

01 Design Basis and Source Inventory

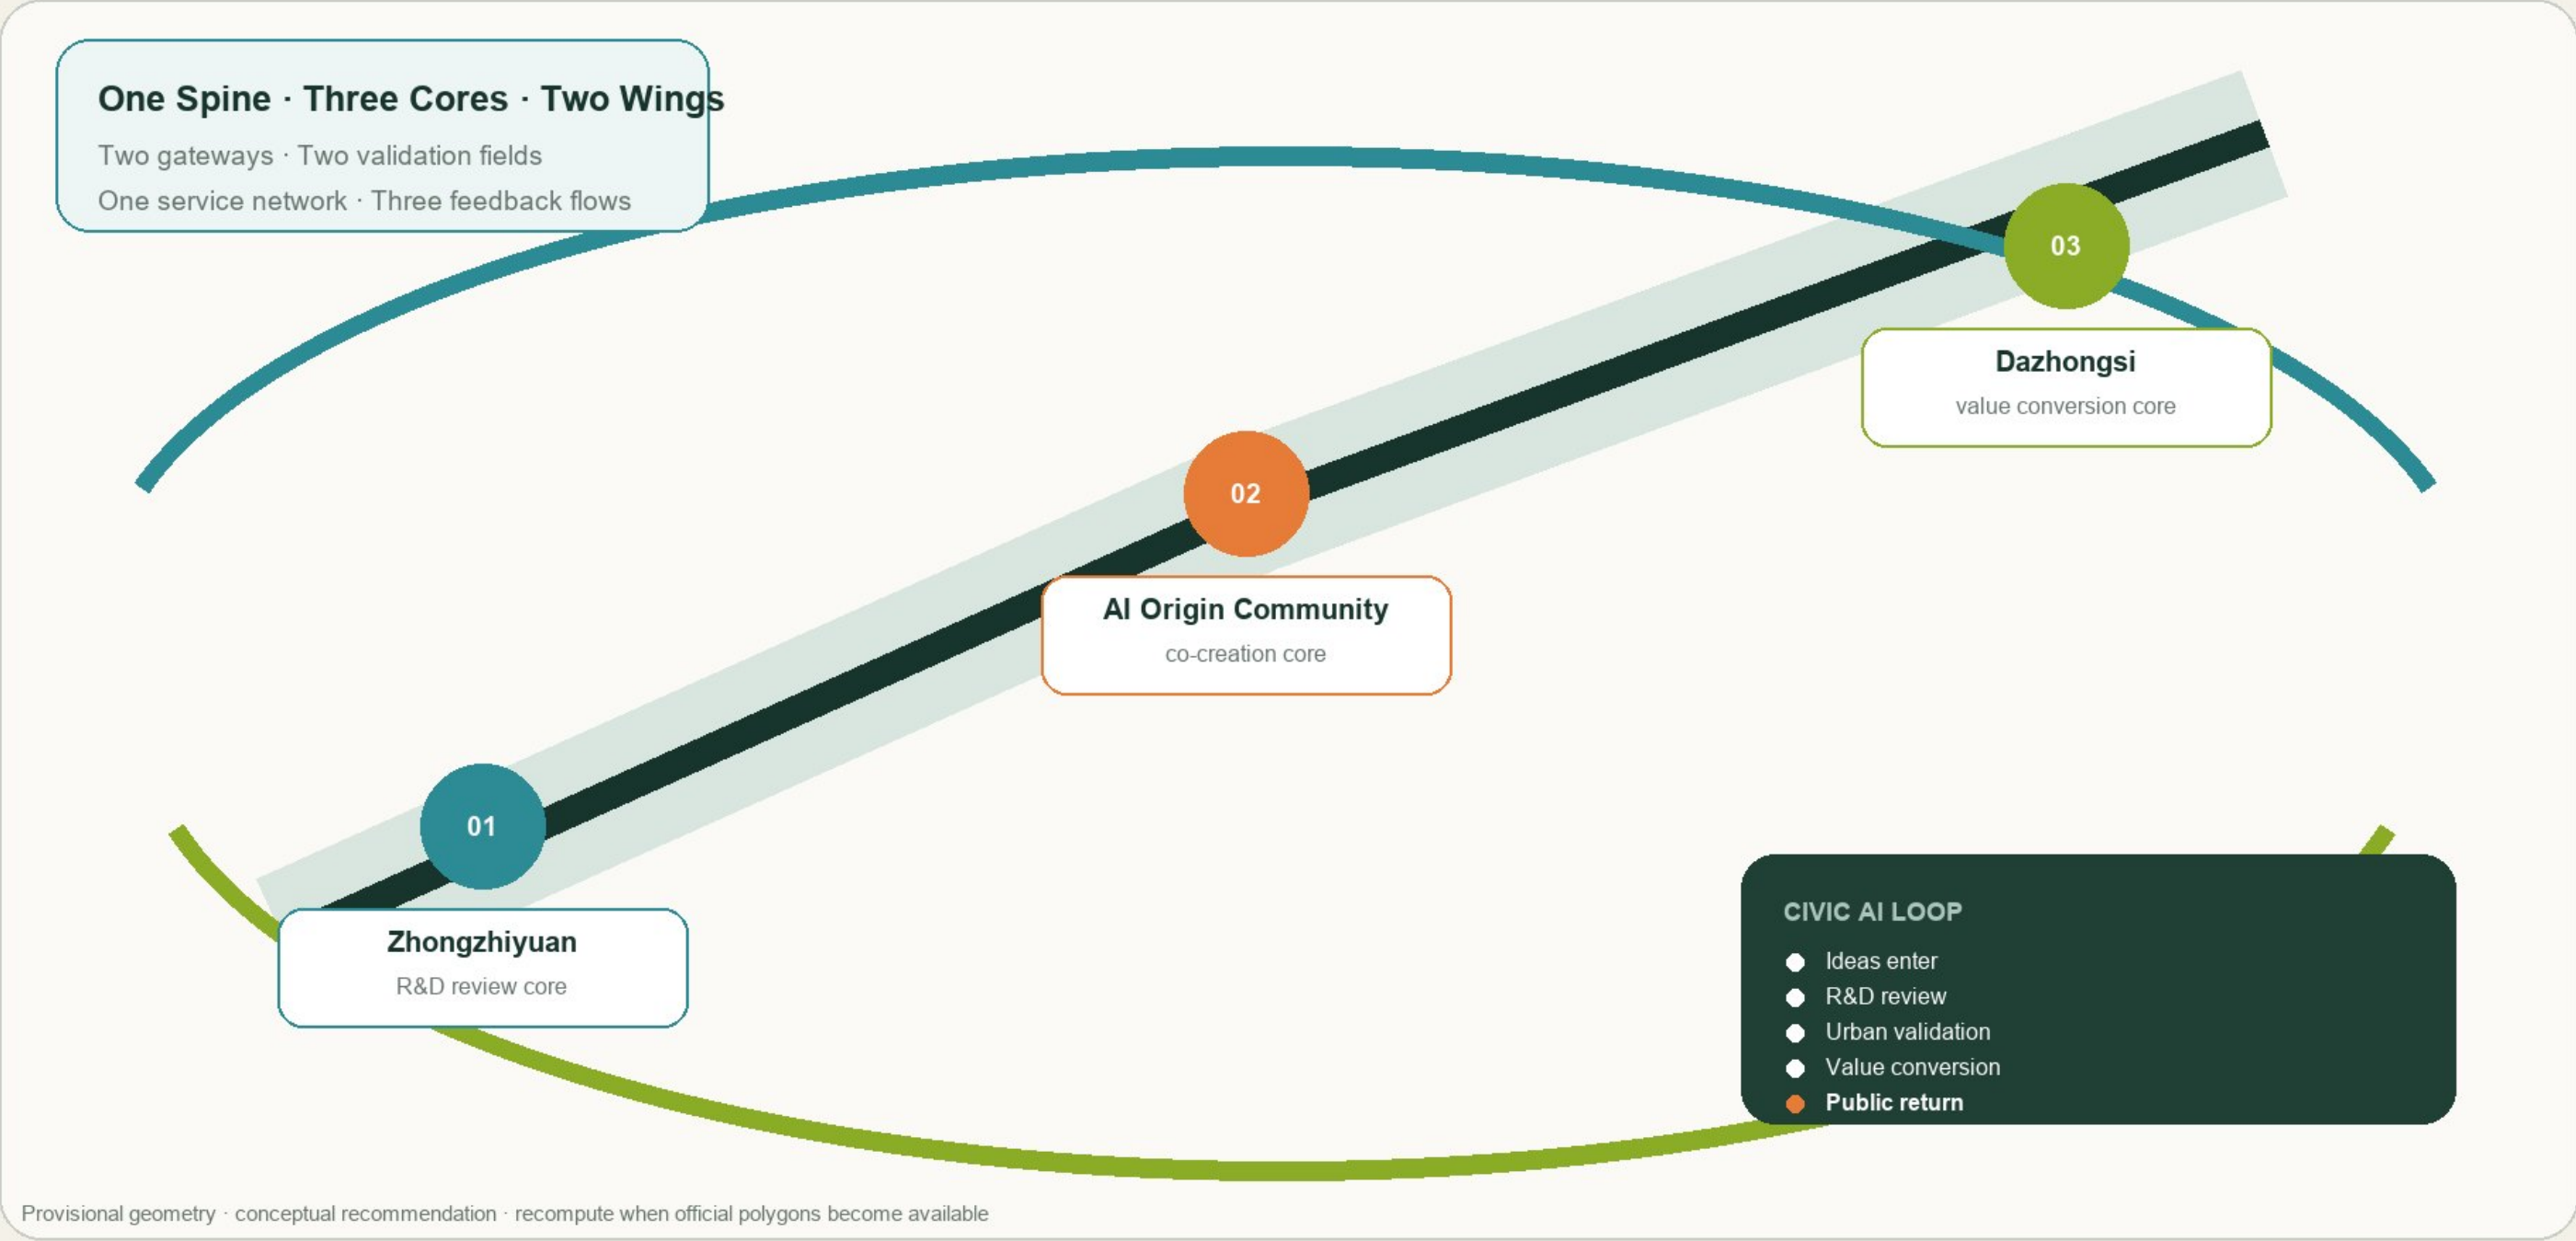

Public sources, provisional geometry and auditable evidence

CENTENNIAL JING-ZHANG × CIVIC AI

Jing-Zhang Civic AI Loop | Spatial Structure and Scenario Network

FIG-01 / EN / V1

43.6 km² coordinated research area | 11.4 km² overall design area | 3 provisional key areas

02 Three-Level Scope Framework

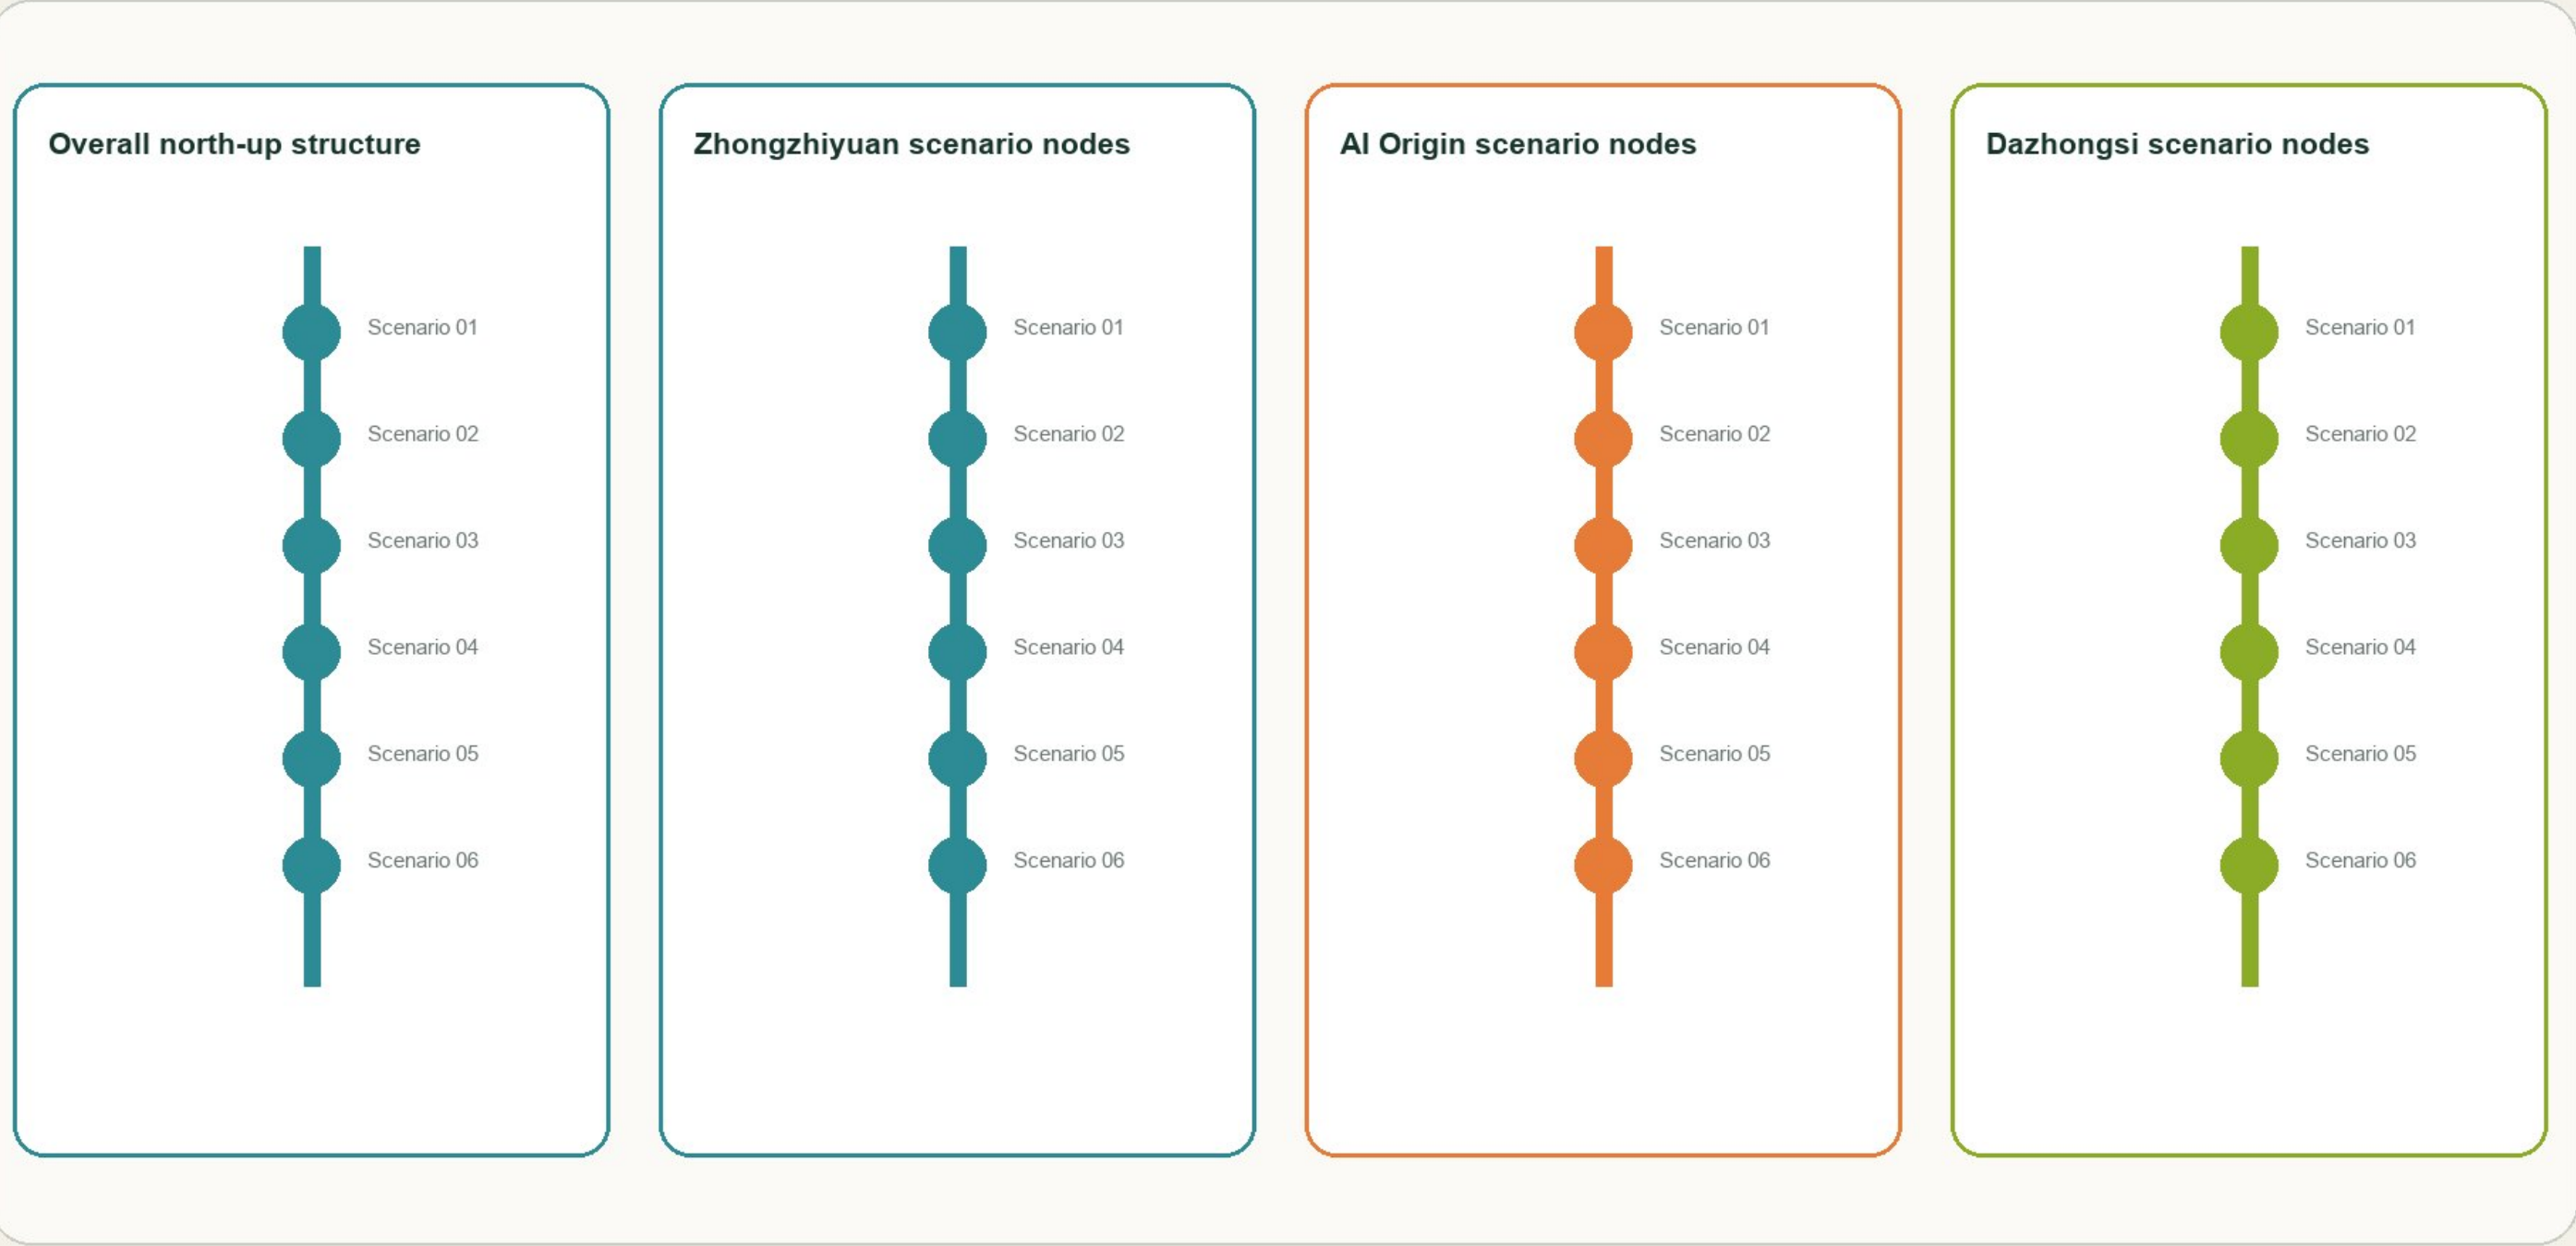

Coordinated research, overall design and three key areas

CENTENNIAL JING-ZHANG × CIVIC AI

North-Up Structure and Scenario Nodes in Three Key Areas

SUPPLEMENT / EN / V1

Overall corridor plus local scenario-node diagrams for Zhongzhiyuan, AI Origin Community and Dazhongsi

03 Industry and Future-City Strategy

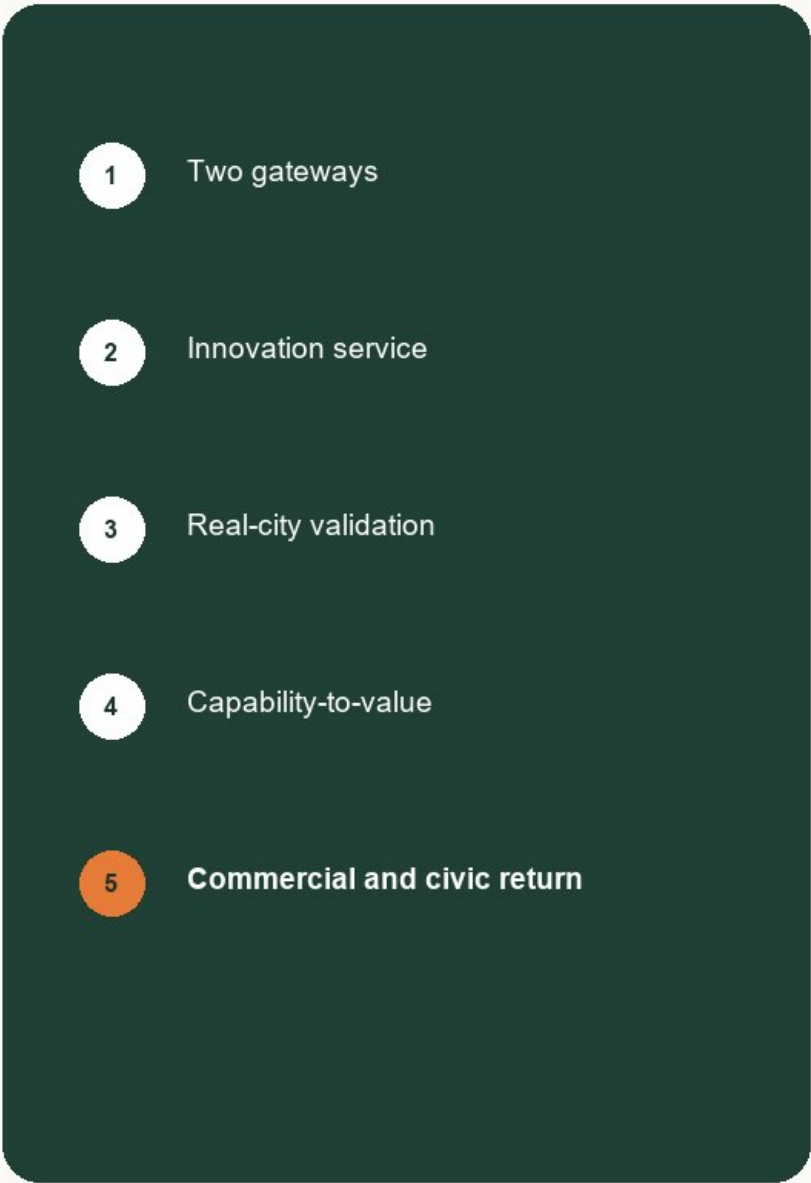

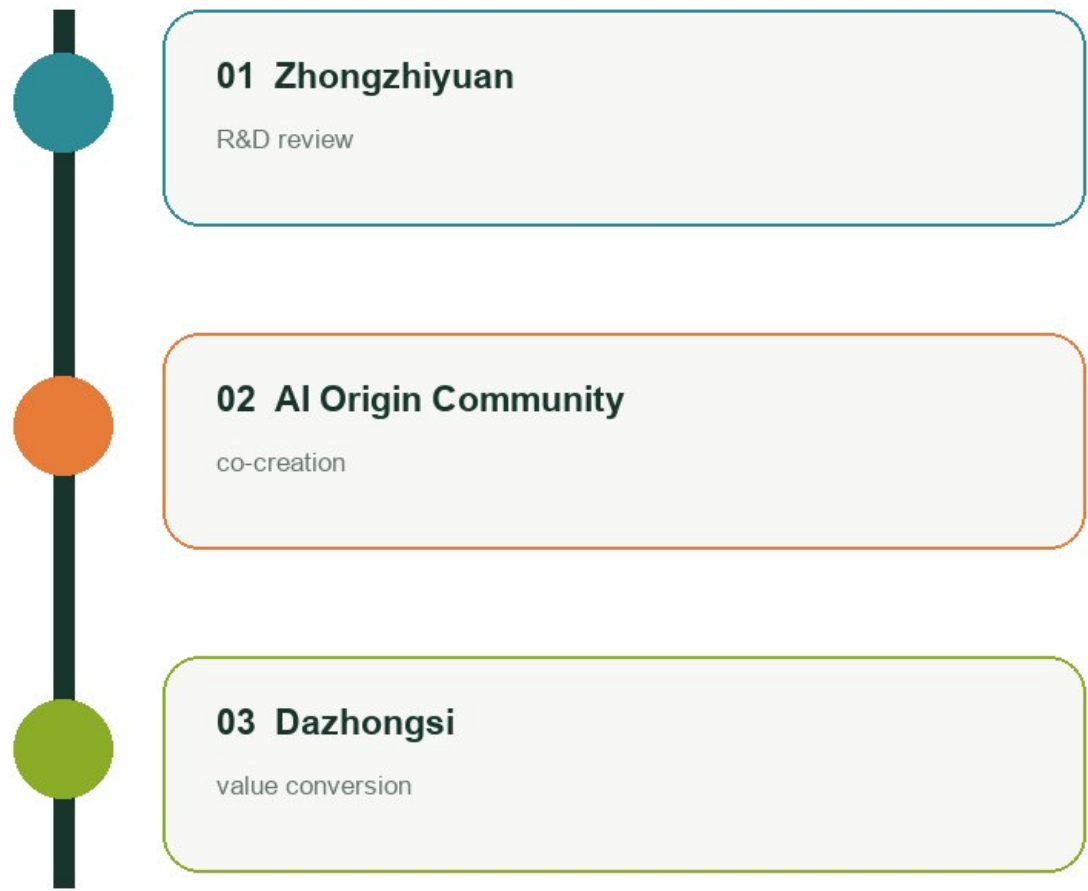

One spine, three cores, two wings and a civic feedback loop

CENTENNIAL JING-ZHANG × CIVIC AI

Jing-Zhang Civic AI Loop | Overall Concept and Spatial Framework

SUPPLEMENT / EN / V1

An institutional-spatial loop connecting youth ideas, R&D review, urban validation and public return

04 Overall Design and Urban Renewal

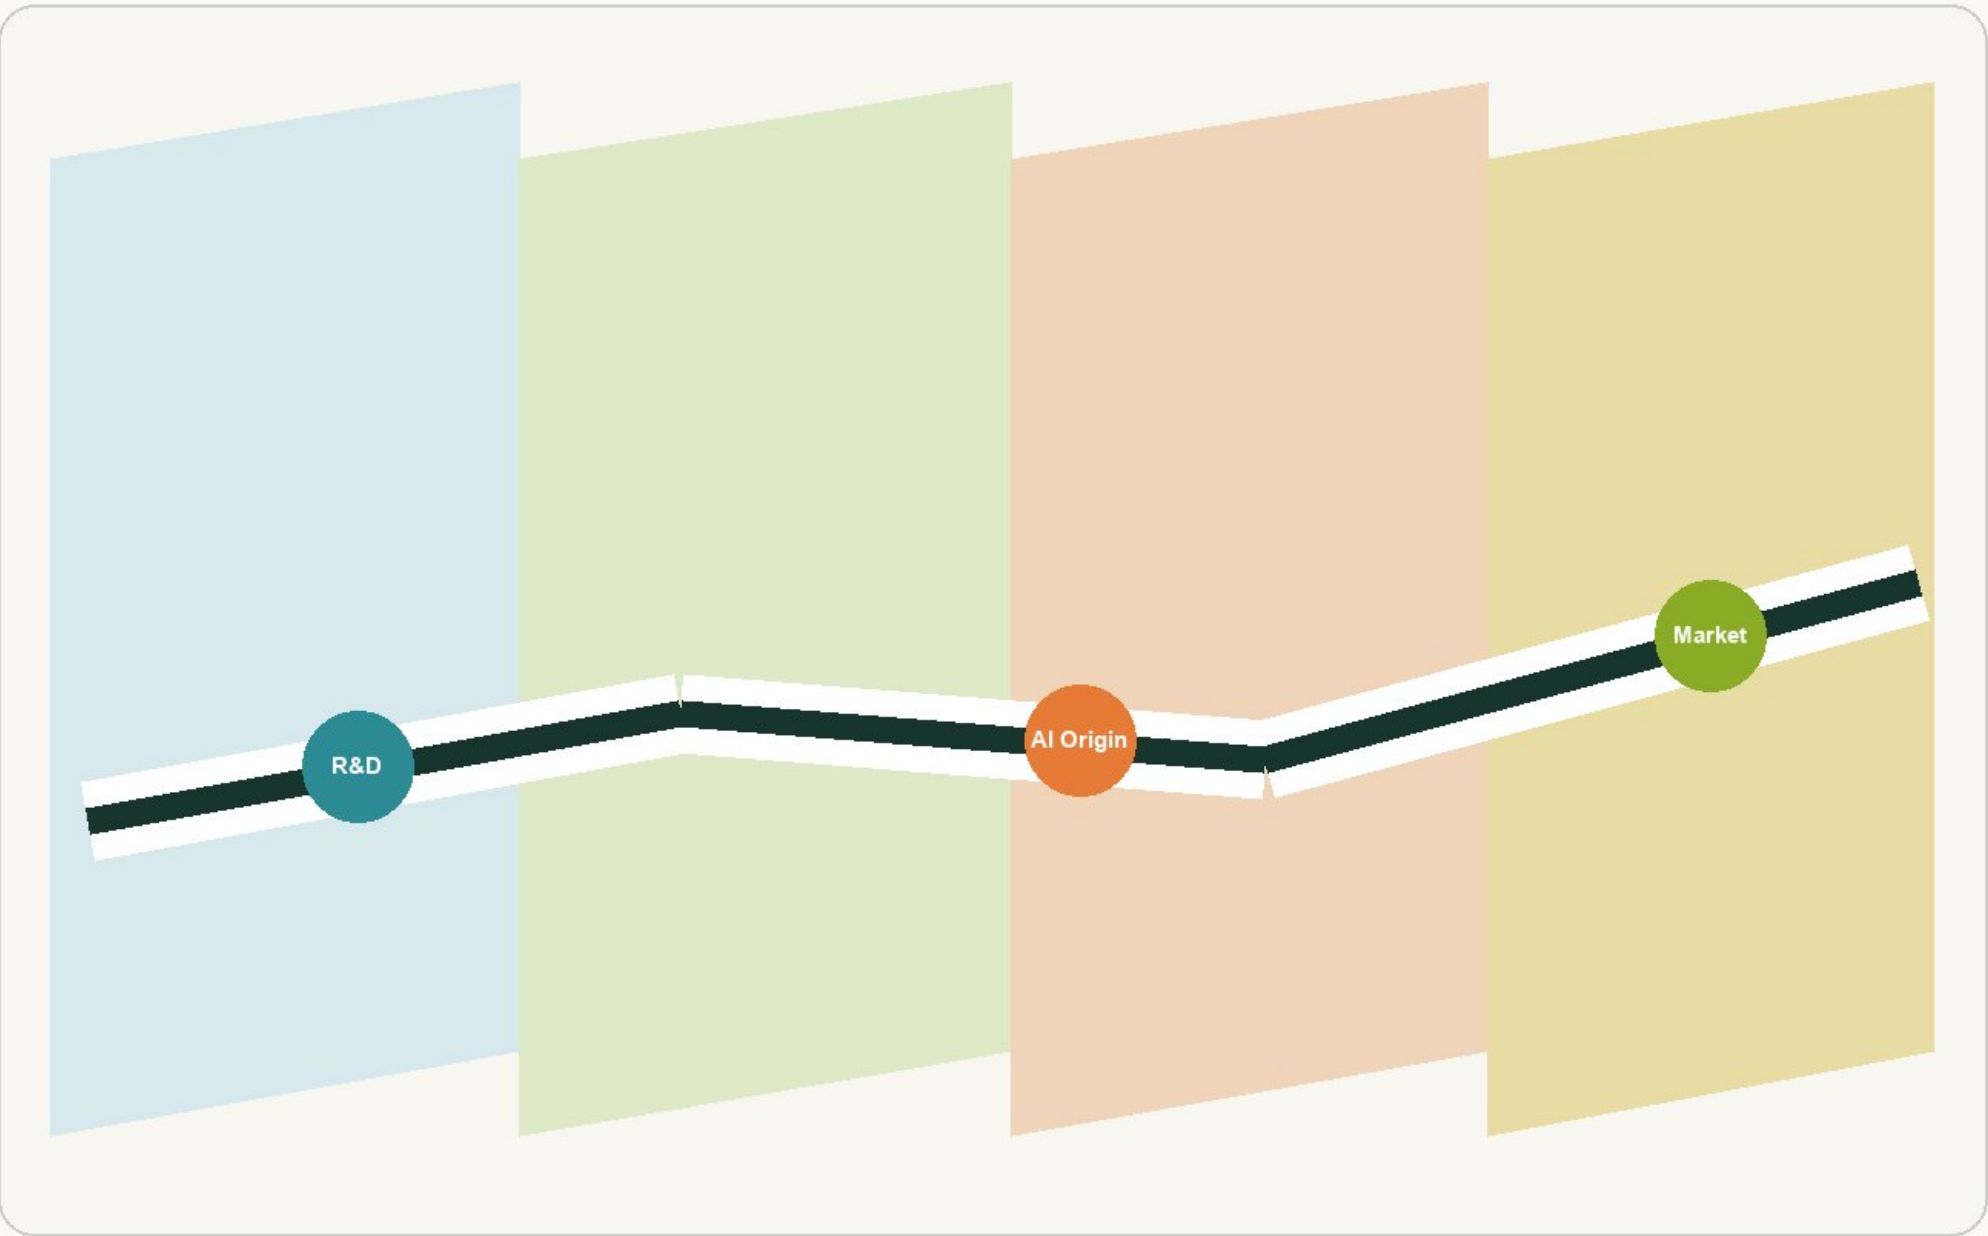

Conceptual land use, mixed functions and research-based renewal

CENTENNIAL JING-ZHANG × CIVIC AI

Overall Spatial Structure, Conceptual Land Use and Urban Renewal

FIG-02 / EN / V1

Mixed functions support research, public life, value conversion and youth-led innovation

FOUR CONCEPTUAL FUNCTIONS

- AI R&D and validation
- Blue-green park and urban testing
- Commercial services and value conversion
- Youth community and public innovation

RENEWAL ACTIONS

- 01 Retain & activate
- 02 Adaptive reuse
- 03 Repair public interfaces
- 04 Insert reversible modules

Not a statutory land-use plan, demolition decision or approval conclusion.

05 Detailed Design for Three Key Areas

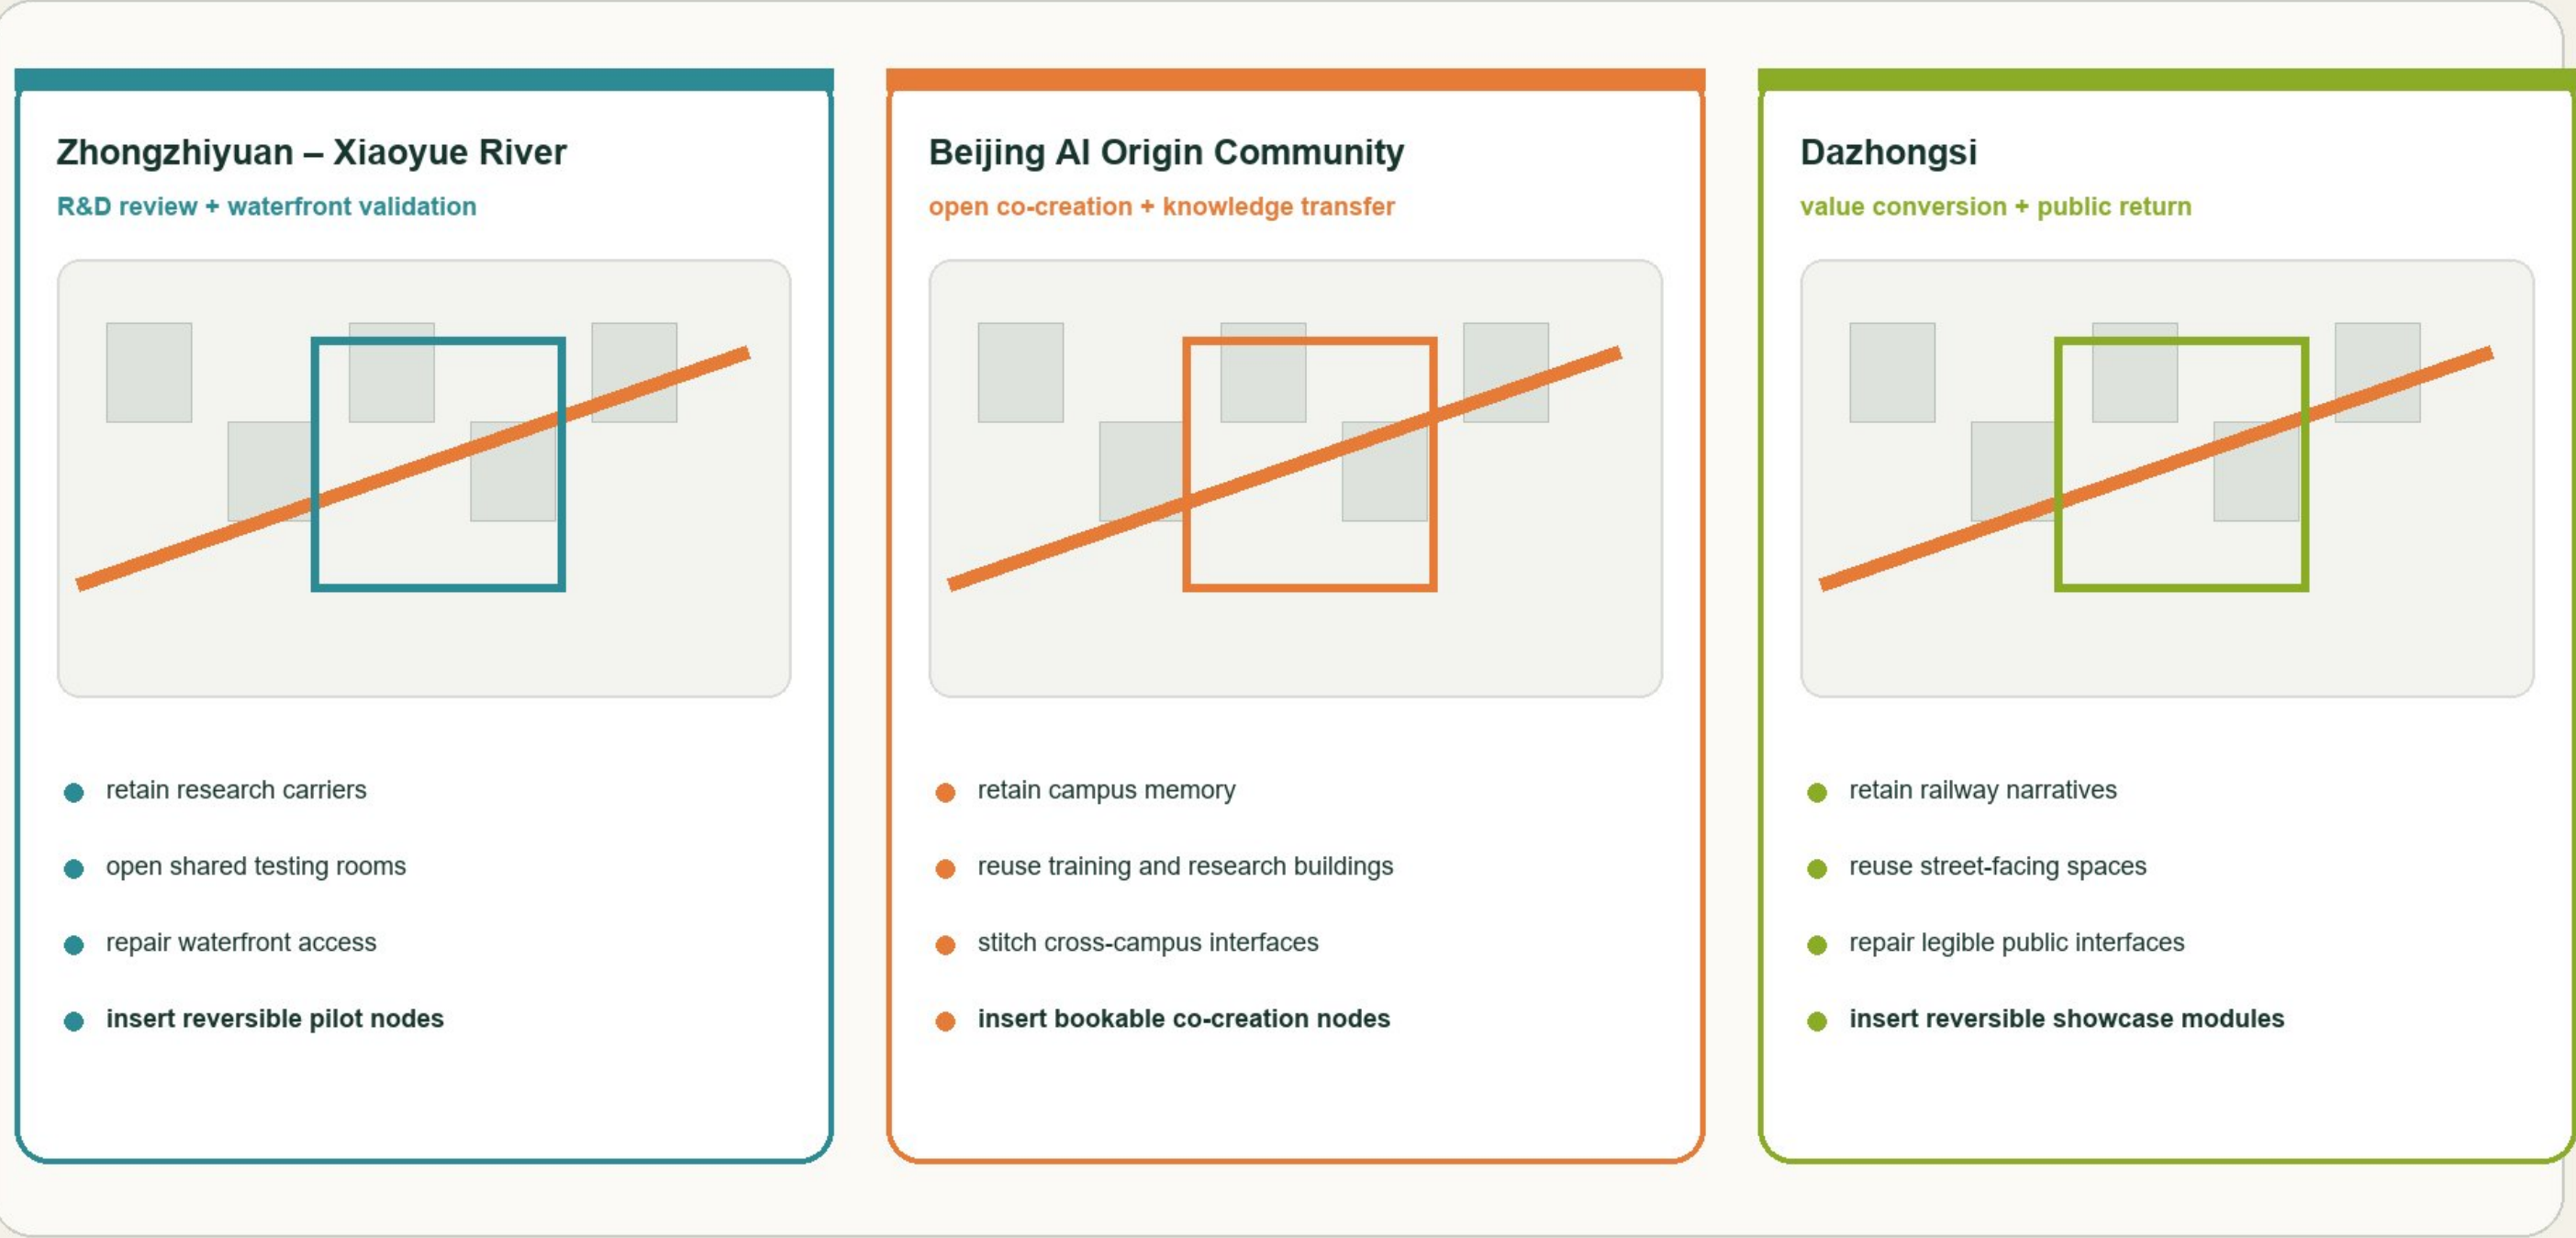

Zhongzhiyuan, AI Origin Community and Dazhongsi

CENTENNIAL JING-ZHANG × CIVIC AI

Three Key Areas | Detailed Design and Renewal Actions

FIG-03 / EN / V1

Provisional constraints translated into spatial programs, public interfaces and reversible pilot nodes

06 AI Innovation Ecosystem and Scenarios

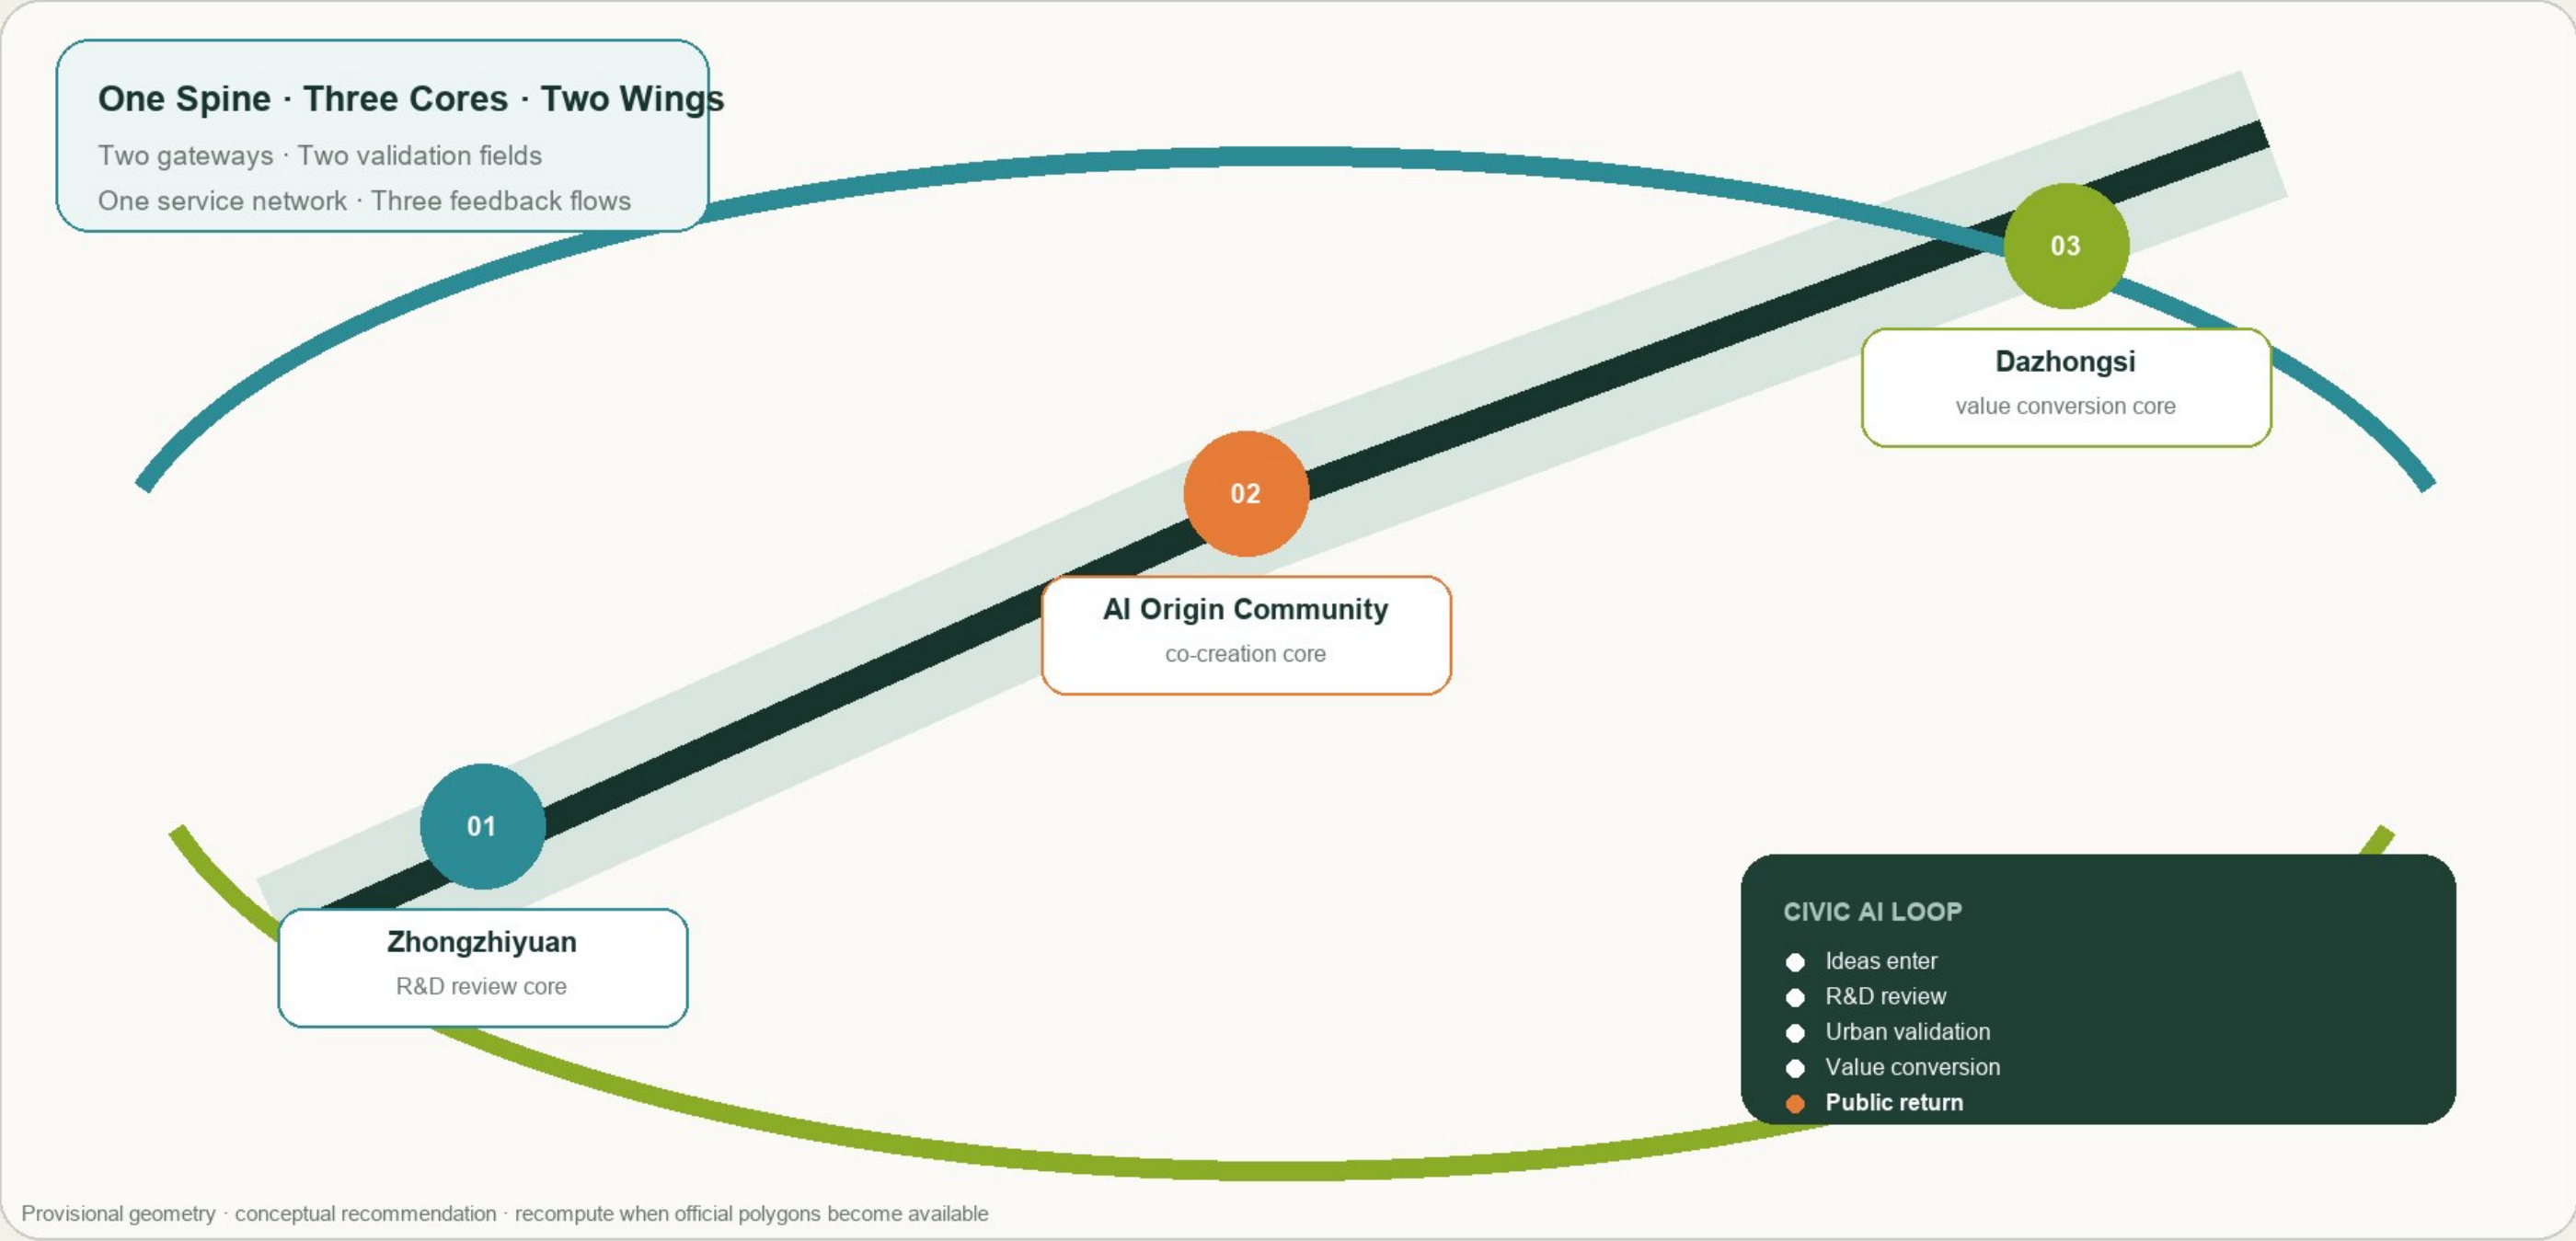

Scenario cards, personas, validation and public return

CENTENNIAL JING-ZHANG × CIVIC AI

Jing-Zhang Civic AI Loop | Spatial Structure and Scenario Network

FIG-01 / EN / V1

43.6 km² coordinated research area | 11.4 km² overall design area | 3 provisional key areas

07 Land Use, Buildings and Renewal Actions

Four renewal actions with spatial intent

CENTENNIAL JING-ZHANG × CIVIC AI

Four Urban-Renewal Actions | Explanation and Spatial Intent

SUPPLEMENT / EN / V1

Retain & activate · Adaptive reuse · Repair public interfaces · Insert reversible modules

01 Retain & activate

CORE VALUE

Preserve memory and public value while improving use.

KEY ACTIONS

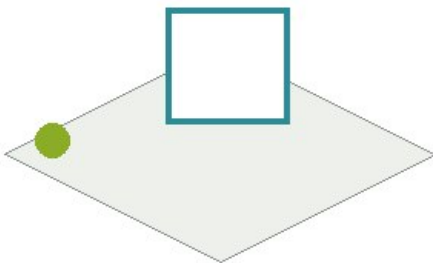

Diagnose first; open interfaces; keep changes reversible.

SPATIAL OUTCOME

Continuous routes, shared rooms and bookable nodes.

BOUNDARY

Conceptual recommendation; professional review required.

02 Adaptive reuse

CORE VALUE

Preserve memory and public value while improving use.

KEY ACTIONS

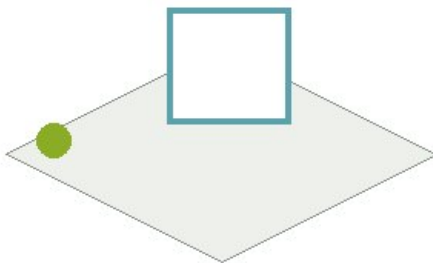

Diagnose first; open interfaces; keep changes reversible.

SPATIAL OUTCOME

Continuous routes, shared rooms and bookable nodes.

BOUNDARY

Conceptual recommendation; professional review required.

03 Repair public interfaces

CORE VALUE

Preserve memory and public value while improving use.

KEY ACTIONS

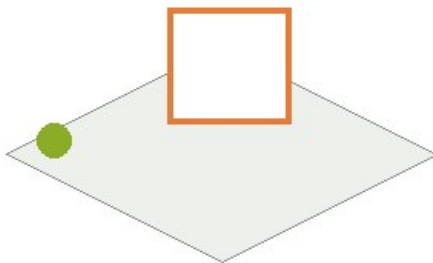

Diagnose first; open interfaces; keep changes reversible.

SPATIAL OUTCOME

Continuous routes, shared rooms and bookable nodes.

BOUNDARY

Conceptual recommendation; professional review required.

04 Insert reversible modules

CORE VALUE

Preserve memory and public value while improving use.

KEY ACTIONS

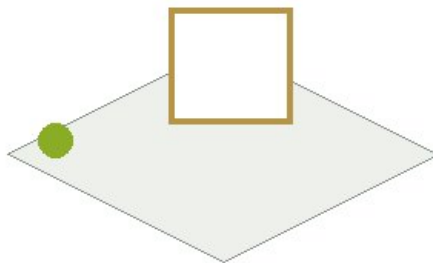

Diagnose first; open interfaces; keep changes reversible.

SPATIAL OUTCOME

Continuous routes, shared rooms and bookable nodes.

BOUNDARY

Conceptual recommendation; professional review required.

08 Transport, Rail and Municipal Support

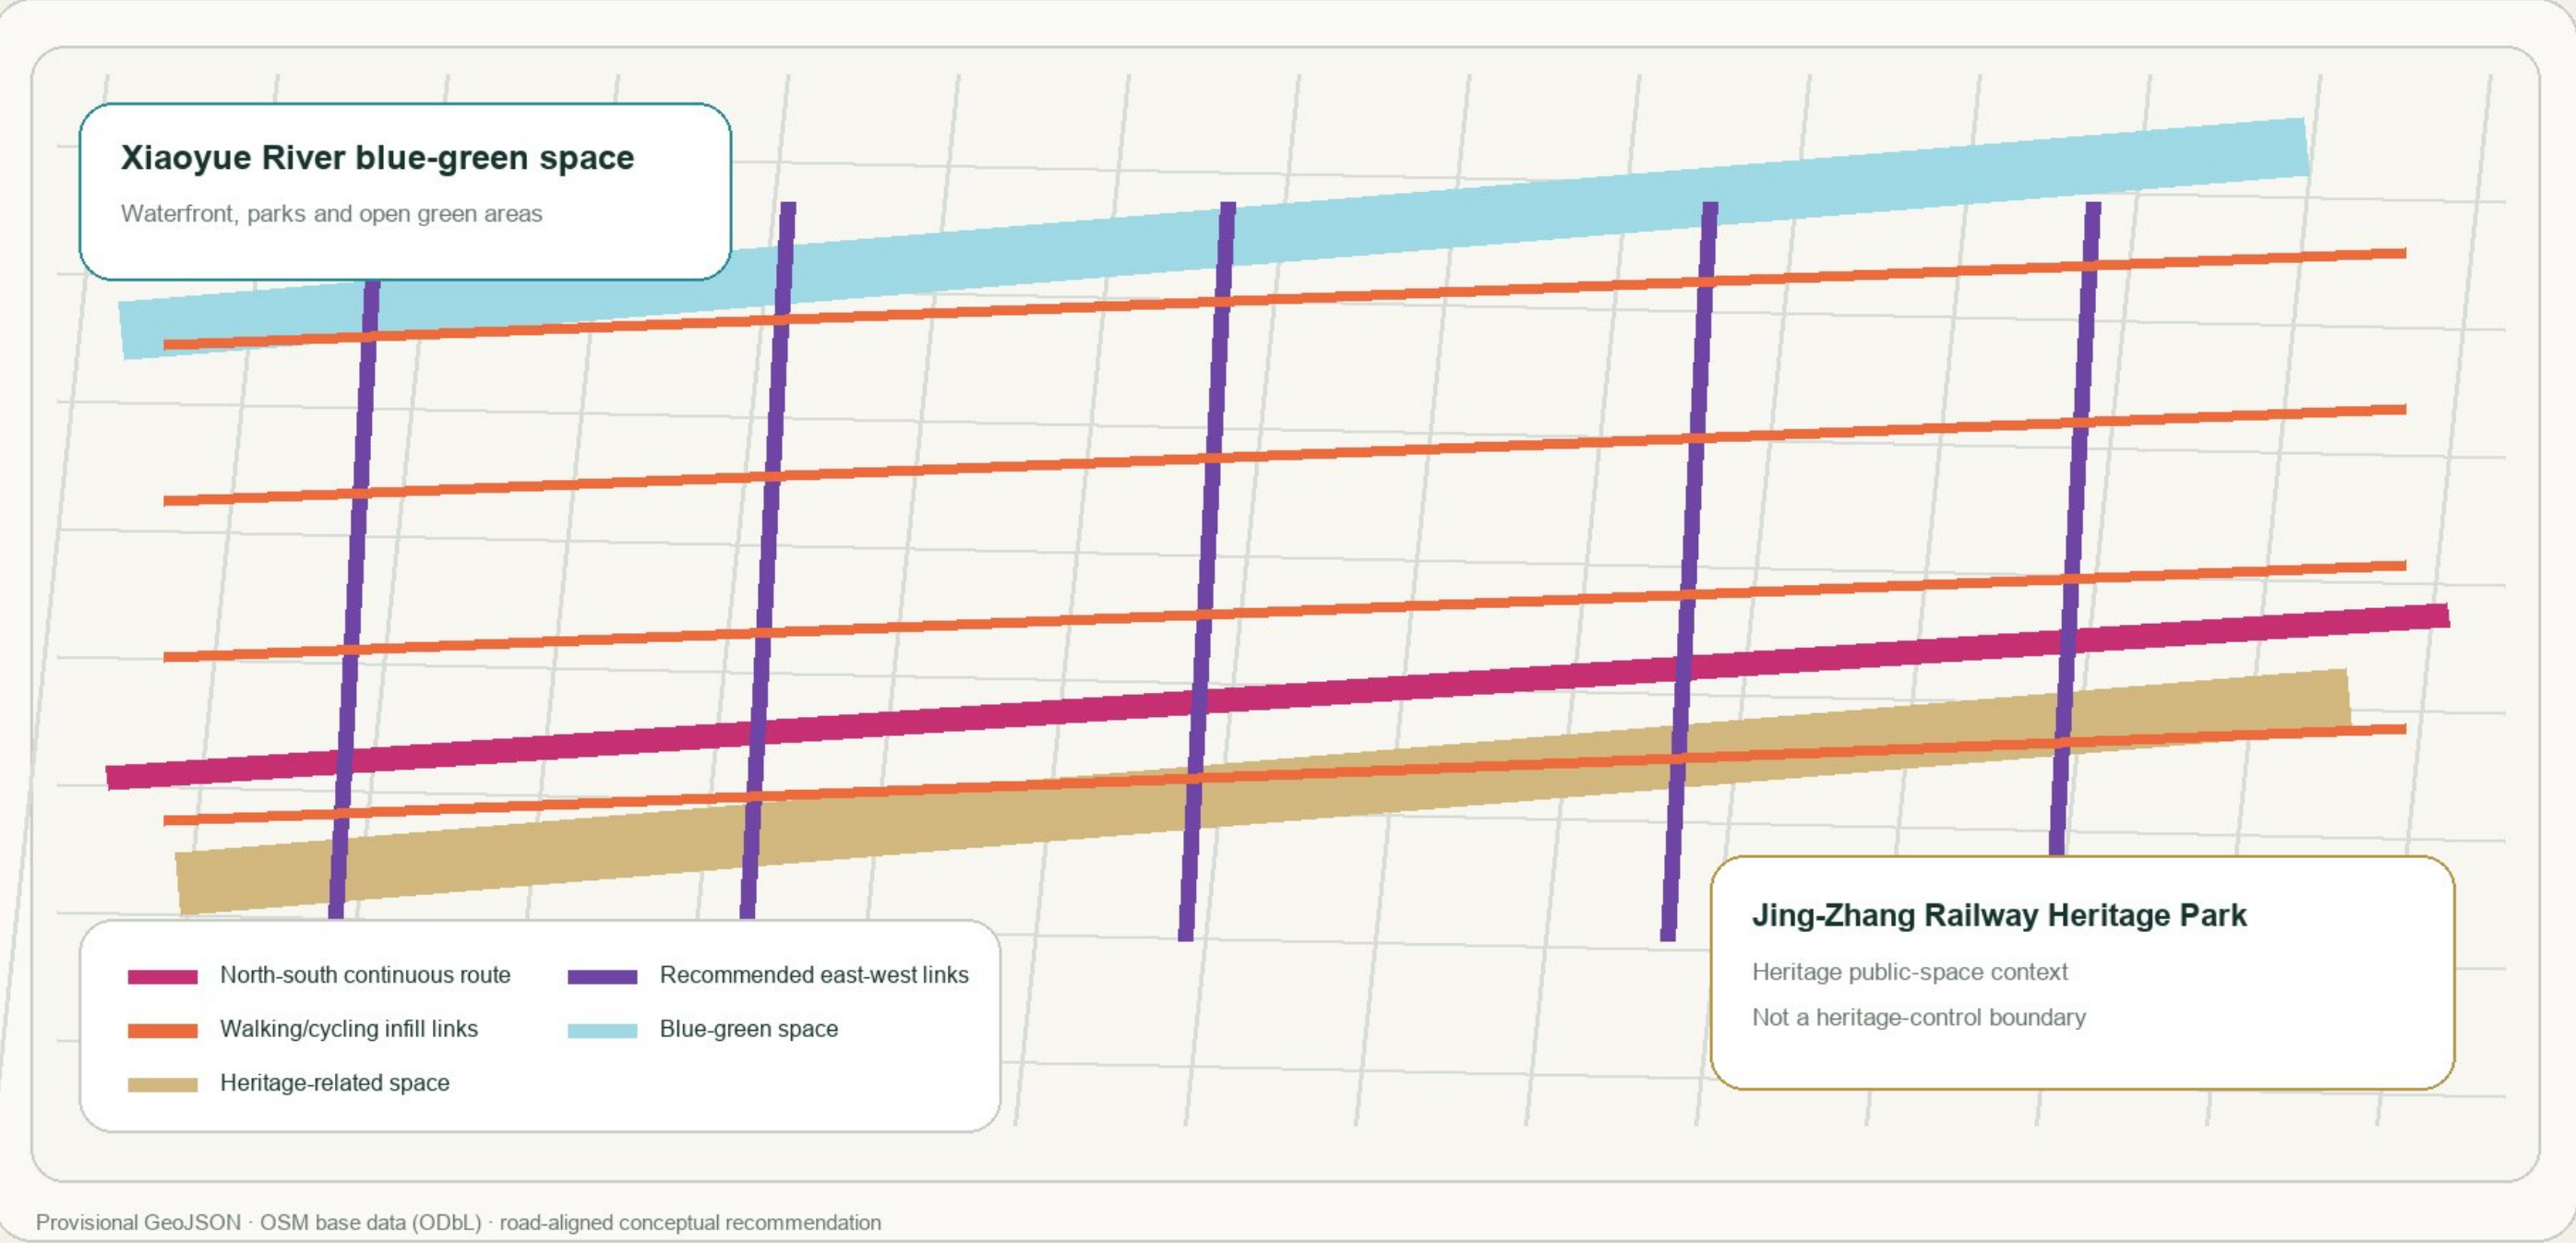

Walking, cycling, transit connection and professional inputs

CENTENNIAL JING-ZHANG × CIVIC AI

Walking, Cycling, Blue-Green and Heritage Spatial Framework

FIG-04 / EN / V1

Existing road-aligned links first; local upgrades remain subject to cross-section, crossing and accessibility review

09 Blue-Green Space and Urban Character

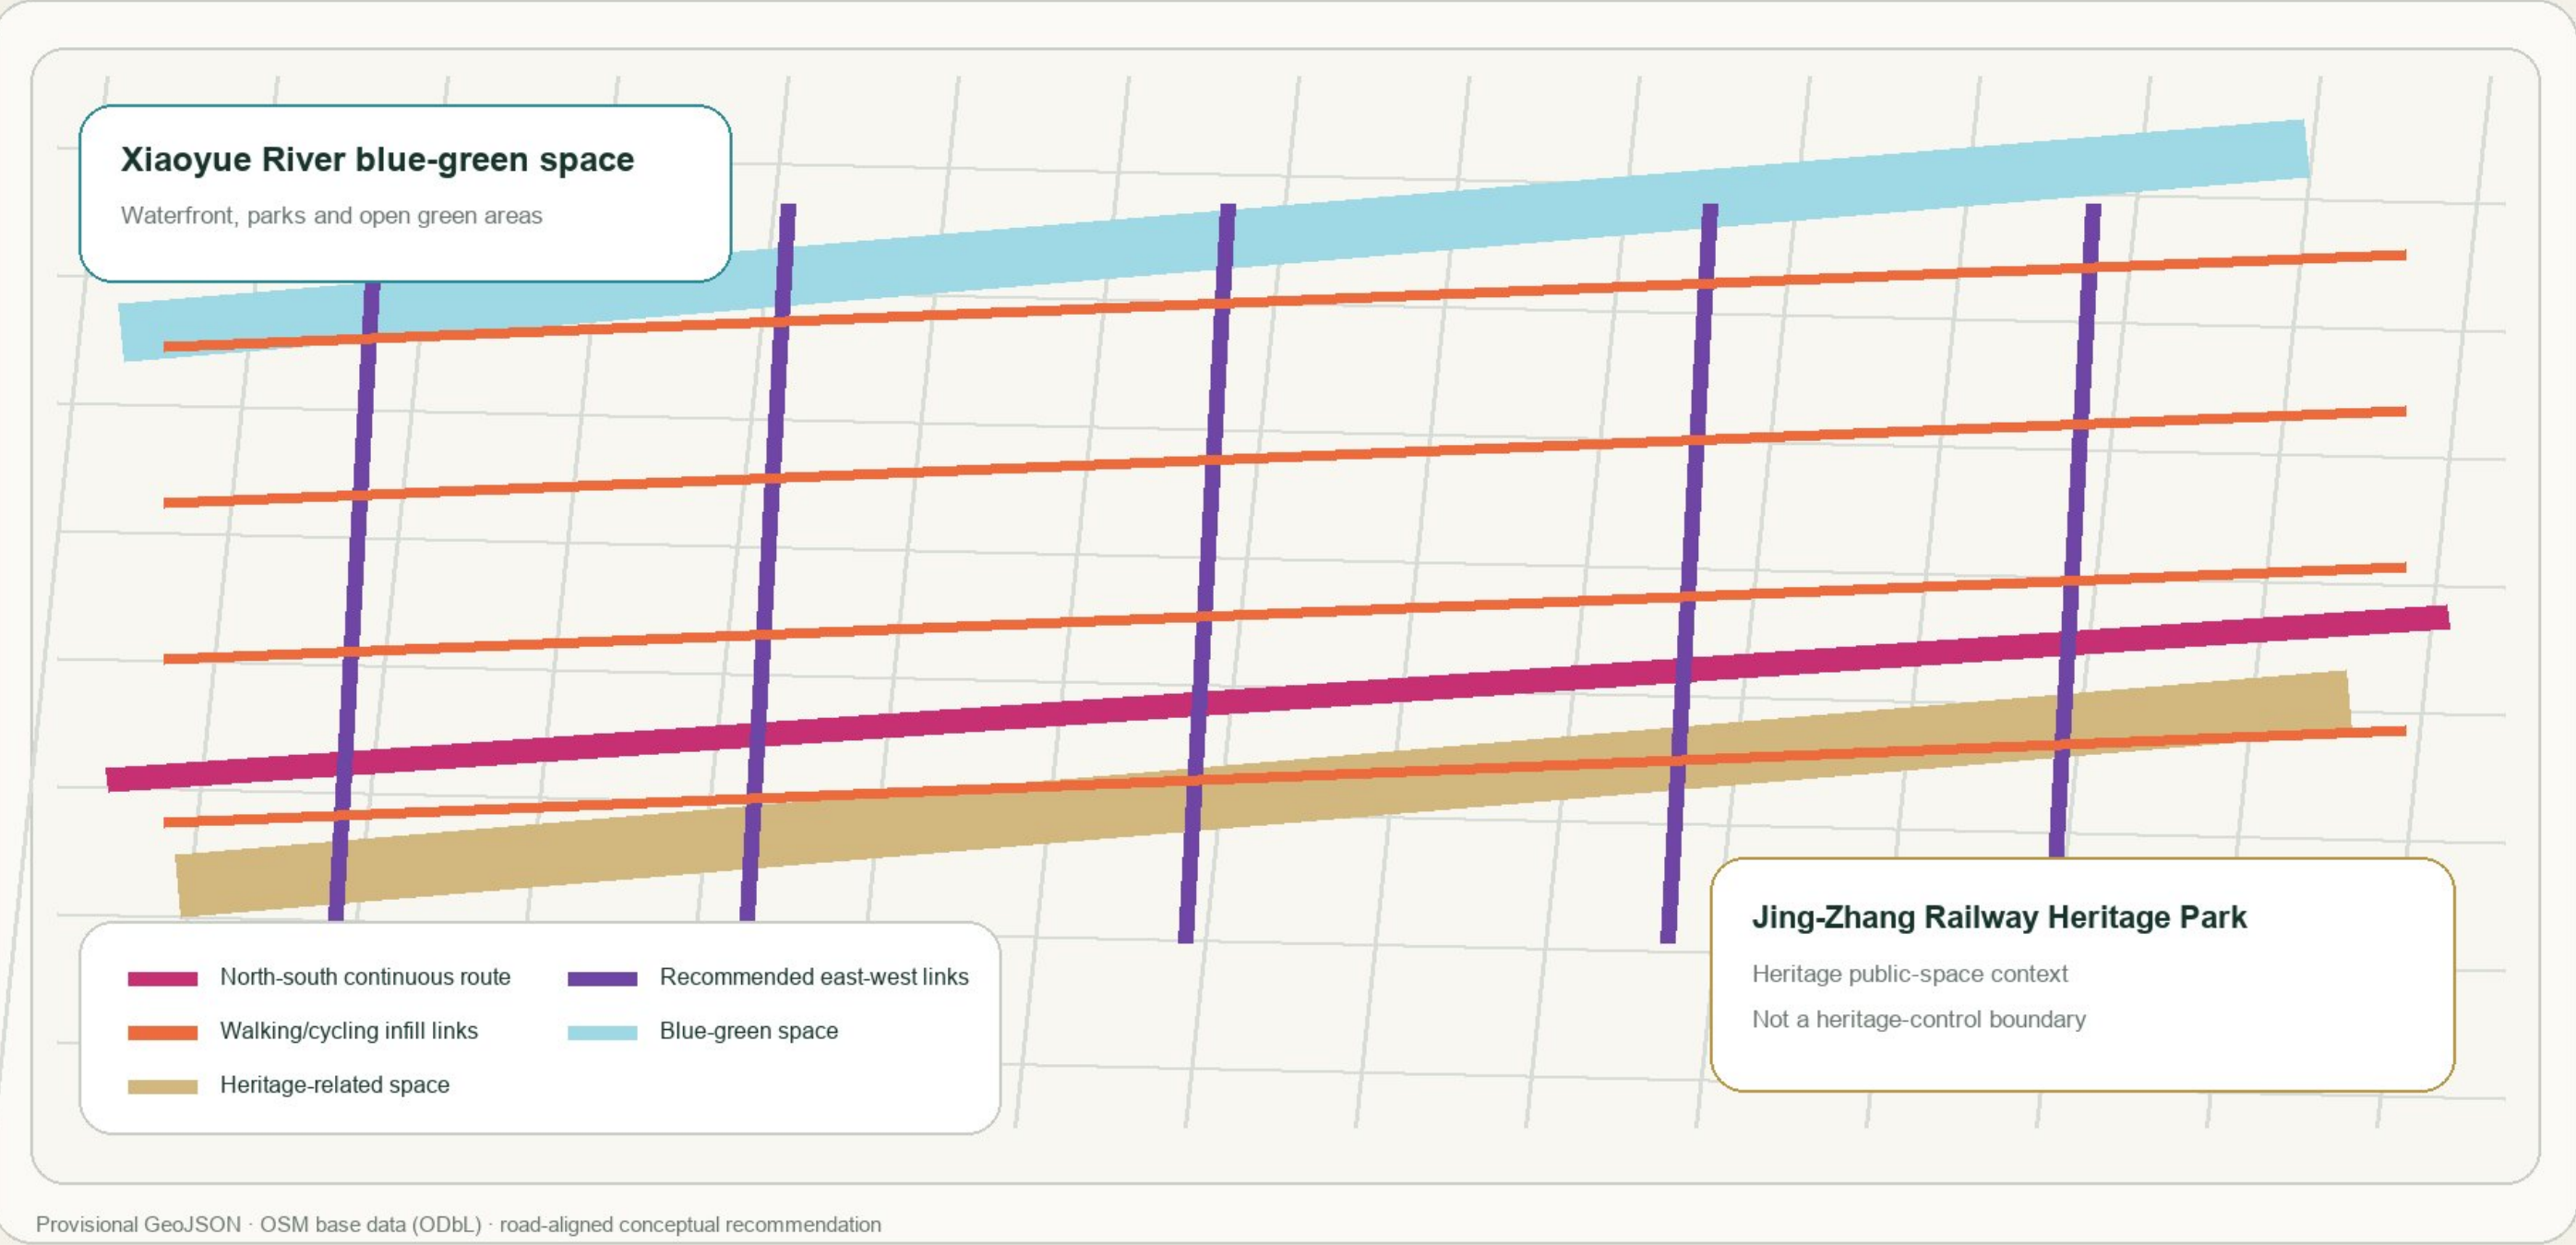

Xiaoyue River, heritage park and public-space framework

CENTENNIAL JING-ZHANG × CIVIC AI

Walking, Cycling, Blue-Green and Heritage Spatial Framework

FIG-04 / EN / V1

Existing road-aligned links first; local upgrades remain subject to cross-section, crossing and accessibility review

10 Renewal Projects and Phasing

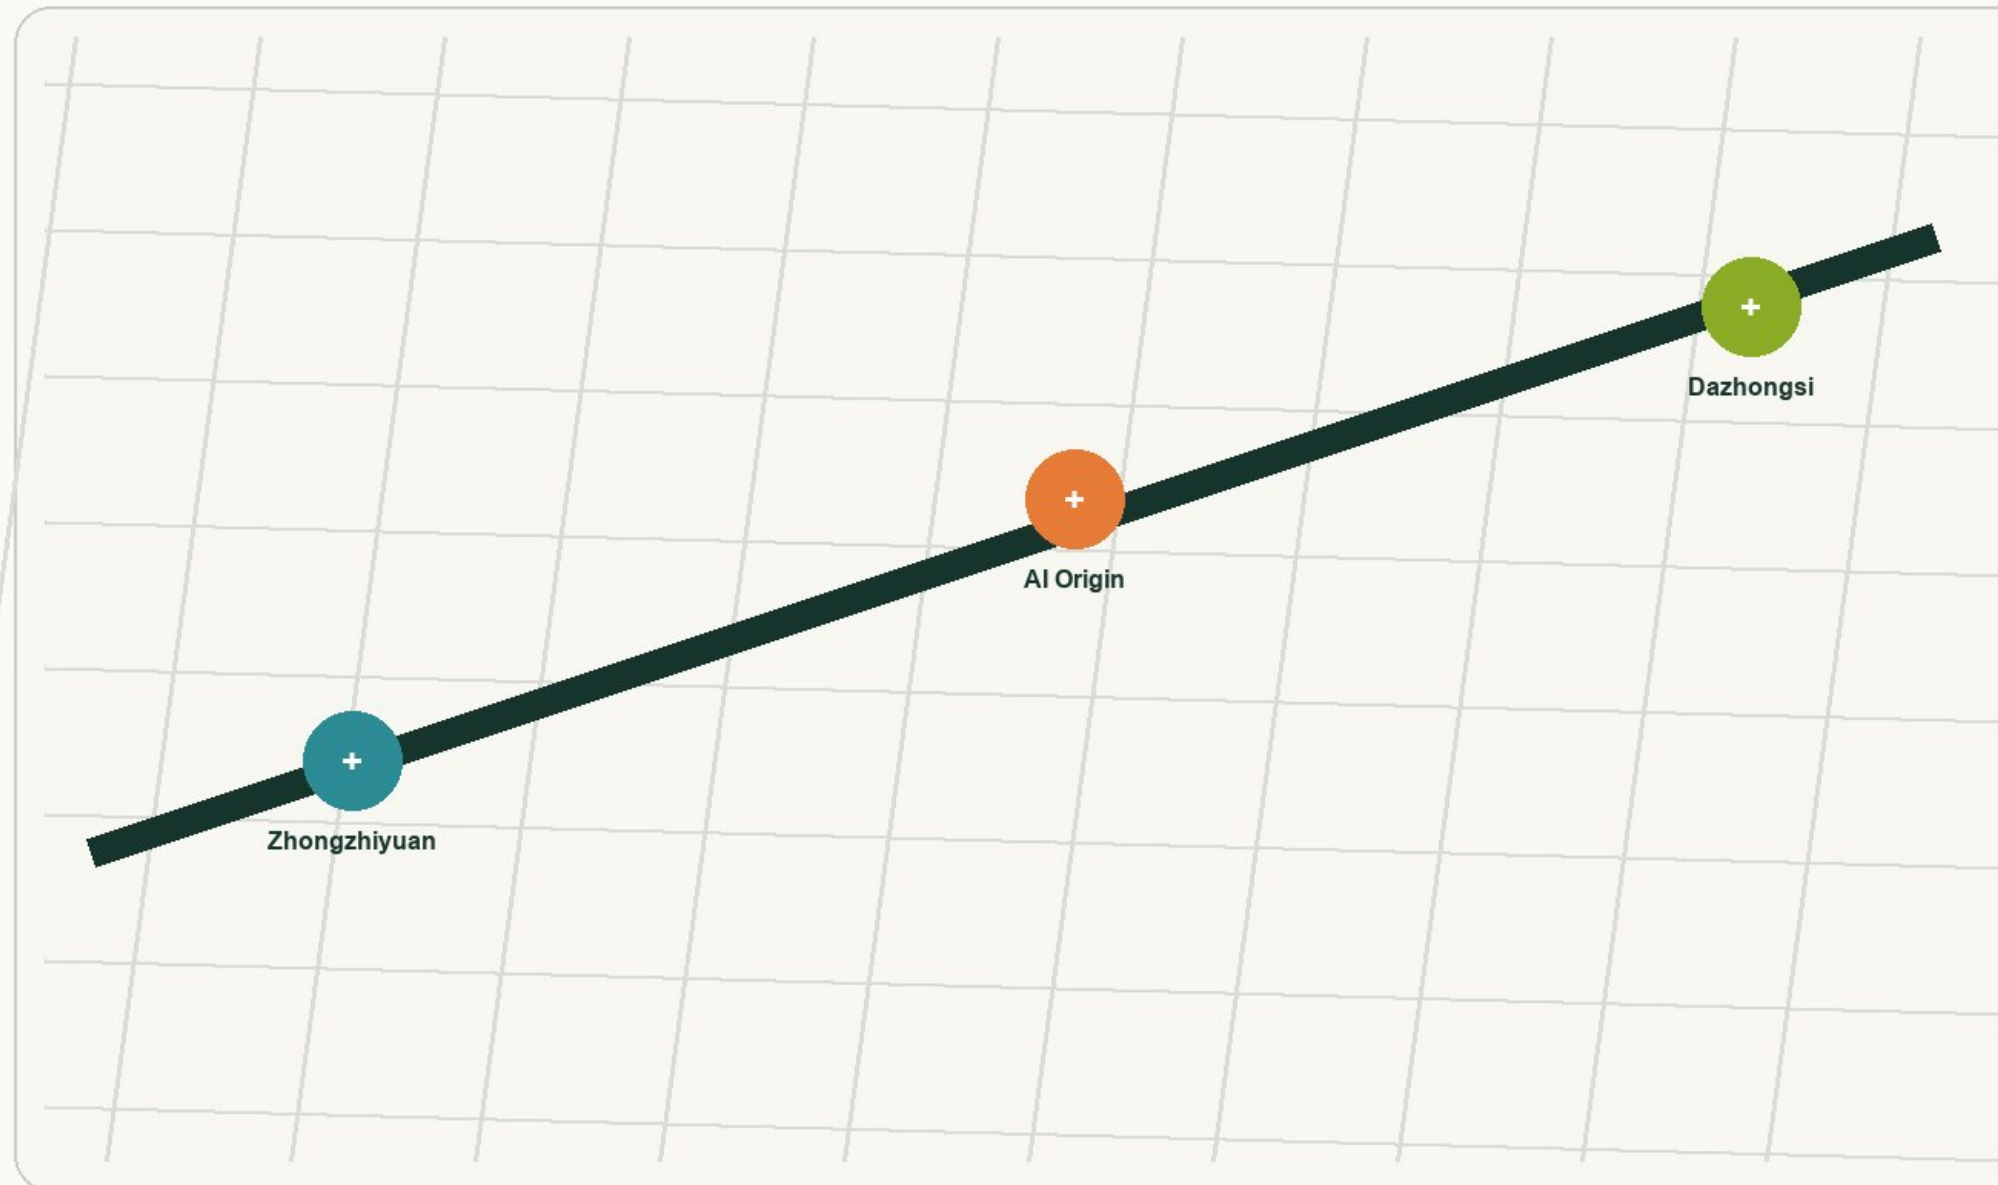

Screening existing terrain and locating conceptual actions

CENTENNIAL JING-ZHANG × CIVIC AI

Four Urban-Renewal Actions | Existing-Terrain Location Map

Roads, water, green space and building footprints are screening context, not engineering siting

SUPPLEMENT / EN / V1

01 Retain & activate

Location screening only

02 Adaptive reuse

Location screening only

03 Repair public interfaces

Location screening only

04 Reversible modules

Location screening only

11 Metrics, Recalculation and Matrices

One data snapshot drives drawings, HTML and self-check

CENTENNIAL JING-ZHANG × CIVIC AI

Metrics, Evidence and Stop-Governance

FIG-05 / EN / V1

One geometry, metric, task-matrix and self-check snapshot drives every deliverable

12 Risk, Rights and Compliance

Public data, human review, pause and stop gates

CENTENNIAL JING-ZHANG × CIVIC AI

Metrics, Evidence and Stop-Governance

FIG-05 / EN / V1

One geometry, metric, task-matrix and self-check snapshot drives every deliverable

13 References and Status Statement

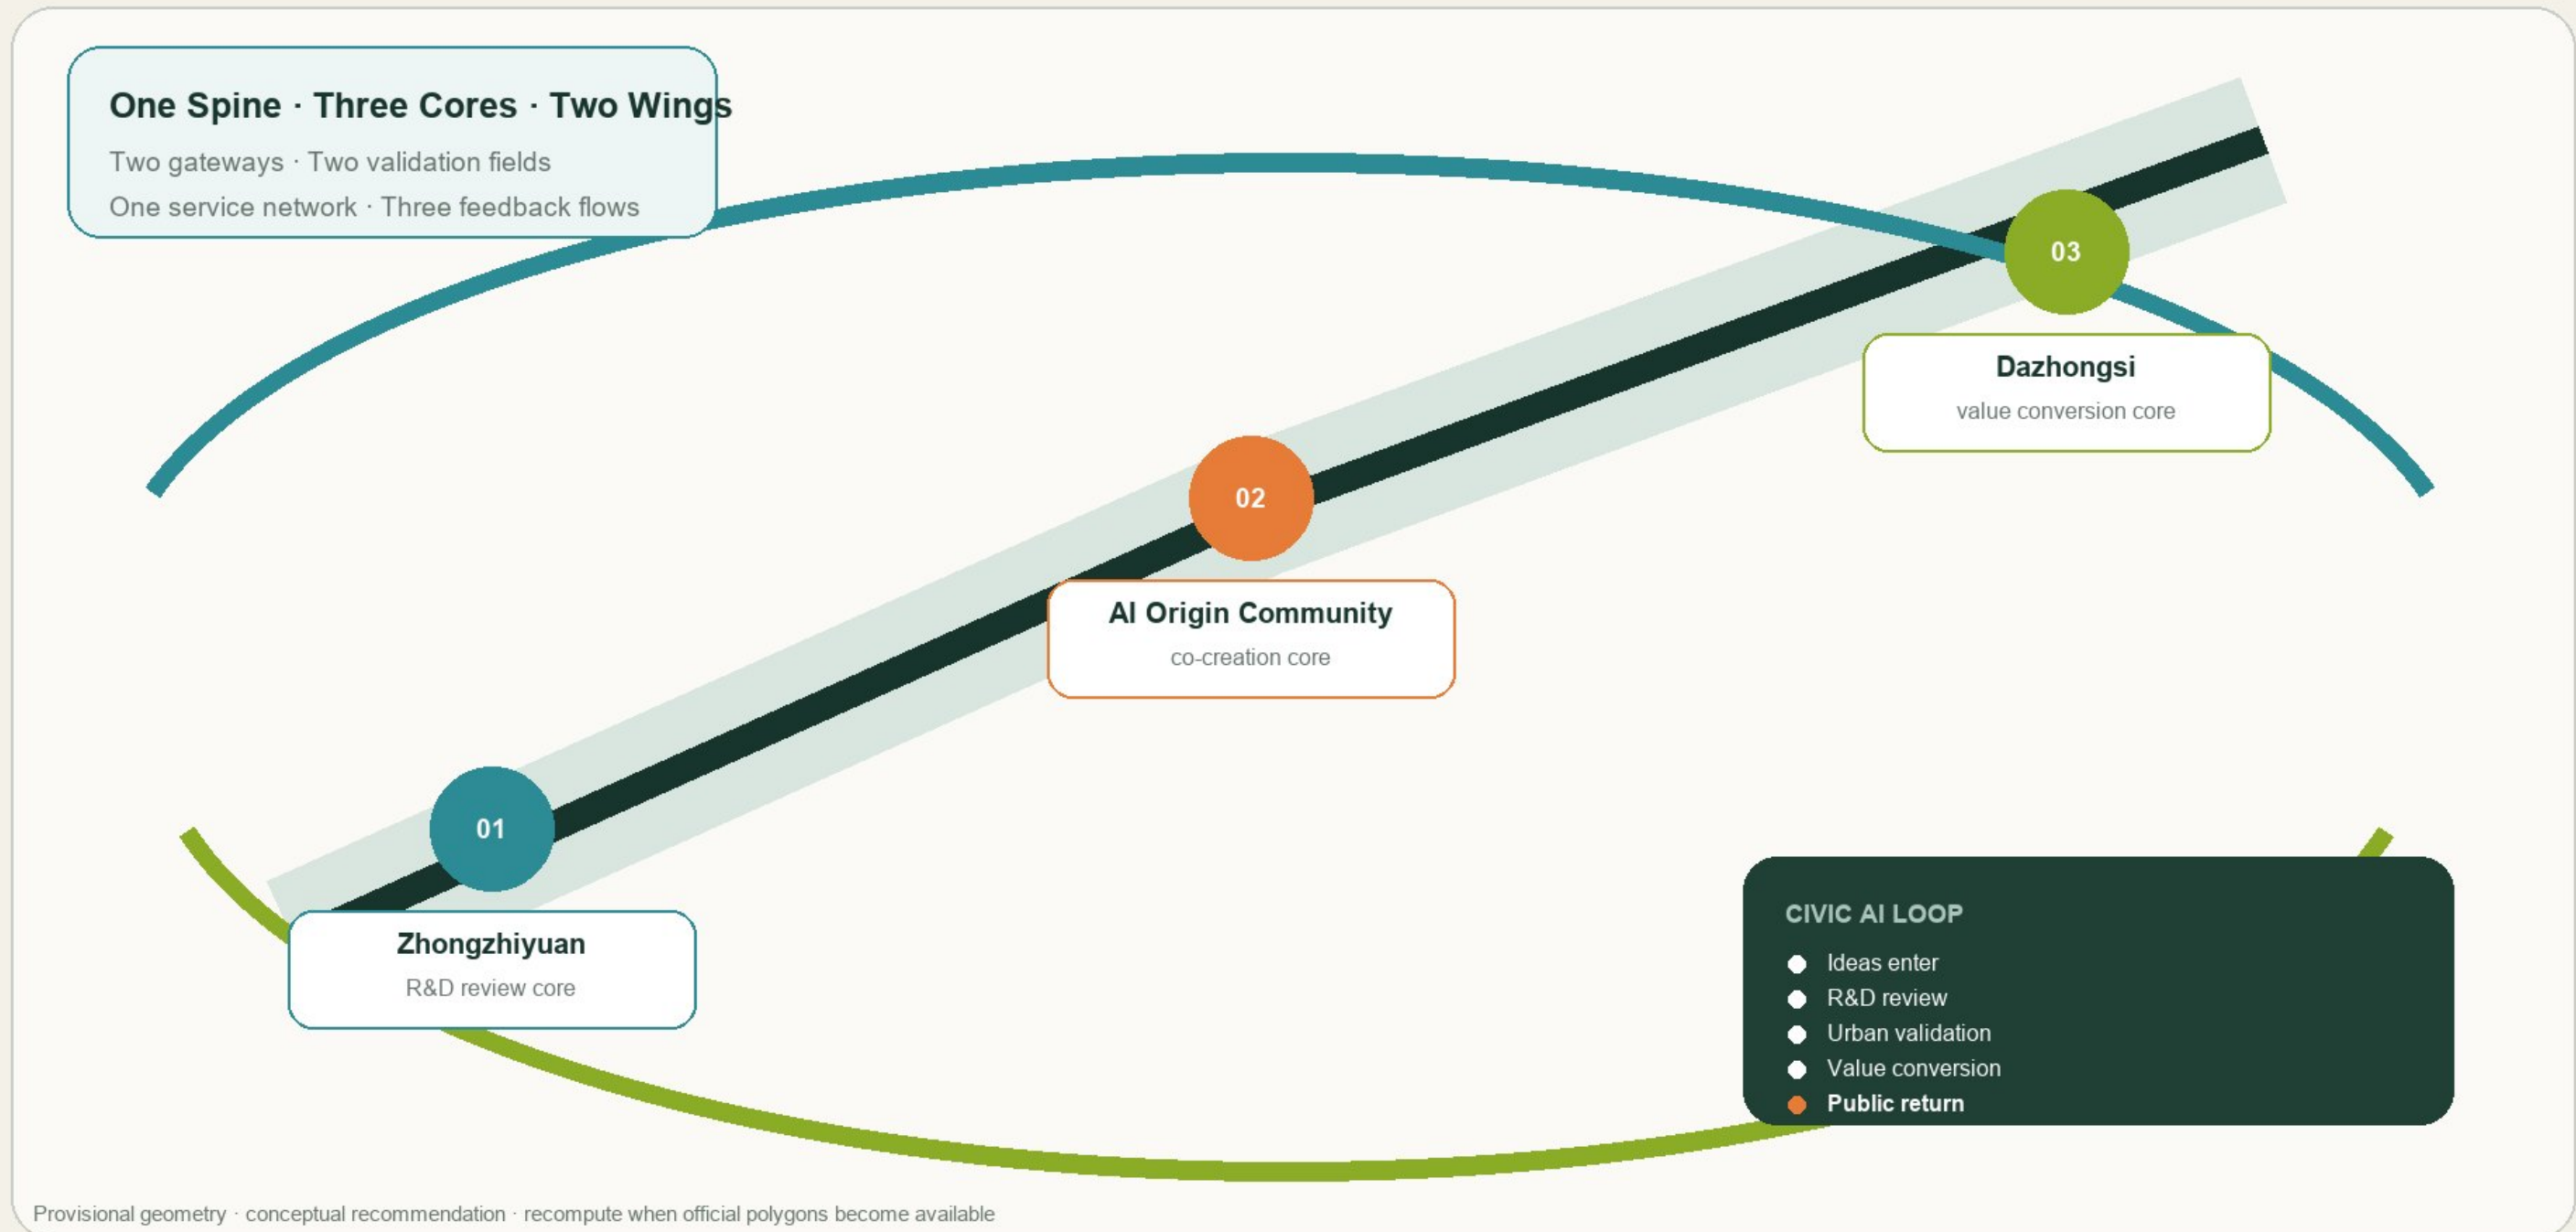

Conceptual recommendations, not statutory planning or approval

CENTENNIAL JING-ZHANG × CIVIC AI

Jing-Zhang Civic AI Loop | Spatial Structure and Scenario Network

FIG-01 / EN / V1

43.6 km² coordinated research area | 11.4 km² overall design area | 3 provisional key areas

Supplement 01 AI Origin Community | Co-Intelligence Origin Functional Plan

Open public forecourt, individual creation, AI experience, service interface and protected back-of-house.

CENTENNIAL JING-ZHANG × CIVIC AI

AI Origin Community | Co-Intelligence Origin Functional Plan

SUP-01 / EN / V1

Equivalent English interpretation of the participant-authored Chinese design drawing

DESIGN INTENT
Open public forecourt, individual creation, AI experience, service interface and protected back-of-house.

STATUS Conceptual recommendation	SPATIAL BASIS Non-scaled unless geometry is cited	CONTROL Human review, pause and stop gates	FOLLOW-UP Professional deepening required
--	---	--	---

The Chinese source drawing remains the primary visual artifact; this counterpart preserves the same claim, limitation and operating logic.

Supplement 02 Two Portals | Modern Minimal Design Language

A shared visual DNA for materials, colors, modular interfaces, human scale, status expression and project passports.

CENTENNIAL JING-ZHANG × CIVIC AI

Two Portals | Modern Minimal Design Language

SUP-02 / EN / V1

Equivalent English interpretation of the participant-authored Chinese design drawing

DESIGN INTENT

A shared visual DNA for materials, colors, modular interfaces, human scale, status expression and project passports.

STATUS Conceptual recommendation	SPATIAL BASIS Non-scaled unless geometry is cited	CONTROL Human review, pause and stop gates	FOLLOW-UP Professional deepening required
--	---	--	---

The Chinese source drawing remains the primary visual artifact; this counterpart preserves the same claim, limitation and operating logic.

Supplement 03 Zhongzhiyuan | Validation Lighthouse Functional Plan

Public interface, risk grading, R&D sandbox, validation protocol, evidence return and controlled equipment support.

CENTENNIAL JING-ZHANG × CIVIC AI

Zhongzhiyuan | Validation Lighthouse Functional Plan

SUP-03 / EN / V1

Equivalent English interpretation of the participant-authored Chinese design drawing

DESIGN INTENT

Public interface, risk grading, R&D sandbox, validation protocol, evidence return and controlled equipment support.

STATUS	SPATIAL BASIS	CONTROL	FOLLOW-UP
Conceptual recommendation	Non-scaled unless geometry is cited	Human review, pause and stop gates	Professional deepening required

The Chinese source drawing remains the primary visual artifact; this counterpart preserves the same claim, limitation and operating logic.

Supplement 04 Xiaoyue River + Heritage Park | Parallel Validation Fields

Equal status, common gates, public rights, human handoff, stop and recovery mechanisms; no preferred field.

CENTENNIAL JING-ZHANG × CIVIC AI

Xiaoyue River + Heritage Park | Parallel Validation Fields

SUP-04 / EN / V1

Equivalent English interpretation of the participant-authored Chinese design drawing

DESIGN INTENT
Equal status, common gates, public rights, human handoff, stop and recovery mechanisms; no preferred field.

STATUS
Conceptual recommendation

SPATIAL BASIS
Non-scaled unless geometry is cited

CONTROL
Human review, pause and stop gates

FOLLOW-UP
Professional deepening required

The Chinese source drawing remains the primary visual artifact; this counterpart preserves the same claim, limitation and operating logic.

Supplement 05 Two Portals | Design Language Control Board

Light, clean, transparent, green and adaptable: one DNA with distinct public-space character in each portal.

CENTENNIAL JING-ZHANG × CIVIC AI

Two Portals | Design Language Control Board

SUP-05 / EN / V1

Equivalent English interpretation of the participant-authored Chinese design drawing

DESIGN INTENT
Light, clean, transparent, green and adaptable: one DNA with distinct public-space character in each portal.

STATUS
Conceptual recommendation

SPATIAL BASIS
Non-scaled unless geometry is cited

CONTROL
Human review, pause and stop gates

FOLLOW-UP
Professional deepening required

The Chinese source drawing remains the primary visual artifact; this counterpart preserves the same claim, limitation and operating logic.

Supplement 06 Two Portals | Non-Scaled Functional Relationship Plan

One project passport links the origin portal, growth portal, professional review, urban validation and public return.

CENTENNIAL JING-ZHANG × CIVIC AI

Two Portals | Non-Scaled Functional Relationship Plan

SUP-06 / EN / V1

Equivalent English interpretation of the participant-authored Chinese design drawing

DESIGN INTENT

One project passport links the origin portal, growth portal, professional review, urban validation and public return.

STATUS

Conceptual recommendation

SPATIAL BASIS

Non-scaled unless geometry is cited

CONTROL

Human review, pause and stop gates

FOLLOW-UP

Professional deepening required

The Chinese source drawing remains the primary visual artifact; this counterpart preserves the same claim, limitation and operating logic.

Supplement 07 Two Portals | Functional-Area Proportion Study

Comparative functional-capacity study only; bubbles are non-scaled and do not establish building footprints or planning indicators.

CENTENNIAL JING-ZHANG × CIVIC AI

Two Portals | Functional-Area Proportion Study

SUP-07 / EN / V1

Equivalent English interpretation of the participant-authored Chinese design drawing

DESIGN INTENT

Comparative functional-capacity study only; bubbles are non-scaled and do not establish building footprints or planning indicators.

STATUS

Conceptual recommendation

SPATIAL BASIS

Non-scaled unless geometry is cited

CONTROL

Human review, pause and stop gates

FOLLOW-UP

Professional deepening required

The Chinese source drawing remains the primary visual artifact; this counterpart preserves the same claim, limitation and operating logic.

Supplement 08 Two Portals | Six Operating Scenarios

Daily opening, learning teams, youth release, public trial, first-order event and night tracking share one accountable passport.

CENTENNIAL JING-ZHANG × CIVIC AI

Two Portals | Six Operating Scenarios

SUP-08 / EN / V1

Equivalent English interpretation of the participant-authored Chinese design drawing

DESIGN INTENT
Daily opening, learning teams, youth release, public trial, first-order event and night tracking share one accountable passport.

STATUS Conceptual recommendation	SPATIAL BASIS Non-scaled unless geometry is cited	CONTROL Human review, pause and stop gates	FOLLOW-UP Professional deepening required
--	---	--	---

The Chinese source drawing remains the primary visual artifact; this counterpart preserves the same claim, limitation and operating logic.

Supplement 09 Two Portals | Spatial Prototype Combinations

A linear-gradient origin portal and a public-loop growth portal translate access, review and operations into spatial sections.

CENTENNIAL JING-ZHANG × CIVIC AI

Two Portals | Spatial Prototype Combinations

SUP-09 / EN / V1

Equivalent English interpretation of the participant-authored Chinese design drawing

DESIGN INTENT
A linear-gradient origin portal and a public-loop growth portal translate access, review and operations into spatial sections.

STATUS
Conceptual recommendation

SPATIAL BASIS
Non-scaled unless geometry is cited

CONTROL
Human review, pause and stop gates

FOLLOW-UP
Professional deepening required

The Chinese source drawing remains the primary visual artifact; this counterpart preserves the same claim, limitation and operating logic.

Supplement 10 Two Portals | Zoning, Flows and Gate Controls

Public, project, professional-service and operational flows are separated where privacy, safety and accountability require it.

CENTENNIAL JING-ZHANG × CIVIC AI

Two Portals | Zoning, Flows and Gate Controls

SUP-10 / EN / V1

Equivalent English interpretation of the participant-authored Chinese design drawing

DESIGN INTENT

Public, project, professional-service and operational flows are separated where privacy, safety and accountability require it.

STATUS

Conceptual recommendation

SPATIAL BASIS

Non-scaled unless geometry is cited

CONTROL

Human review, pause and stop gates

FOLLOW-UP

Professional deepening required

The Chinese source drawing remains the primary visual artifact; this counterpart preserves the same claim, limitation and operating logic.

Supplement 11 Three Core Scenes | Spatial, Operational and Governance Controls

Controls for the co-creation hall, AI growth field and trial/first-order core; conceptual design, not an image-generation prompt sheet.

CENTENNIAL JING-ZHANG × CIVIC AI

Three Core Scenes | Spatial, Operational and Governance Controls

SUP-11 / EN / V1

Equivalent English interpretation of the participant-authored Chinese design drawing

DESIGN INTENT
Controls for the co-creation hall, AI growth field and trial/first-order core; conceptual design, not an image-generation prompt sheet.

STATUS Conceptual recommendation	SPATIAL BASIS Non-scaled unless geometry is cited	CONTROL Human review, pause and stop gates	FOLLOW-UP Professional deepening required
--	---	--	---

The Chinese source drawing remains the primary visual artifact; this counterpart preserves the same claim, limitation and operating logic.

Supplement 12 Three AI Pilgrimage Landmarks and Distributed Honor System

Co-Intelligence Origin, Validation Lighthouse and Return Common make ideas, evidence and shared value publicly legible.

CENTENNIAL JING-ZHANG × CIVIC AI

Three AI Pilgrimage Landmarks and Distributed Honor System

SUP-12 / EN / V1

Equivalent English interpretation of the participant-authored Chinese design drawing

DESIGN INTENT
Co-Intelligence Origin, Validation Lighthouse and Return Common make ideas, evidence and shared value publicly legible.

STATUS Conceptual recommendation	SPATIAL BASIS Non-scaled unless geometry is cited	CONTROL Human review, pause and stop gates	FOLLOW-UP Professional deepening required
--	---	--	---

The Chinese source drawing remains the primary visual artifact; this counterpart preserves the same claim, limitation and operating logic.

Supplement 13 Public-Space Component Library

Composable, bookable, controllable, interruptible and removable components support multiple scenarios without permanent overbuilding.

CENTENNIAL JING-ZHANG × CIVIC AI

Public-Space Component Library

SUP-13 / EN / V1

Equivalent English interpretation of the participant-authored Chinese design drawing

DESIGN INTENT

Composable, bookable, controllable, interruptible and removable components support multiple scenarios without permanent overbuilding.

STATUS

Conceptual recommendation

SPATIAL BASIS

Non-scaled unless geometry is cited

CONTROL

Human review, pause and stop gates

FOLLOW-UP

Professional deepening required

The Chinese source drawing remains the primary visual artifact; this counterpart preserves the same claim, limitation and operating logic.

Supplement 14 Dazhongsi | Return Common Functional Plan

A legible path from AI growth and public trial to professional service, first-order responsibility, dual-account return and scalable tracking.

CENTENNIAL JING-ZHANG × CIVIC AI

Dazhongsi | Return Common Functional Plan

SUP-14 / EN / V1

Equivalent English interpretation of the participant-authored Chinese design drawing

DESIGN INTENT

A legible path from AI growth and public trial to professional service, first-order responsibility, dual-account return and scalable tracking.

STATUS

Conceptual recommendation

SPATIAL BASIS

Non-scaled unless geometry is cited

CONTROL

Human review, pause and stop gates

FOLLOW-UP

Professional deepening required

The Chinese source drawing remains the primary visual artifact; this counterpart preserves the same claim, limitation and operating logic.
