

AGE Love Loop: Aging-Friendly Renovation & Community Elder-Care Network (Concept)

AGE·JZ

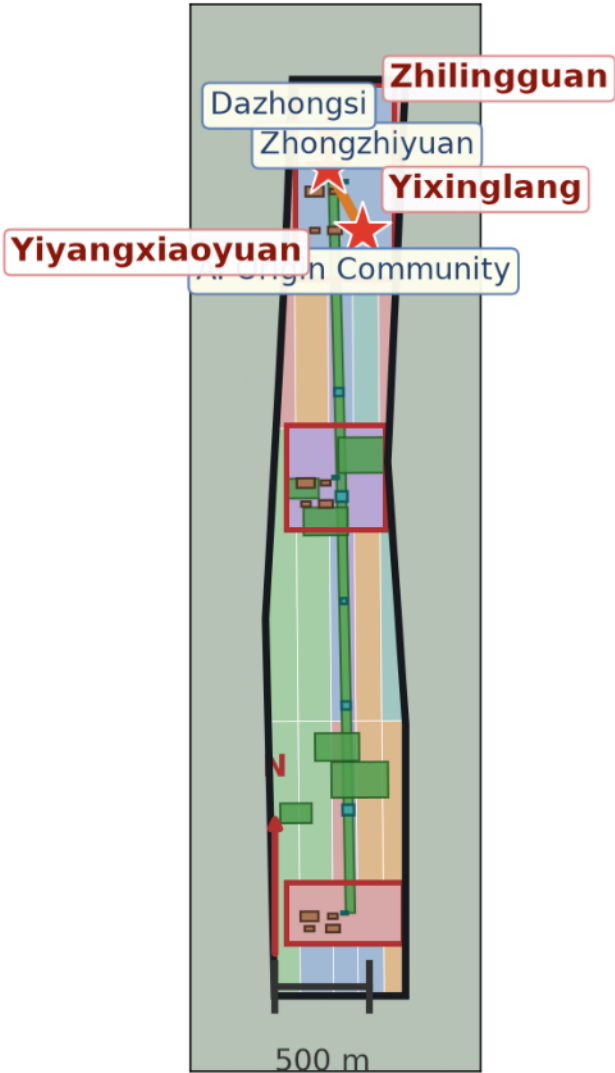

Three Zones Two Wings · One Corridor One Courtyard One Pavilion · 10 scenario cards · 5 personas

Concept suggestion · provisional boundary

Provisional conceptual boundary - not an official redline; recalculate after official data release

Overall Design and Land-Use Structure

Overall Design Overview (provisional geometry)

Study boundary

Green space

Public space / nodes

Existing buildings

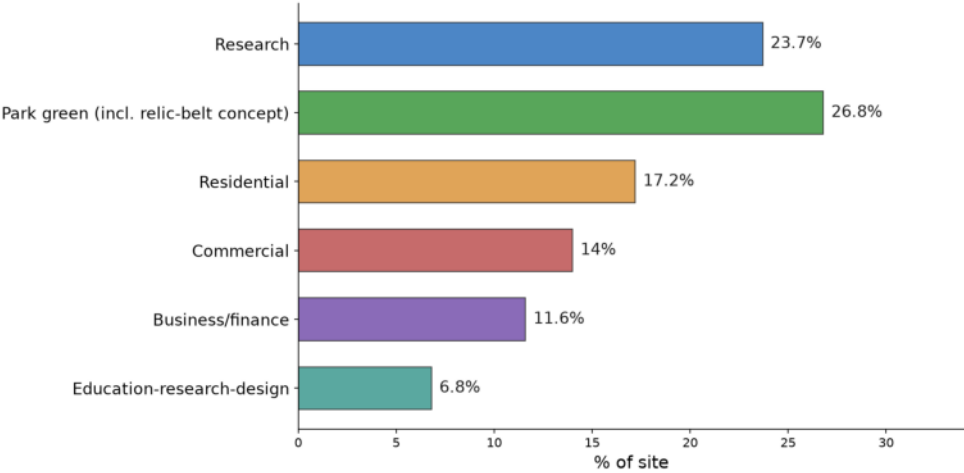

Key areas

Slow axis

Aging-friendly nodes

Context / Provisional geometry.

Land-Use Structure (single caliber)

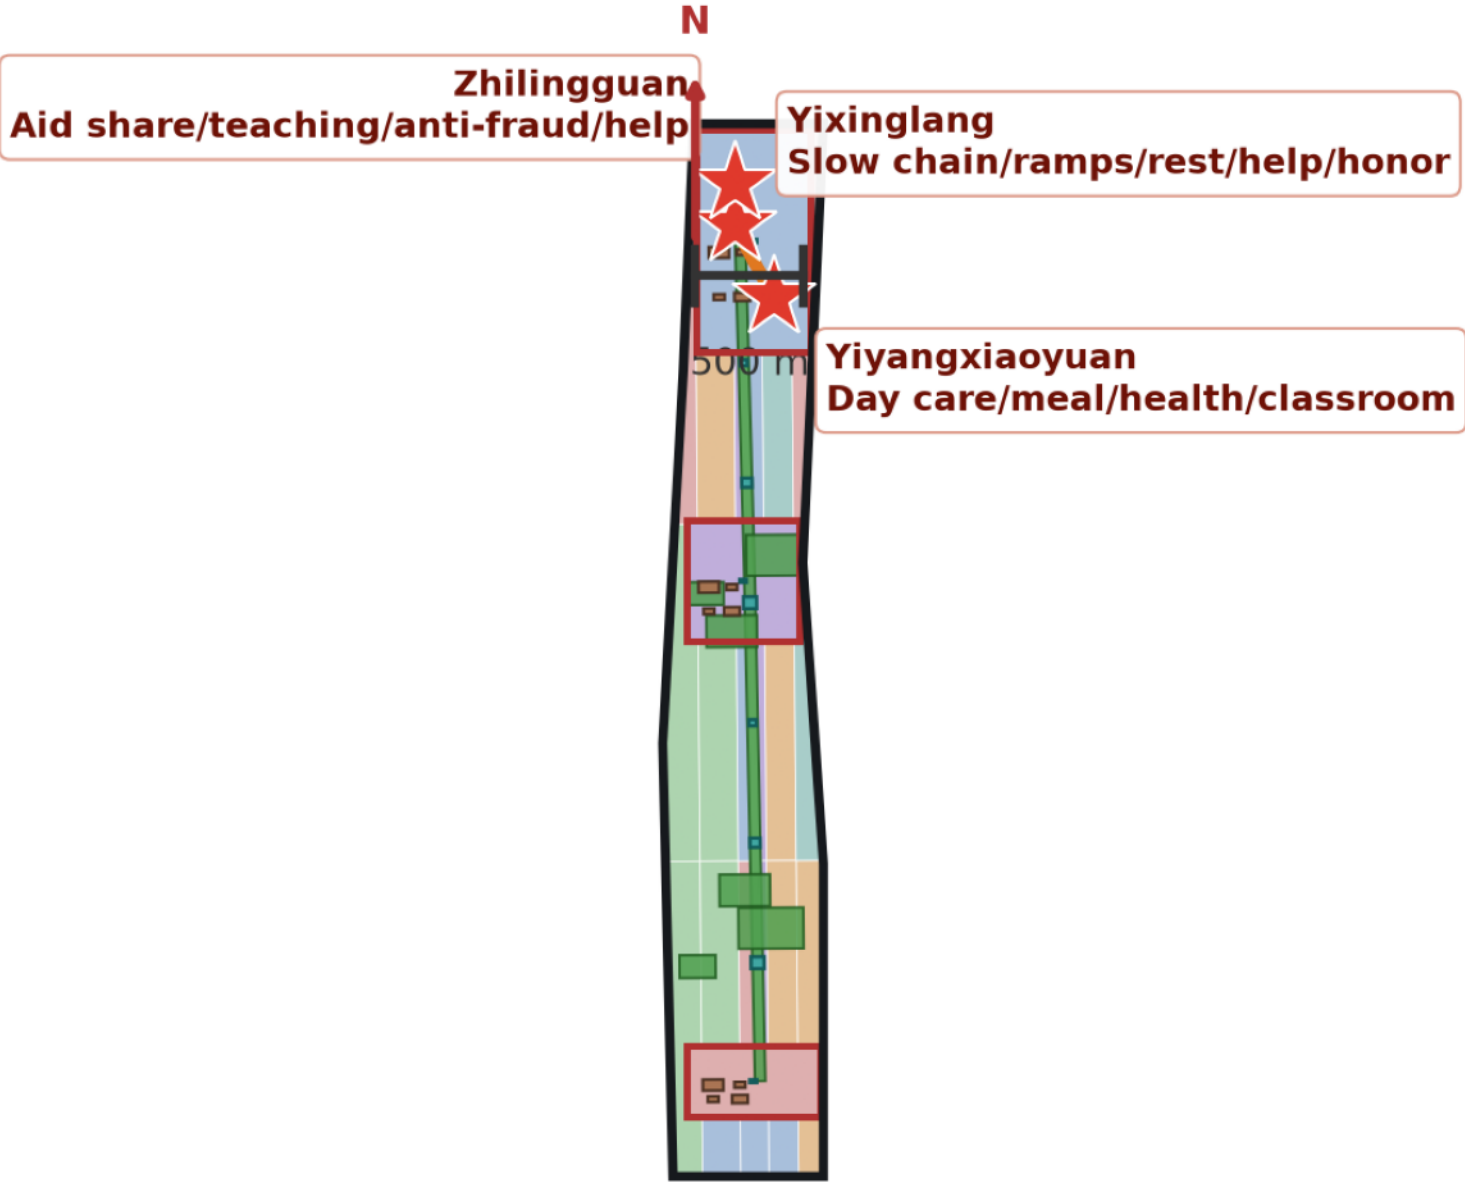

Park green 26.8% belongs to the land-classification layer; the ecological green layer metric green_ratio (~11.6%) is a separate layer - formulas and recompute triggers in metrics.json.

Movable awning

Temp ramp

Swap sign

Narrative: Sunset Guard of the Belt

Jingzhang industrial memory × elder care, honor display, international comms

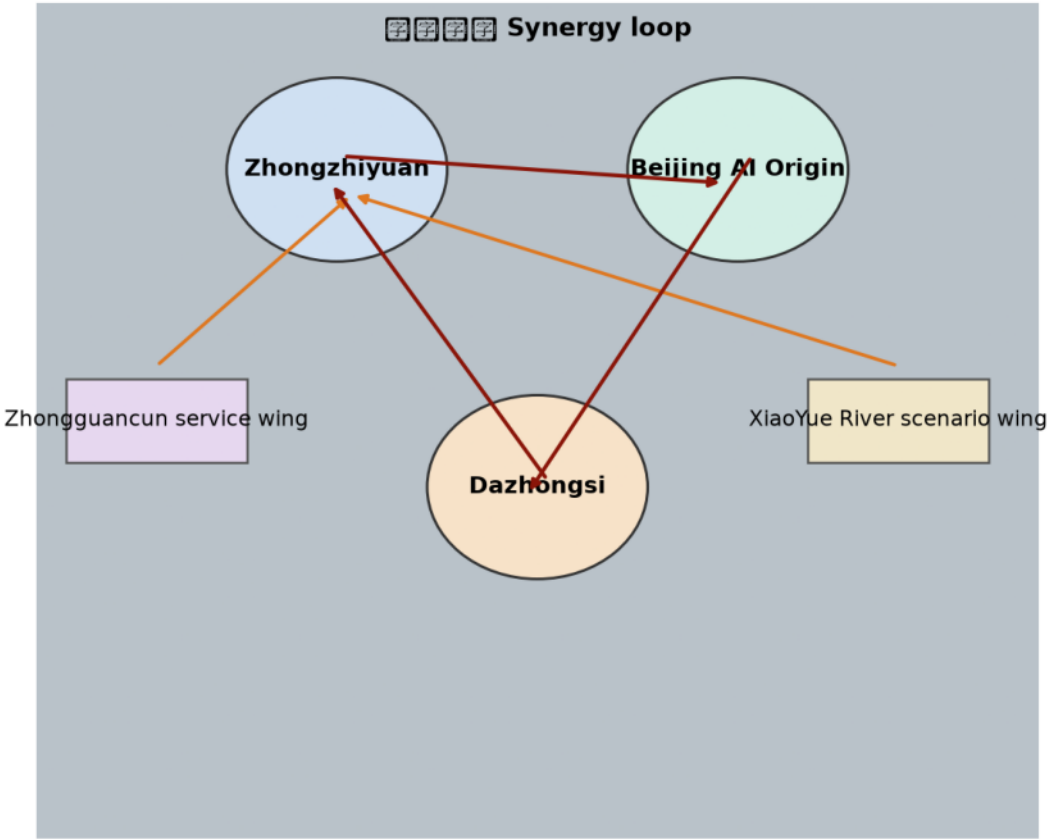

Name is an internal working codename; prior-rights search not yet completed; external use/registration restricted until clearance.

Three Zones Two Wings loop

Three zones linked, two wings enabling, cross-region synergy

Provisional conceptual boundary - not an official redline; recalculate after official data release

Three-Zones Two-Wings Synergy Loop and Cross-Region Cooperation Matrix

Provisional conceptual boundary - not an official redline; recalculate after official data release

Cross-Region Cooperation Matrix

→ community scenario pilot
Beiwu community
→ compute & talent linkage
Future Science City
→ R&D & test linkage
Huairou Science City
→ industrial conversion
Beijing E-Town
→ age-tech supply chain
Beijing-Tianjin-Hebei
Concept-level; to be validated after official data release.
