

Xiaoyue River AI Scenario Wing

AI Roadshow Corridor & Public Experience Trail (concept)

Centennial Jingzhang AI Innovation Belt · Haidian · v1.1

PROVISIONAL concept proposal · not a substitute for statutory planning approval · no commitment

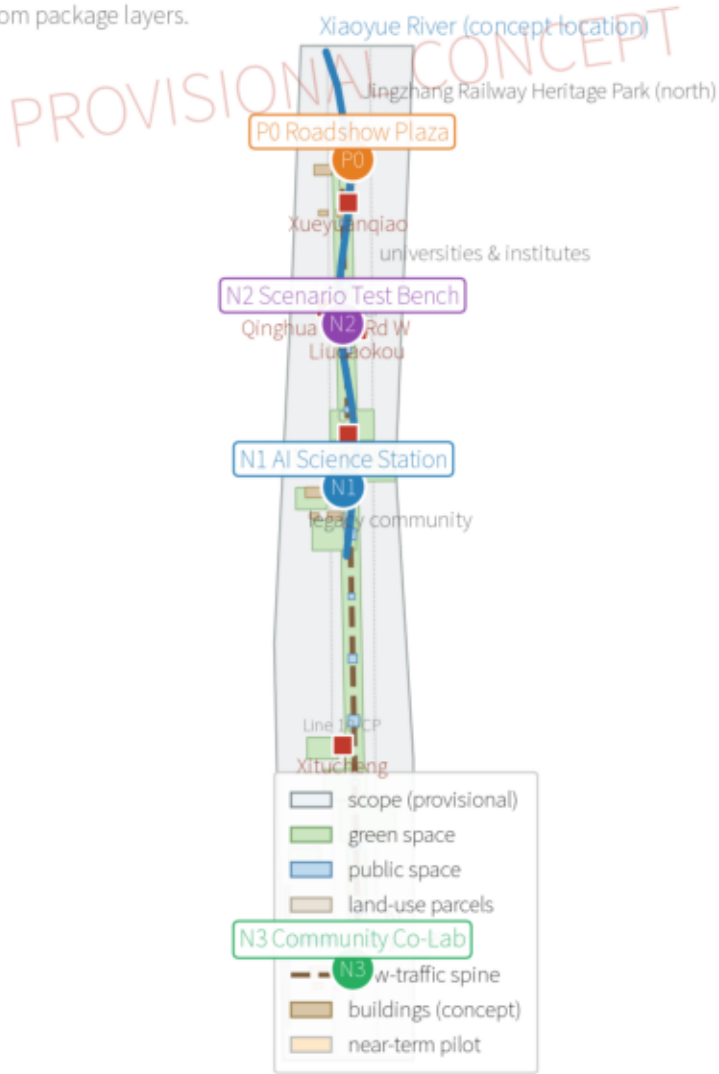

Plaza P0 + three public-experience nodes N1/N2/N3 linked by a complete walking route

Overall Design Overview

one belt, three sections, multiple points · provisional geometry

Overall Design Overview: One Belt, Three Segments, Multiple Nodes (provisional)

Station names are real; positions are conceptual; base geometry from package layers.

Land Use Structure

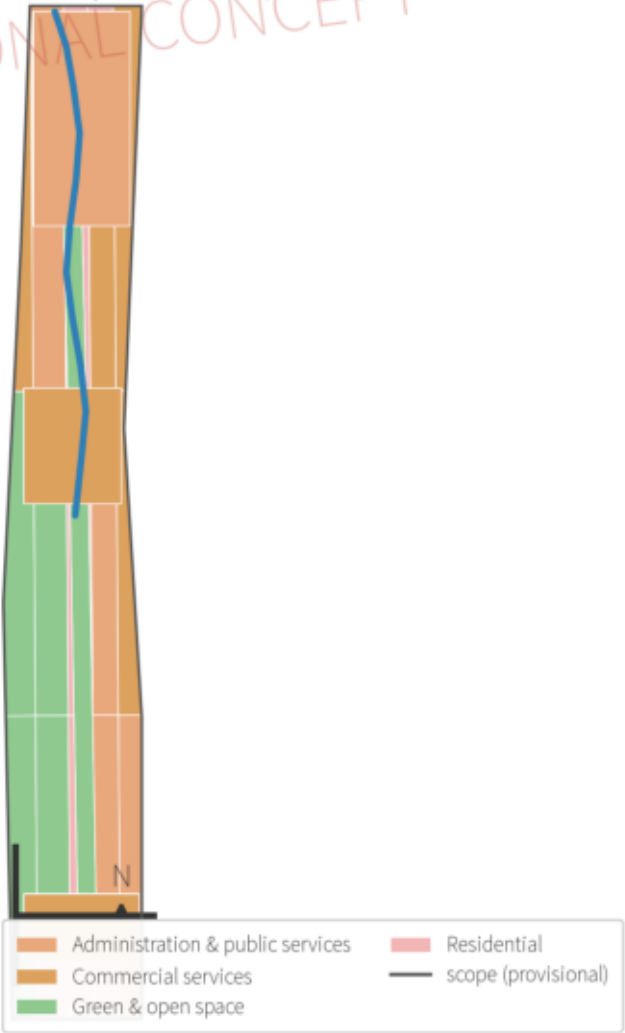

23 concept land-use zones

Land-use structure (concept): 23 zones (land_use.geojson)

Codes follow the national land-use classification guide; not a statutory land-use conclusion

Xiaoyue River (concept location)

PROVISIONAL CONCEPT

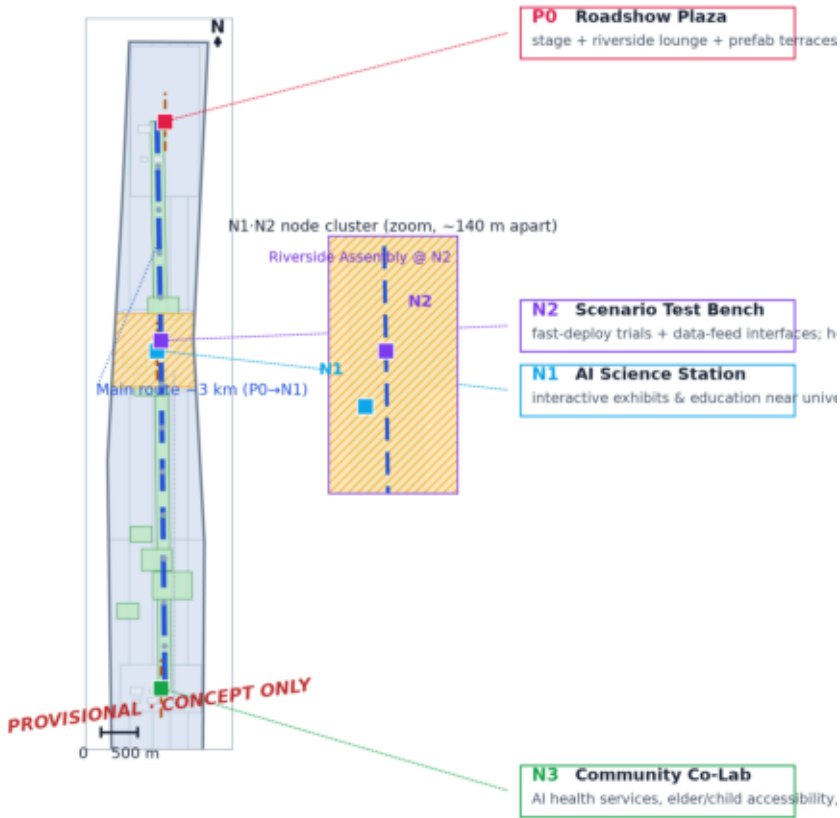

2 km

Key Areas & Node IDs

P0 + N1/N2/N3 · Riverside Assembly at N2

- P0 Roadshow Plaza: stage + riverside lounge + prefab terraces + waterfront rest (~1.0–1.5 ha)
 - N1 AI Science Station: interactive exhibits + education (near university/school routes)
 - N2 Scenario Test Bench: fast-deploy trials + data-feed interfaces (under-bridge/backland voids)
 - N3 Community Co-Lab: AI health services + elder/child accessibility + offline human fallback (community gateway)
- Node IDs unified in narrative, figures and matrices;
Riverside Assembly embedded in N2

Areas Index: Plaza P0 + Nodes N1/N2/N3 (continuous experience route)

Legend

P0/N1/N2/N3	by nodes (IDs match)	●	scenario nodes (15)	—	continuous route (spine)
—	stitch crossing (bridge)	■	green space	■	heritage zone (concept)
□	site boundary (prov.)				

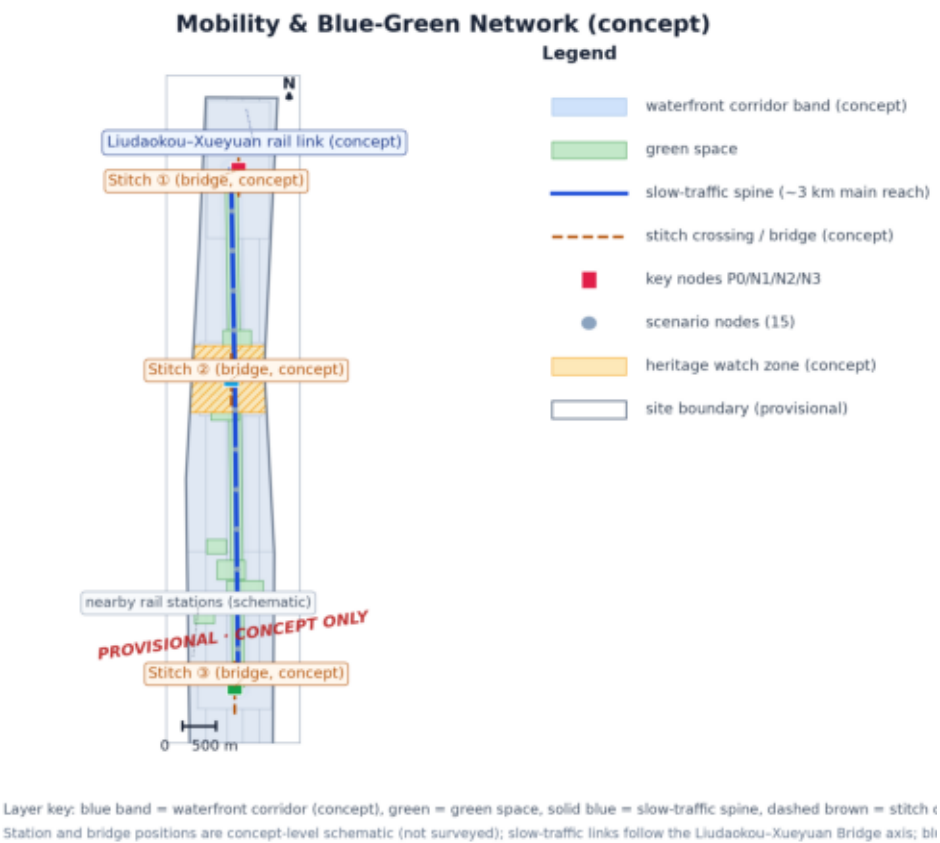

t geometry (provisional) in CGCS2000 coordinates (EPSG:4548); node IDs P0/N1/N2/N3 match the narrative, key figures and pilot m the Riverside Assembly is embedded in N2 (not a separate node); recompute when official geometry is published.

Concept proposal · Centennial Jingzhang AI Innovation Belt (Haidian) · scenario wing of the one-belt three-wings structure

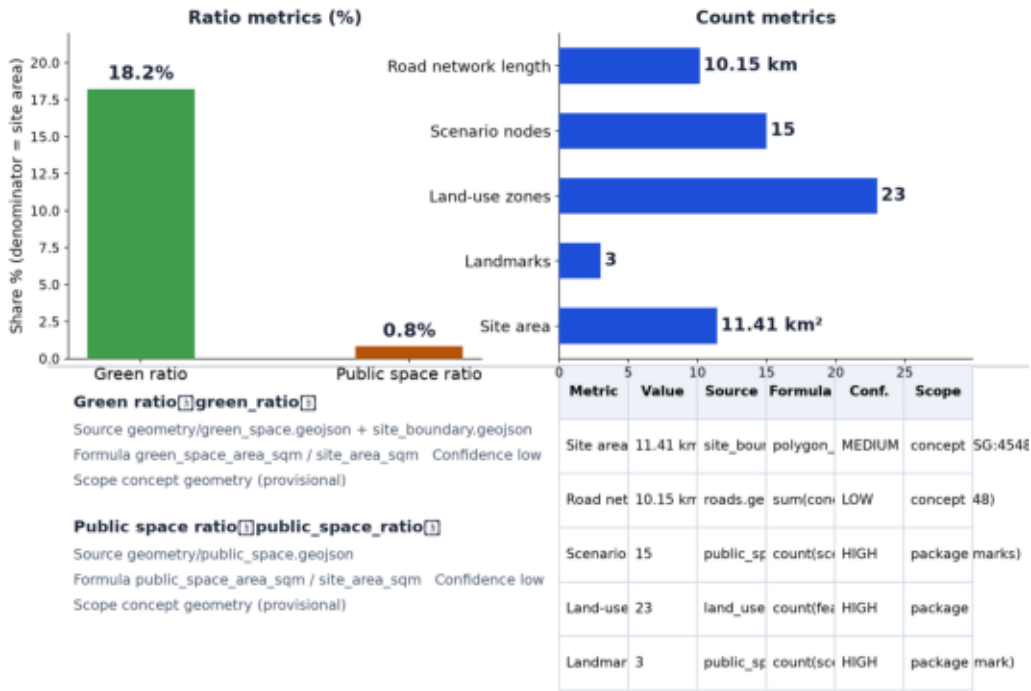

PROVISIONAL

Mobility, Blue-Green & Core Metrics

main route ~3 km · concept values shown rounded

Metrics Evidence: ratio (%) and count panels with source/formula/confidence/scope

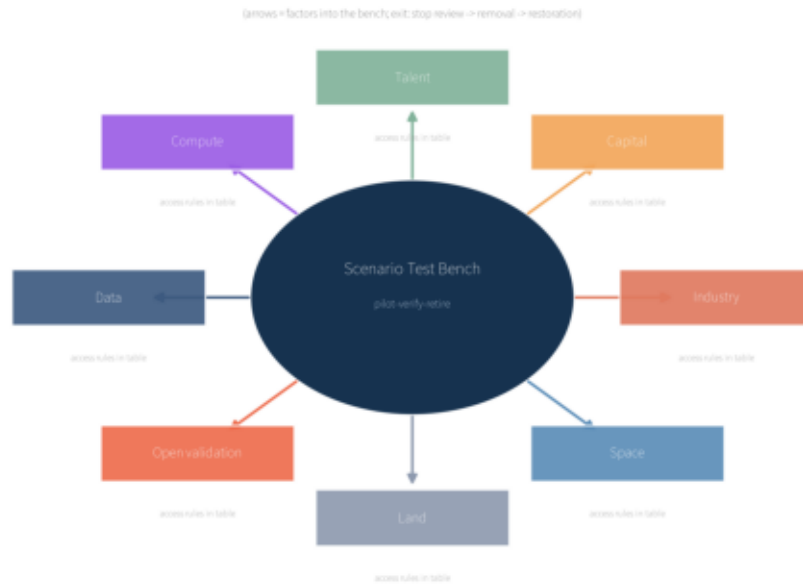

Note: values shown rounded (concept); all values match metrics.json; denominator/formula/confidence/scope listed per metric

Ecosystem Mechanisms & Regional Cooperation

land / space / industry / capital / talent / compute / data / open verification (concept)

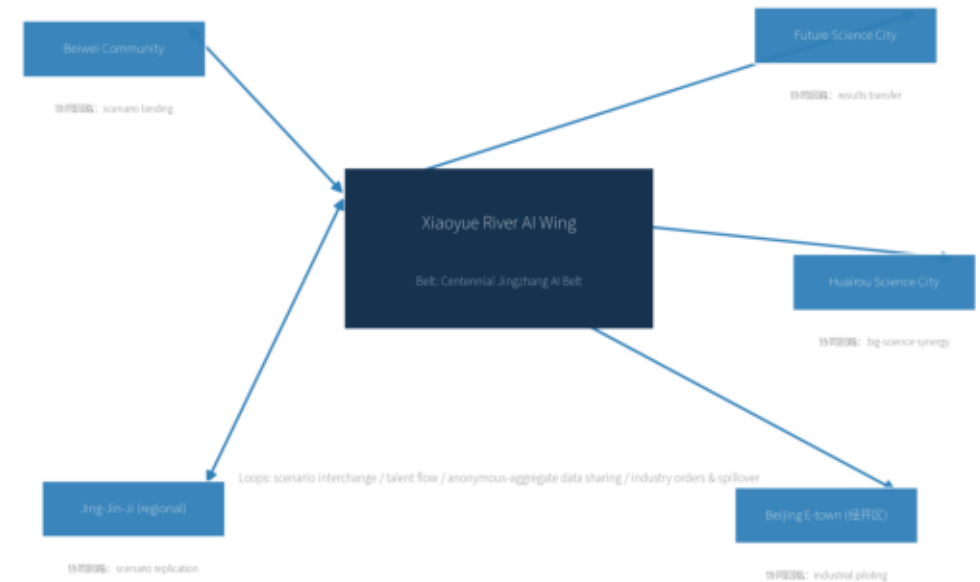

Ecosystem & Factor Mechanism Map: industry support system

Eight factors couple through the Scenario Test Bench into a verifiable, retrievable support system (concept).

One Belt Coordination & Three Zones Two Wings cooperation loops (concept)

The wing forms scenario/talent/data/industry loops with five regional actors; all suggested arrangements.

Three areas & two wings: Zhongzhi Park, Beijing AI Origin Community, Dazhongsi AI Cluster
+ Jingzhang heritage vitality belt and the Xiaoyue River scenario wing

Xiaoyue River AI Scenario Wing v1.1 · concept proposal · PROVISIONAL (not a statutory plan; no commitment)
