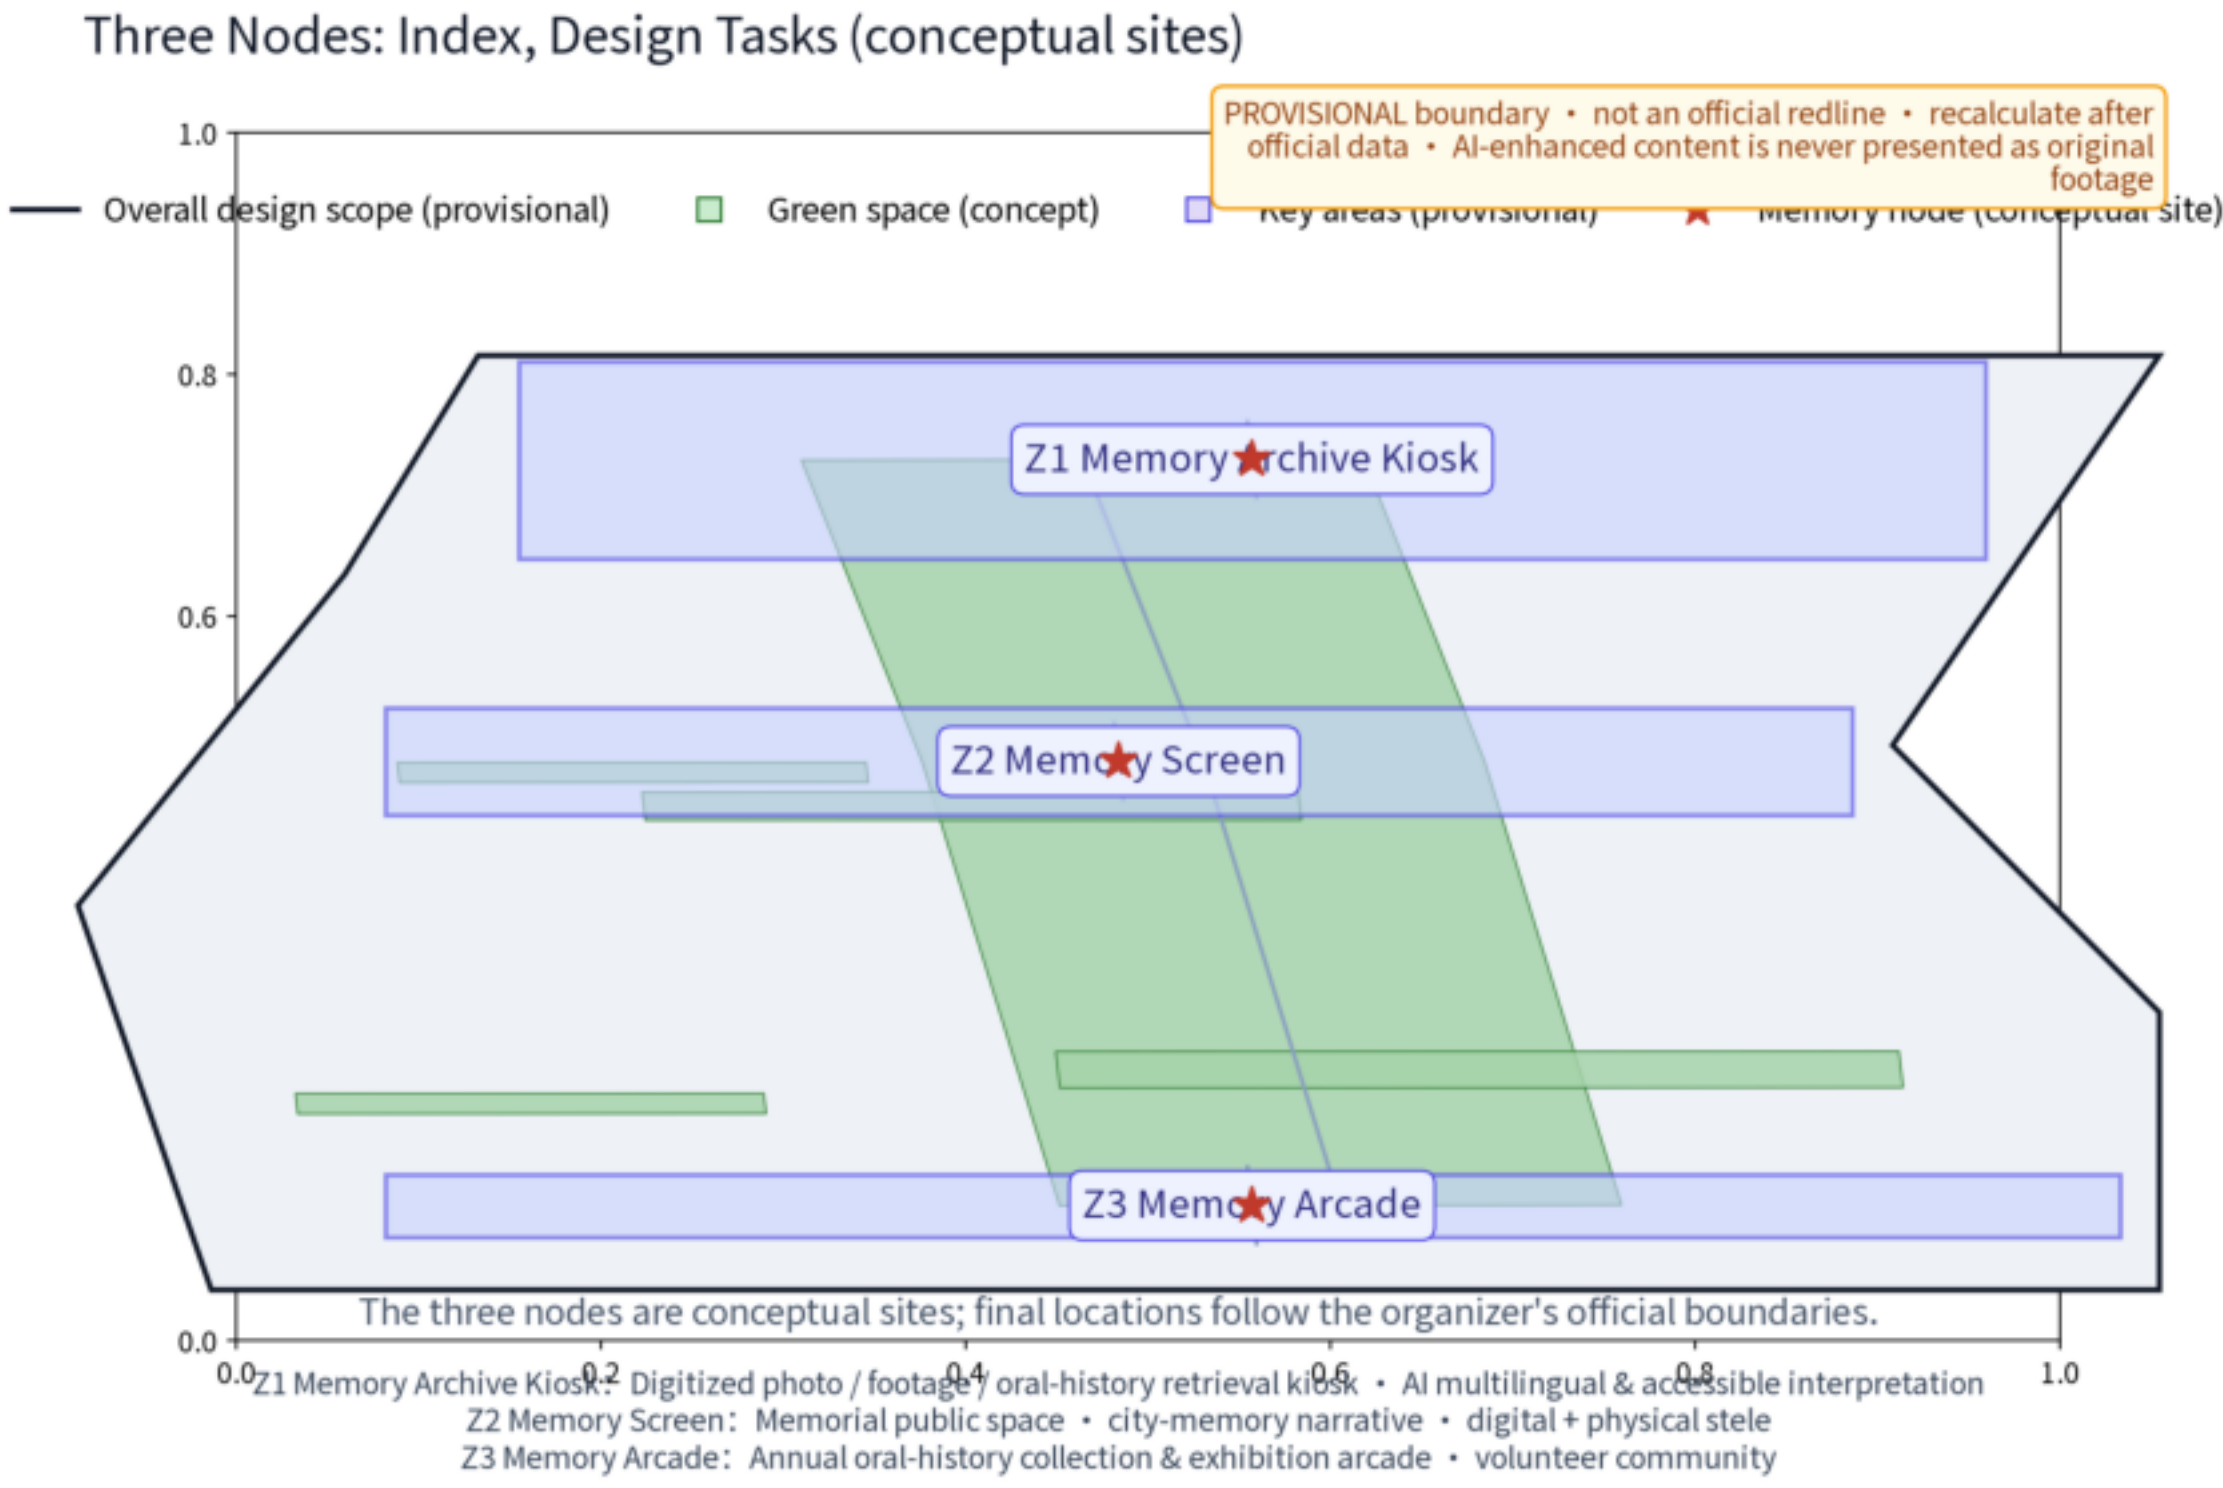

PROVISIONAL boundary • not an official redline • recalculate after official data • AI-enhanced content is never presented as original footage

- Overall design scope (provisional)
- Key areas (provisional)
- Green space (concept)
- Public space / plaza
- Conceptual memory spine (slow traffic)
- Memory node (conceptual site)
- Heritage zone (concept)

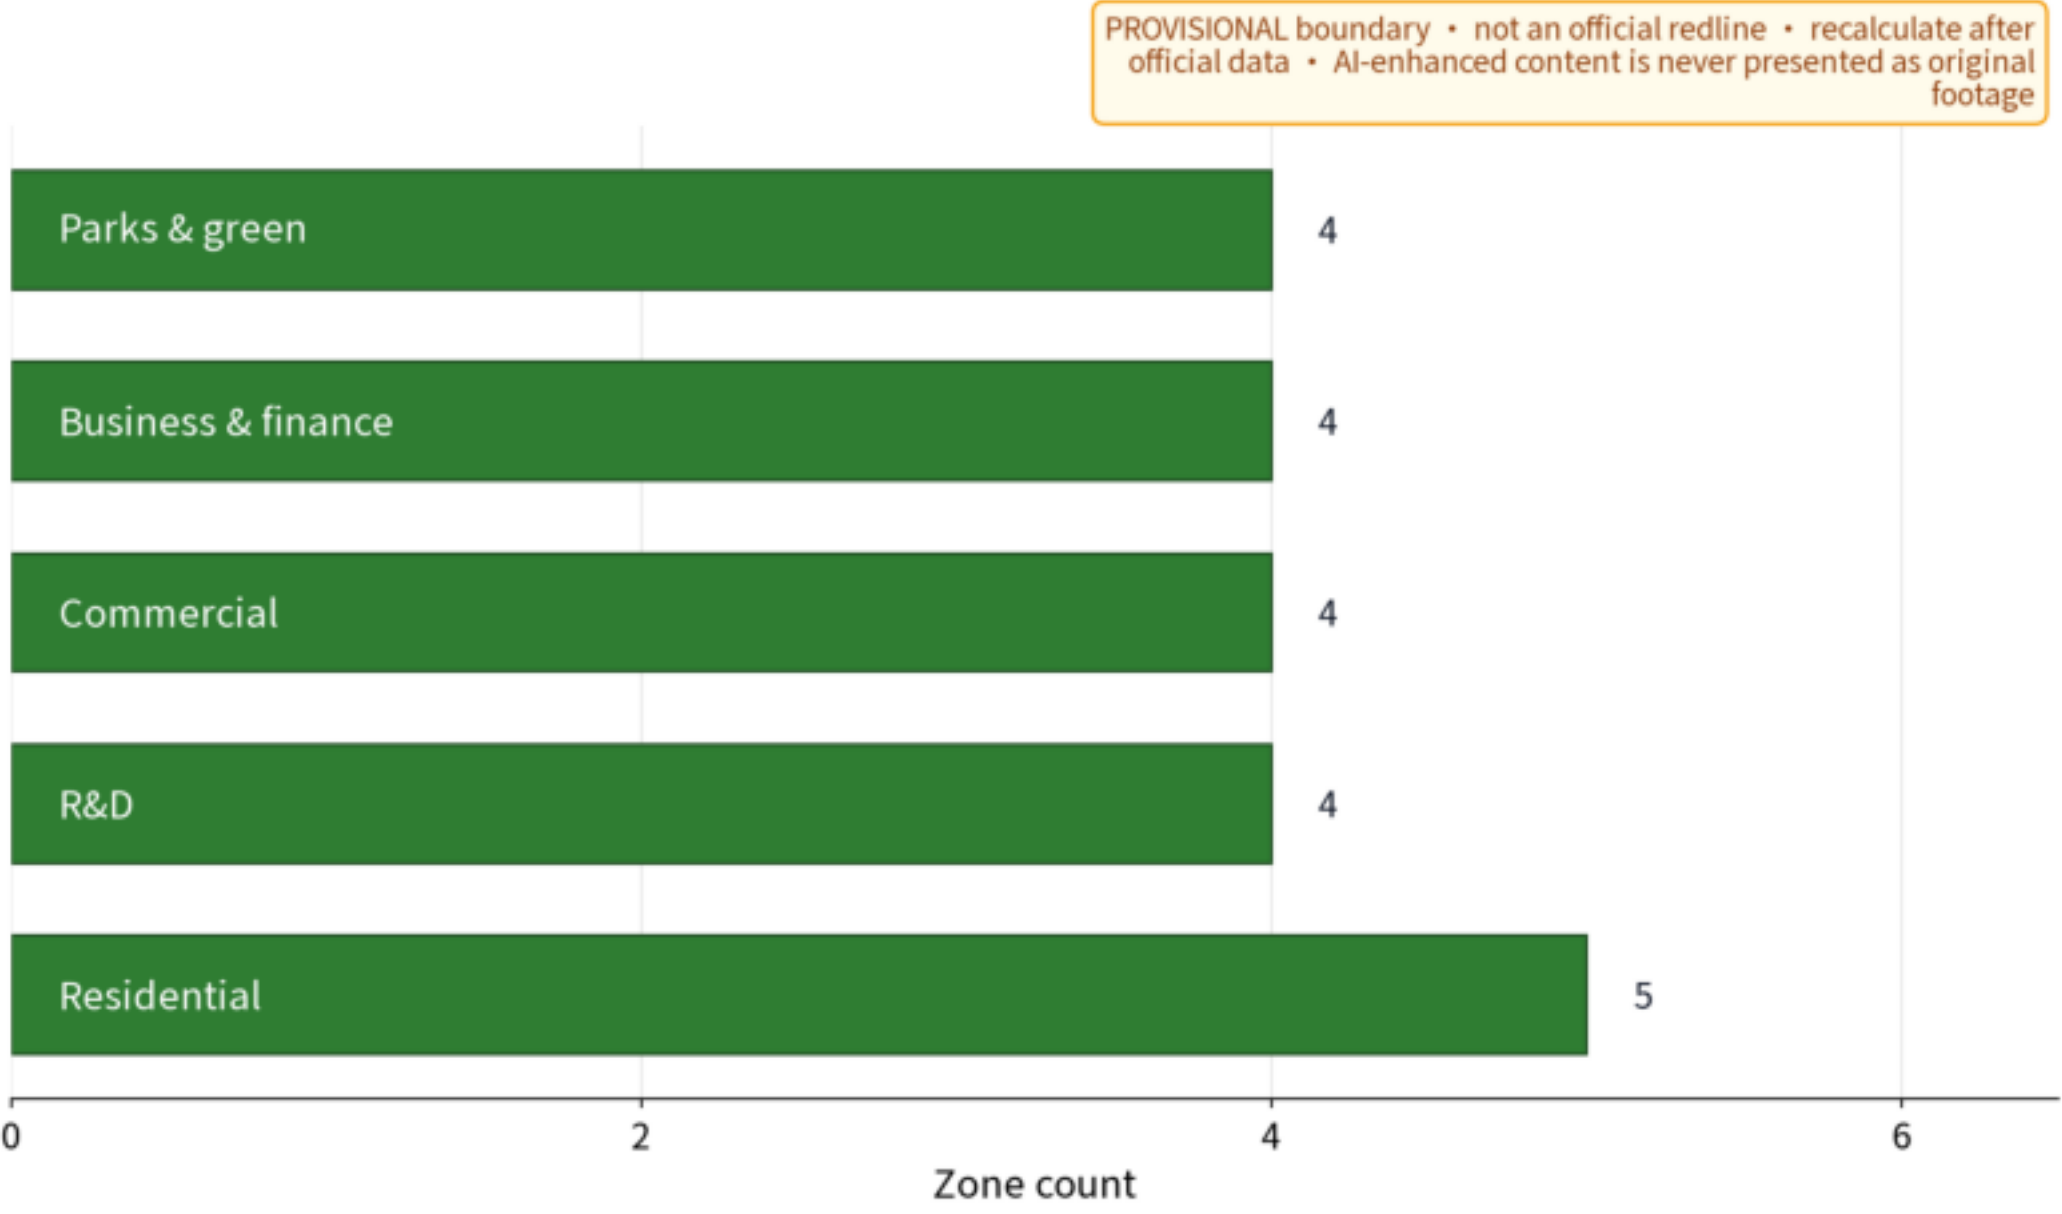

Areas and ratios are rounded concept values; recalculate by the declared formulas after the organizer publishes official boundaries and baseline data. Historical images/footage are directional only.

Three Nodes: Index, Design Tasks (conceptual sites)

Conceptual land-use structure (zone counts in land_use.geojson, single caliber)

Conceptual land-use structure (zone counts in land_use.geojson, single caliber)

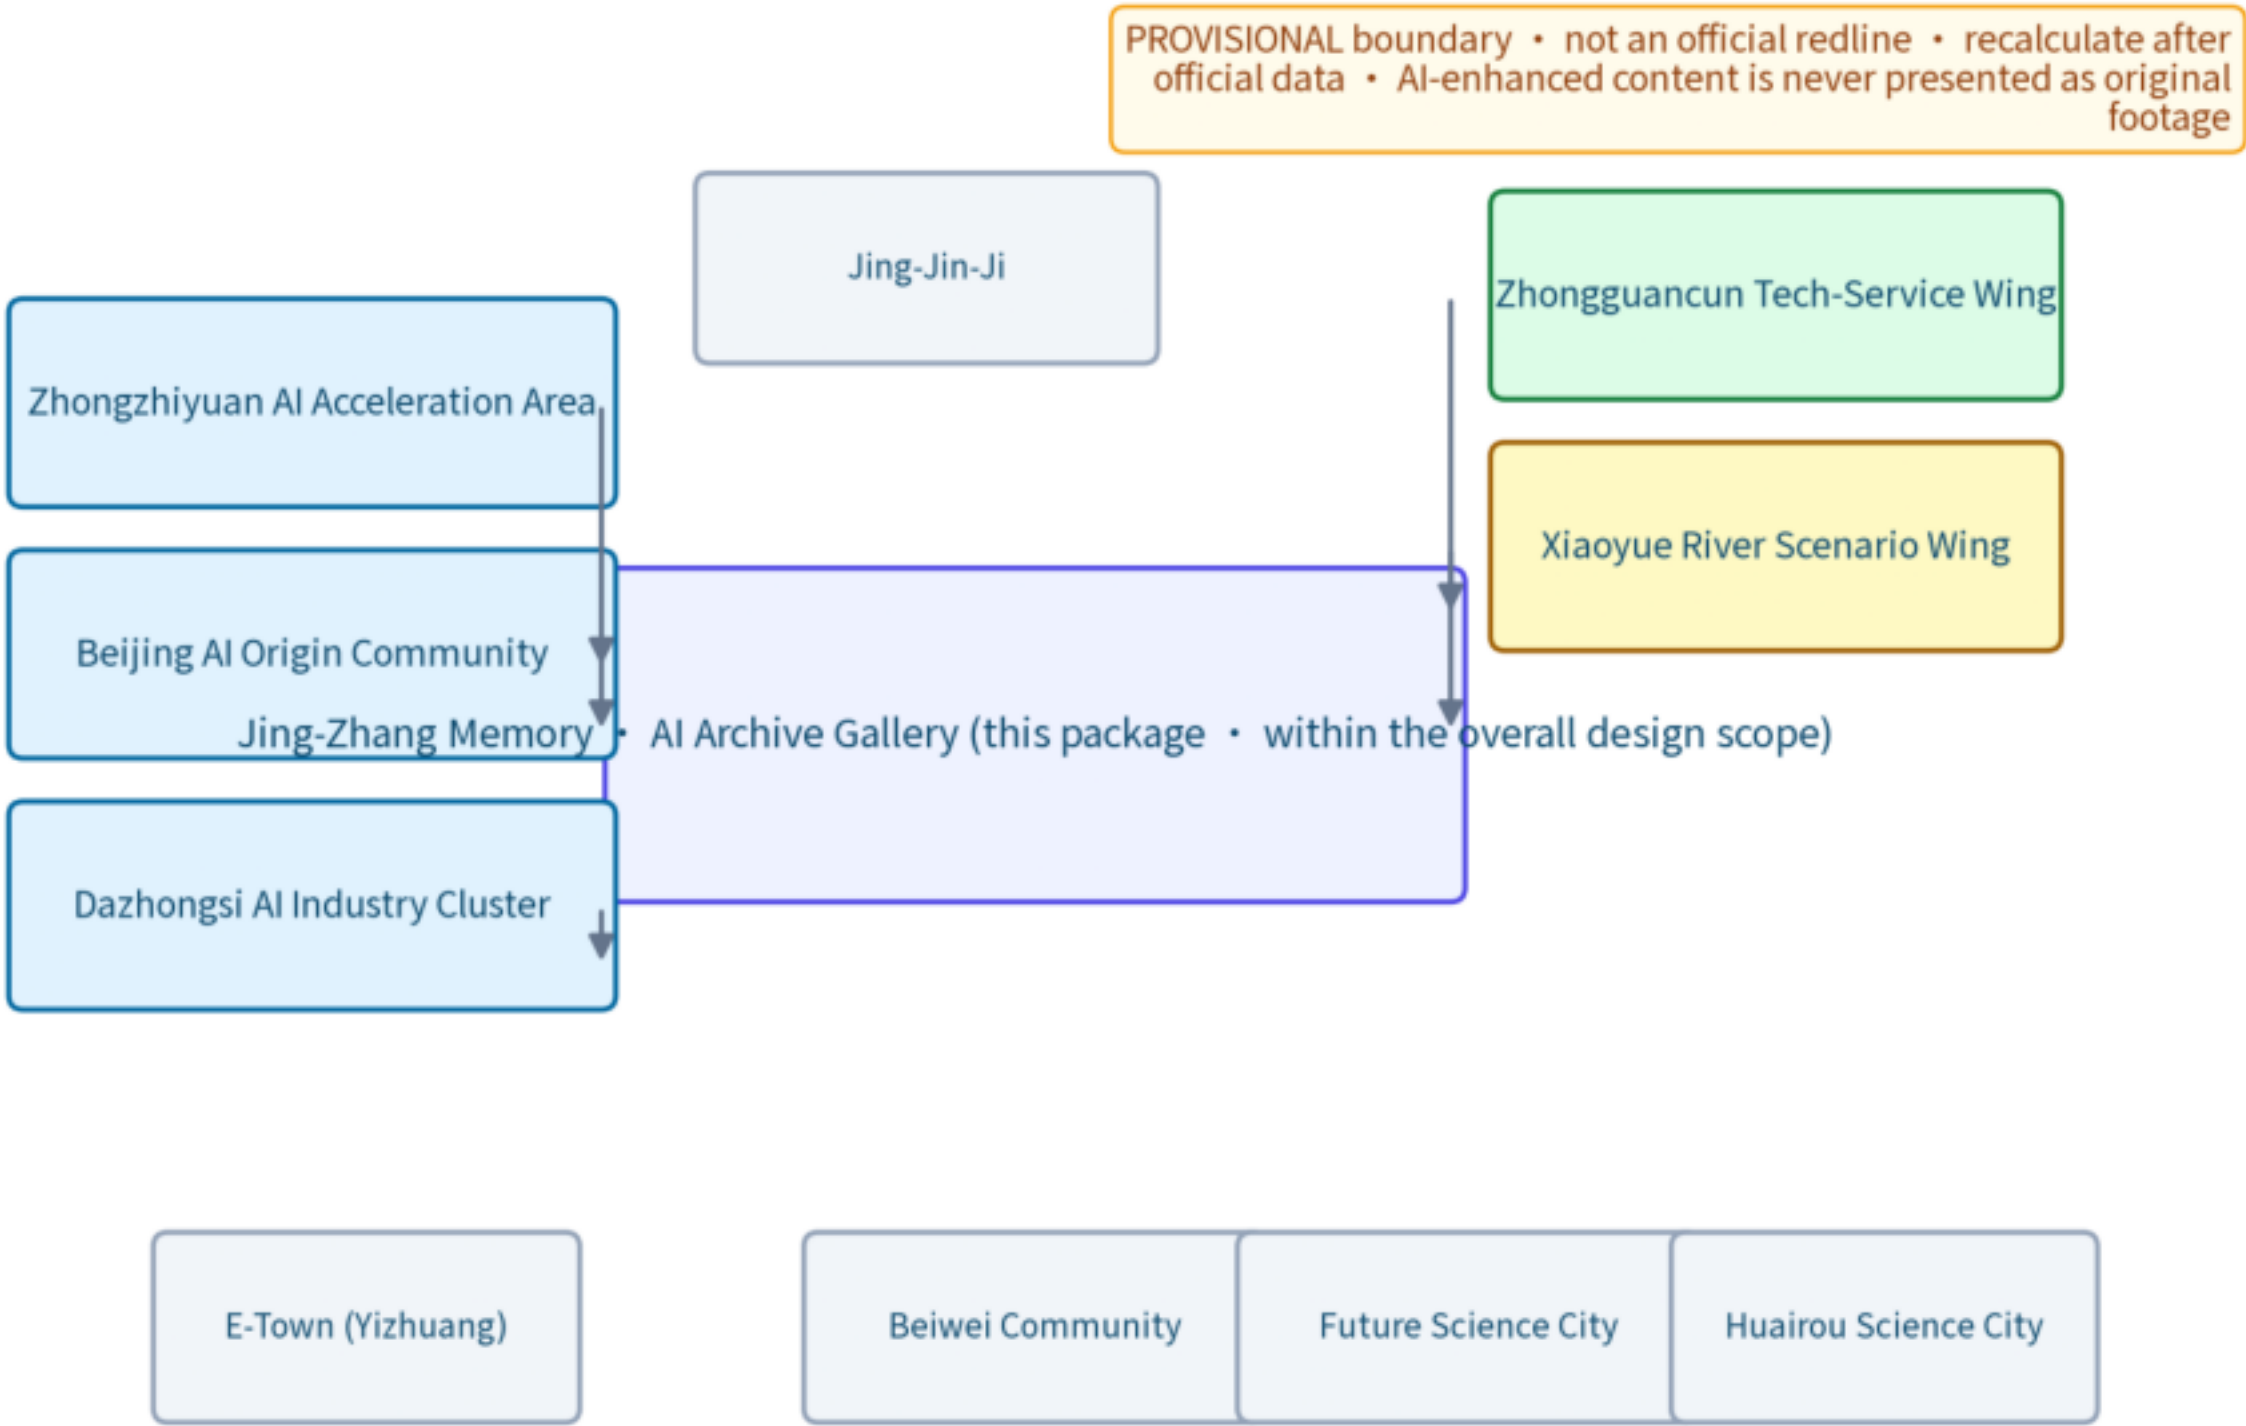

Land-use class names follow the national Land Use & Sea Classification Guide; no official baseline exists yet, shares are conceptual scenarios and will be recomputed by the same aggregation caliber after official data is published.

Jing-Zhang Memory • AI Archive Gallery

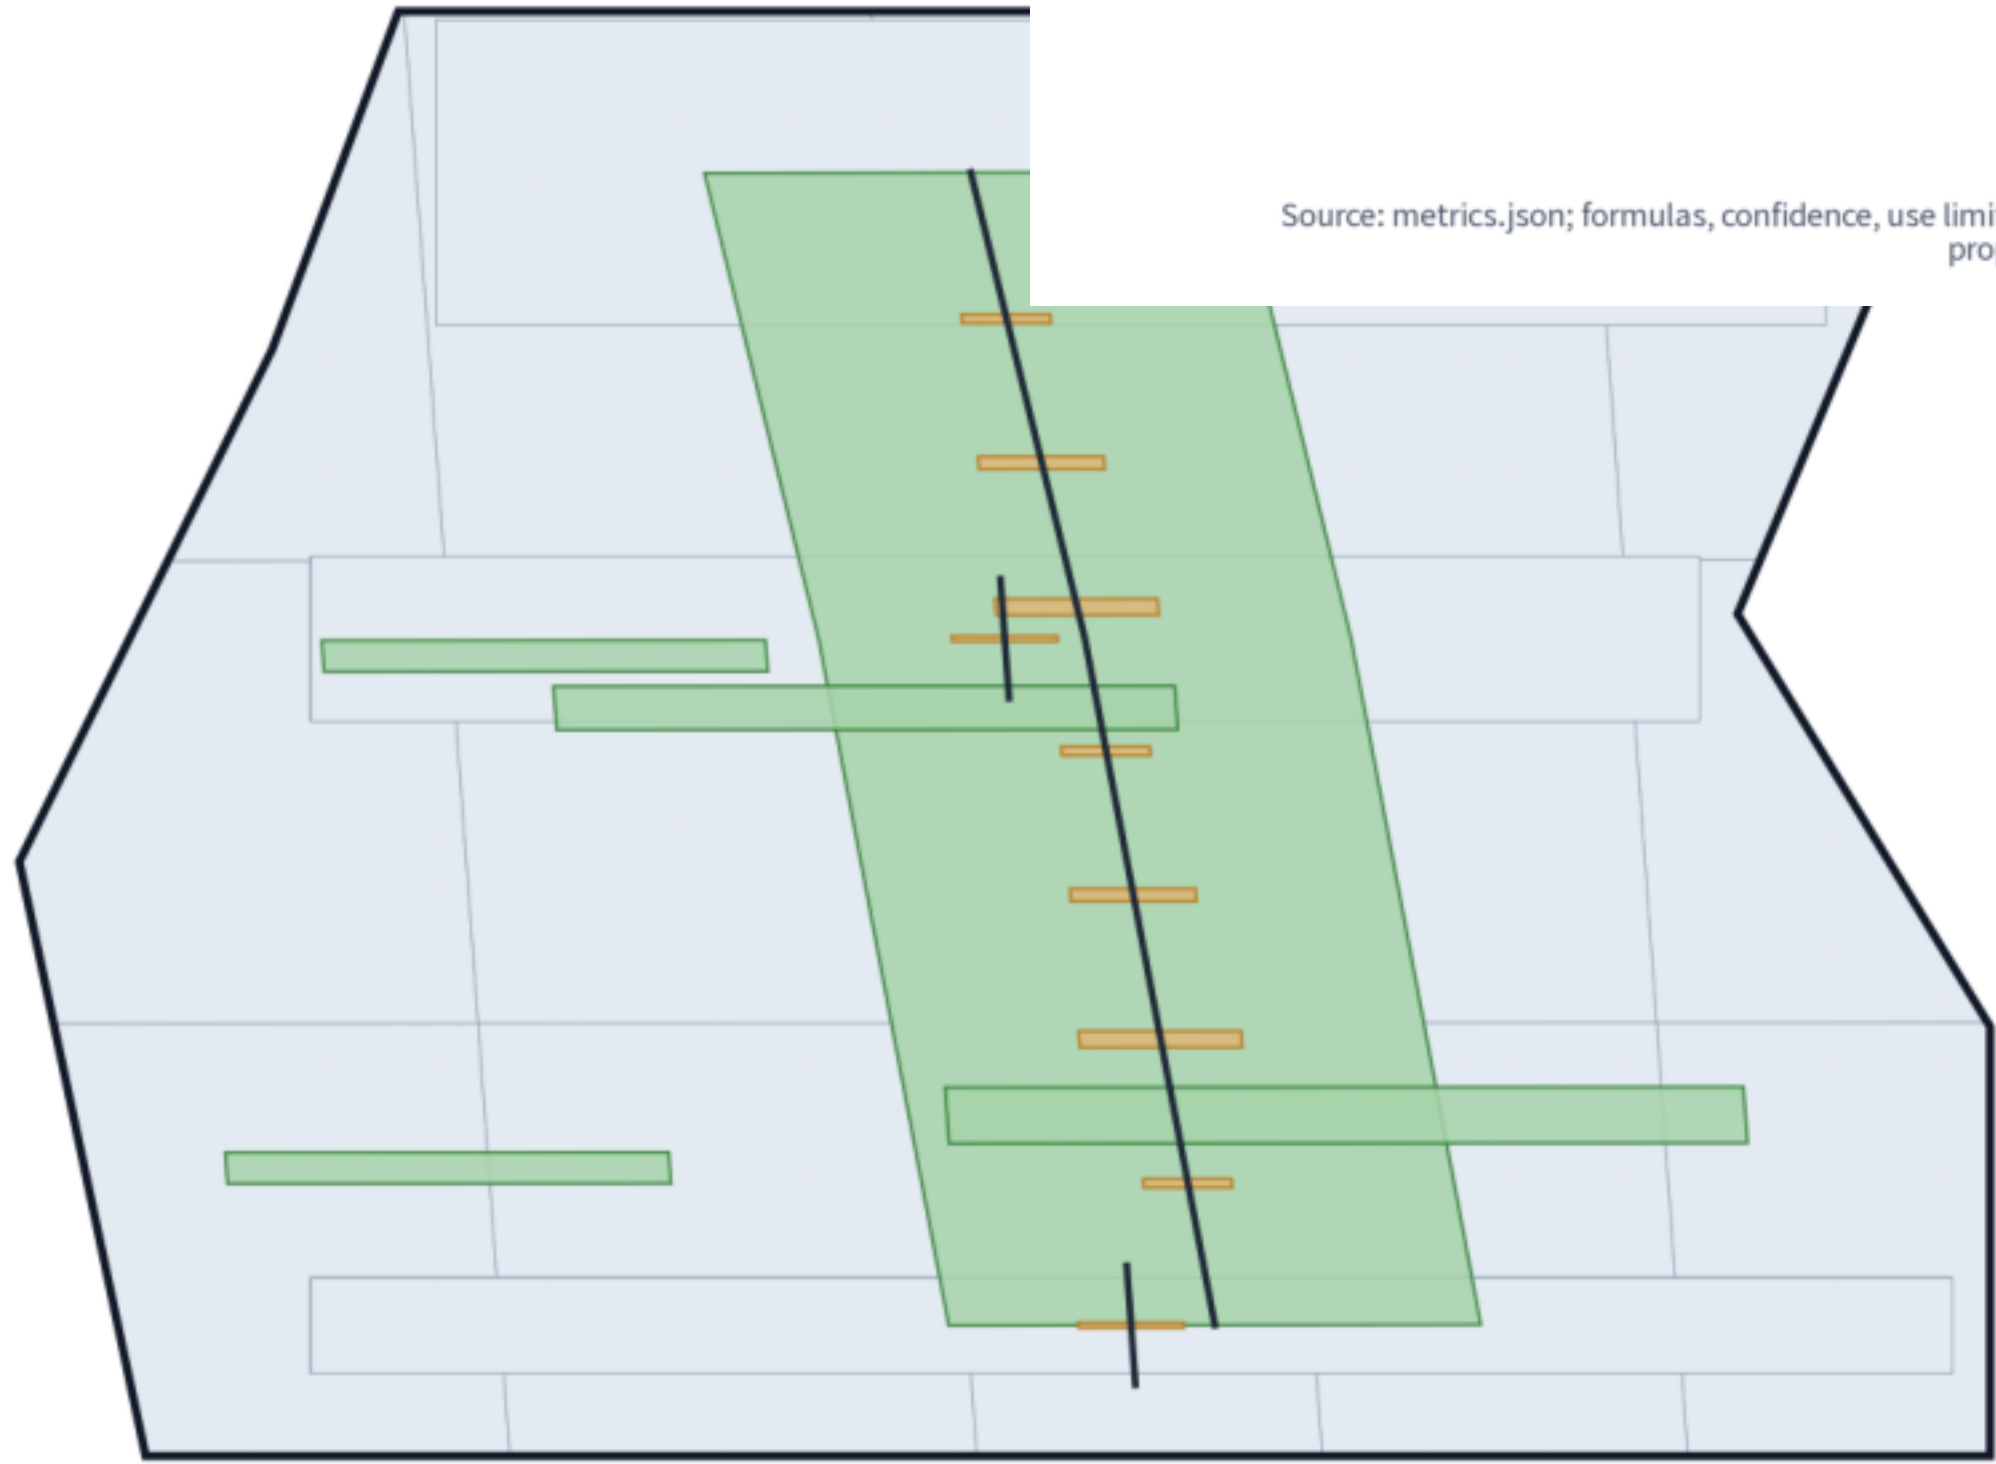

Regional Coordination (schematic)

Regional Coordination (schematic)

Schematic diagram only; no administrative boundaries or precise relative positions; coordination is a conceptual hypothesis.

Memory Routes & Blue-Green

Conceptual green space
Public space / plaza
Conceptual memory spine
Overall design scope (provisional)

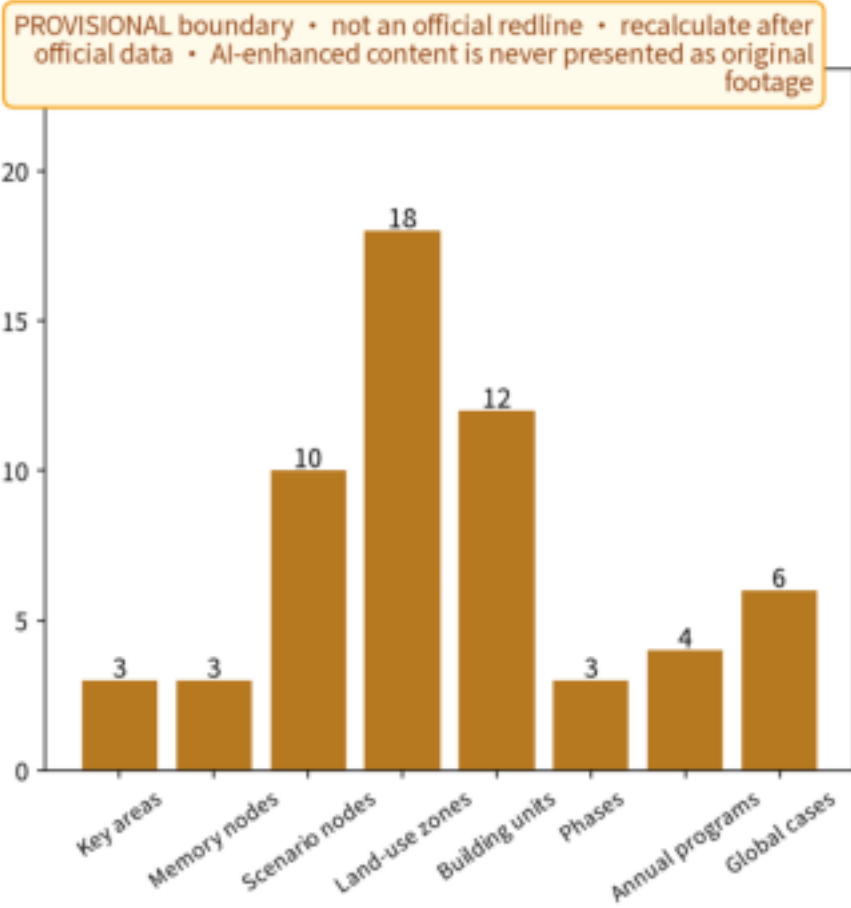

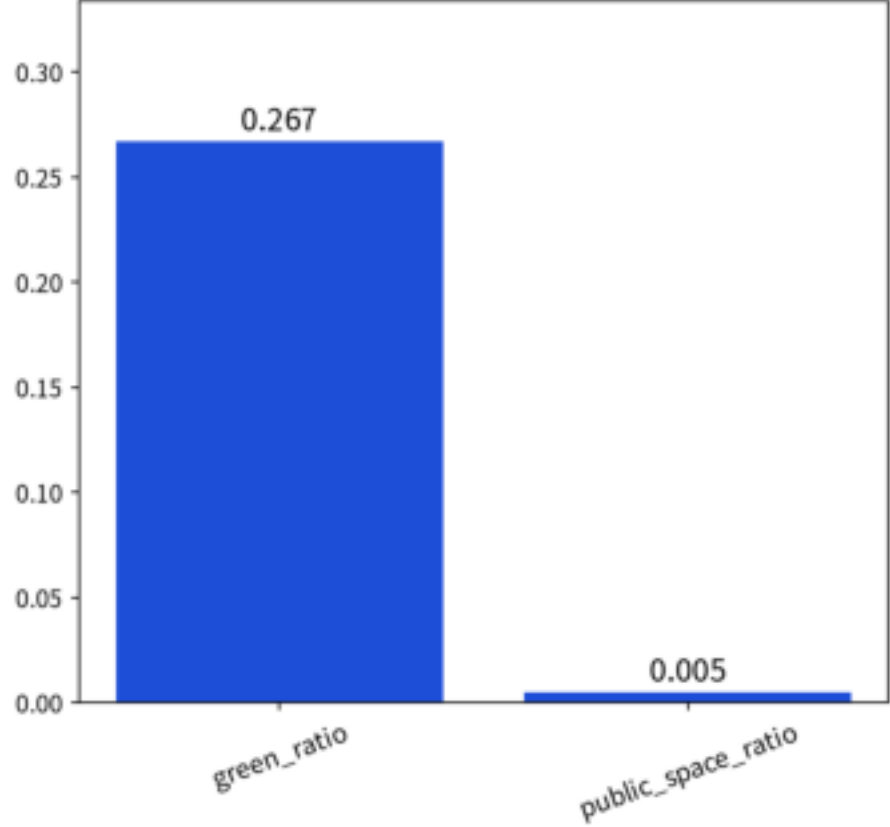

Areas and ratios are rounded concept values; recalculate by the declared formulas after the organizer publishes official boundaries and baseline data. Historical images/footage are directional only.

Key Metric Evidence (ratios and counts on separate axes, rounded)

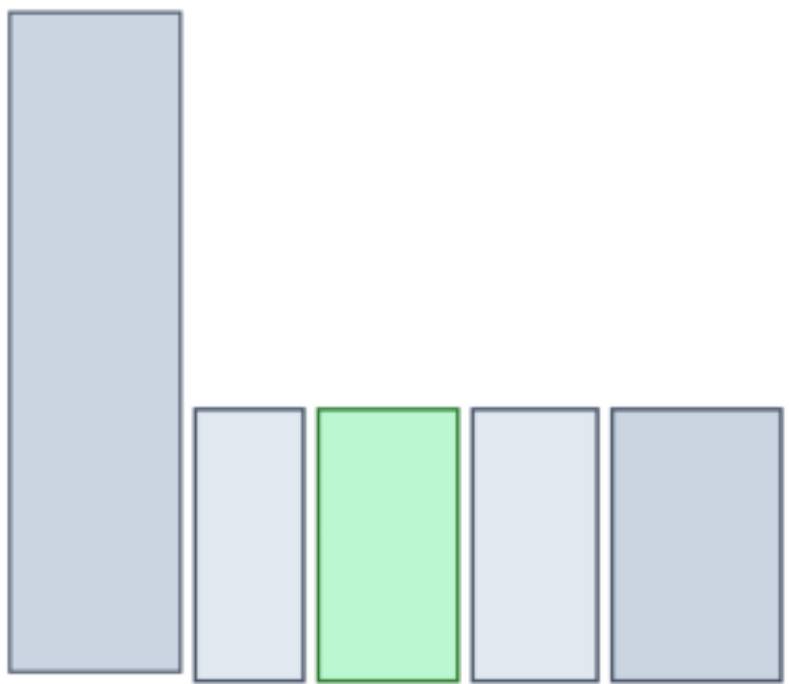

Memor

Key Metric Evidence (ratios and counts on separate axes, rounded)

Ratio metrics (rounded)

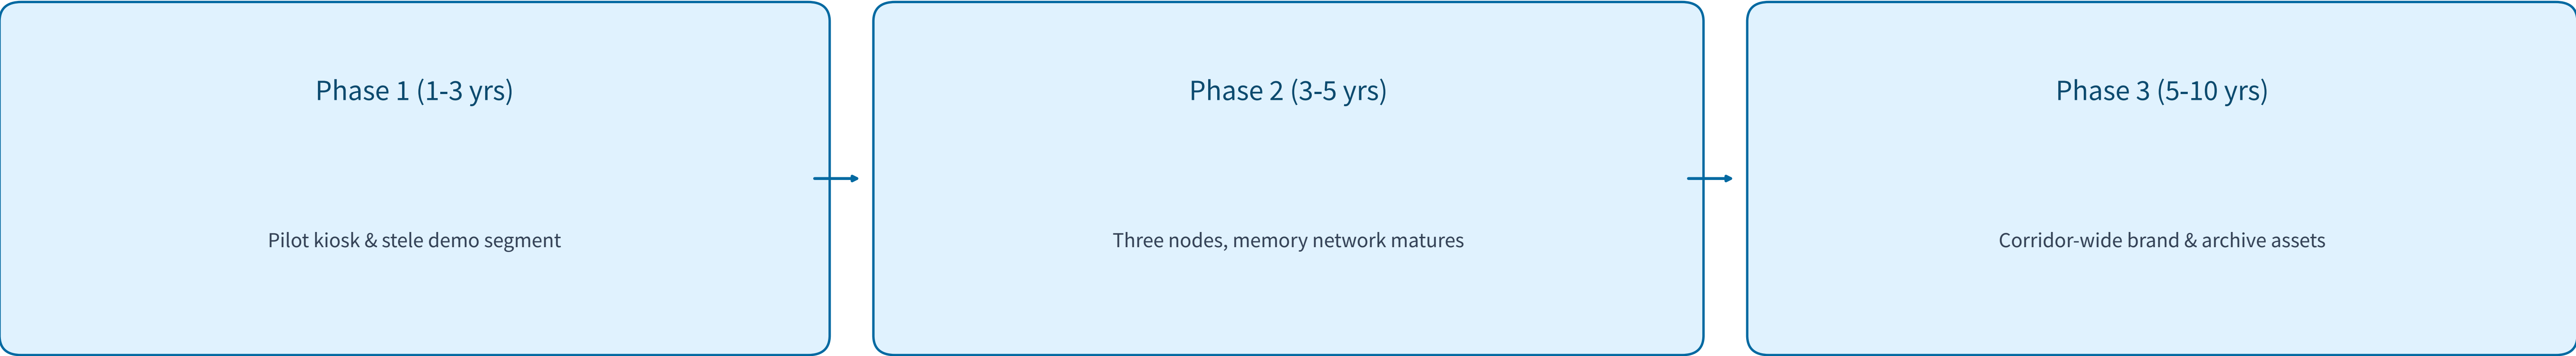

Street section (conceptual)

Building MemoryGreen belCycle lane Carriageway
ground floorwalkway

The section is a conceptual sketch, not an engineering cross-section.

Phased Implementation & Operation (concept)

Mechanisms: lean RACI (government coordinates / archives-museums collaborate / operators run / communities-volunteers oversee) • phase gates • rights-ledger audits • stop & exit conditions • annual memory disclosure and resident feedback channels
