Jingzhang Commons Gallery — Three Key Areas

A CONTINUOUS PUBLIC REALM LINKING HISTORY, COMMUNITY AND OPERATIONS

KEY AREA PLAN SHEET
Scale 1:1000 @ A1
Date: 24 MAY 2025

SHEET NO.
KC-01

NORTH
Zhongzhiyuan
Ready Gate

EDGE TEST YARD,
VERIFICATION PLAZA

KEY FEATURES

- 1 Edge Test Yard (calibrated space for trial assemblies and events)
- 2 Verification Plaza (public verification and display)
- 3 Ready Gate (threshold marker and wayfinding)
- 4 Perimeter Green Buffer (structural planting and shading)
- 5 Service Edge / Access Lane (operations and deliveries)

LEGEND

- Jingzhang Commons Gallery (primary route)
- Key Entry / Threshold
- Cross Link / Connection
- Key Feature (refer to list)
- Primary Paving
- Secondary Paving
- Service / Access Lane
- Tree (Proposed)
- Planting / Lawn
- Building (Existing / Planned)
- Canopy / Covered Walk
- Water Feature / Drainage
- Site Boundary

GENERAL NOTES

- Plans are illustrative and subject to detailed design.
- All dimensions in metres.
- Levels refer to project datum.
- For sections and material palette refer to KC-02.

RISKS & CONSIDERATIONS

- R1 Operations Conflict**
Risk of service vehicles conflicting with pedestrian priority areas.
Mitigation: Time-windowed access; bollards; clear signage and route separation.
- R2 Weather Comfort**
Wind and rain exposure along linear gallery.
Mitigation: Canopies, tree planting, and sheltered pause spaces.
- R3 Crowd Management**
Peak events may exceed comfortable capacities.
Mitigation: Flexible spaces; wayfinding; real-time management plan.
- R4 Heritage Interface**
Potential impacts on adjacent heritage fabric.
Mitigation: Setbacks, reversible interventions, and heritage oversight.
- R5 Maintenance & Stewardship**
Long-term upkeep of public realm elements.
Mitigation: Durable materials; clear maintenance zones; stewardship strategy.

SOUTH
Dazhongsi
Operations Handover Hall

STATION-CITY WALK,
CLOCK GALLERY

KEY FEATURES

- 1 Operations Handover Hall (transfer and coordination)
- 2 Station-City Walk (direct and accessible route)
- 3 Clock Gallery (time marker and orientation)
- 4 Canopy Walk (weather protection and comfort)
- 5 Mobility Hub (bike parking, micro-mobility, drop-off)

A0-5 Metrics and compliance

京张共证廊 · site 11412825.386 · green 0.259513 · public 0.118607 · PROVISIONAL

Jingzhang Commons Gallery — Metrics Recalculation

1. Metrics Recalculation (Calculation Process)

■ Site Area (site_area_sqm)
site_area_sqm = polygon_area(site_boundary, EPSG:4548) = 11,412,825.386 (sqm)
Notes: - site_boundary: Land parcel boundary (including enclaves) - Coordinate system: EPSG:4548 (CGCS2000 / 3-degree Gauss-Kruger Zone 48) - Calculation method: Planar polygon area (map projection)
■ Green Ratio (green_ratio)
green_ratio = 2,961,780.682 / 11,412,825.386 = 0.259513
Notes: - Green area (net): 2,961,780.682 sqm - Site area: 11,412,825.386 sqm - Result: 0.259513 (25.9513%)
■ Public Space Ratio (public_space_ratio)
public_space_ratio = 1,353,644.457 / 11,412,825.386 = 0.118607
Notes: - Public open space (net): 1,353,644.457 sqm - Site area: 11,412,825.386 sqm - Result: 0.118607 (11.8607%)

2. Known and Unknown Metrics (Metric Status)

Metric	Status	Value / Description	Source / Evidence
Known (Calculated / Verified)			
Site Area (site_area_sqm)	Known	11,412,825.386 sqm	Cadastral survey (EPSG:4548) site boundary
Green Area (net)	Known	2,961,780.682 sqm	LAND_USE (Green space) area total
Green Ratio (green_ratio)	Known	0.259513 (25.9513%)	Recalculation result
Public Open Space (net)	Known	1,353,644.457 sqm	LAND_USE (Public open space) area total
Public Space Ratio (public_space_ratio)	Known	0.118607 (11.8607%)	Recalculation result
Unknown (To Be Supplemented / To Be Verified)			
Floor Area Ratio (FAR)	Unknown	—	To be provided by design institute
Building Height (height)	Unknown	—	To be provided by design institute
Building Coverage (building_coverage)	Unknown	—	To be confirmed by LAND_USE statistics
Parking Spaces (parking_spaces)	Unknown	—	To be provided by design institute
Households / Population (households_population)	Unknown	—	To be provided by design institute

Note: The above unknown items may affect the recalculation of public space ratio.

3. Self-Check Metrics

Check Item	Check Content	Status	Notes
A. Boundary & Area			
A1 Boundary Integrity	Closed boundary, no overlaps	✓	Passed
A2 Coordinate Consistency	EPSG:4548	✓	Passed
A3 Area Calculation Check	Consistent with software	✓	Passed
B. Land Use Data (LAND_USE)			
B1 Classification Consistency	Uses official classification dictionary	✓	Passed
B2 Attribute (ted) Completeness	Complete field attributes	✓	Passed
B3 Geometry Validity	No slivers, no overlaps	✓	Passed
B4 Area Summation Check	Matches parcel total	✓	Passed
C. Metrics Recalculation			
C1 Public Open Space Consistency	Consistent with definition	✓	Passed
C2 Subcategory Consistency	Data source consistent	✓	Passed
C3 Result Reasonableness	Within reasonable range	✓	Passed
D. Evidence & Traceability			
D1 Data Version	Records with date	✓	Passed
D2 Evidence Completeness	Data → Calculation → Result	✓	Passed
D3 Reproducibility	Reproducible by others	✓	Passed
E. Visual & Data Consistency			
E1 Visual Matching	Matches metric definition	✓	Passed
E2 Legend & Classification	Matches data dictionary	✓	Passed
E3 Map-Data Alignment	Map matches data	✓	Passed

Status legend: ✓ Passed △ Minor Issue × Failed — N/A

Reference Metrics (Ratios)

Official Green Ratio = 0.123423 (12.3423%) | Development Intensity Index = 0.073281 (7.3281%)

Note: Reference ratios are for comparison only and internal discussion reference; not for compliance reporting.
