

Overall design overview / provisional geometry

Three nodes • two axes • reversible public-space network

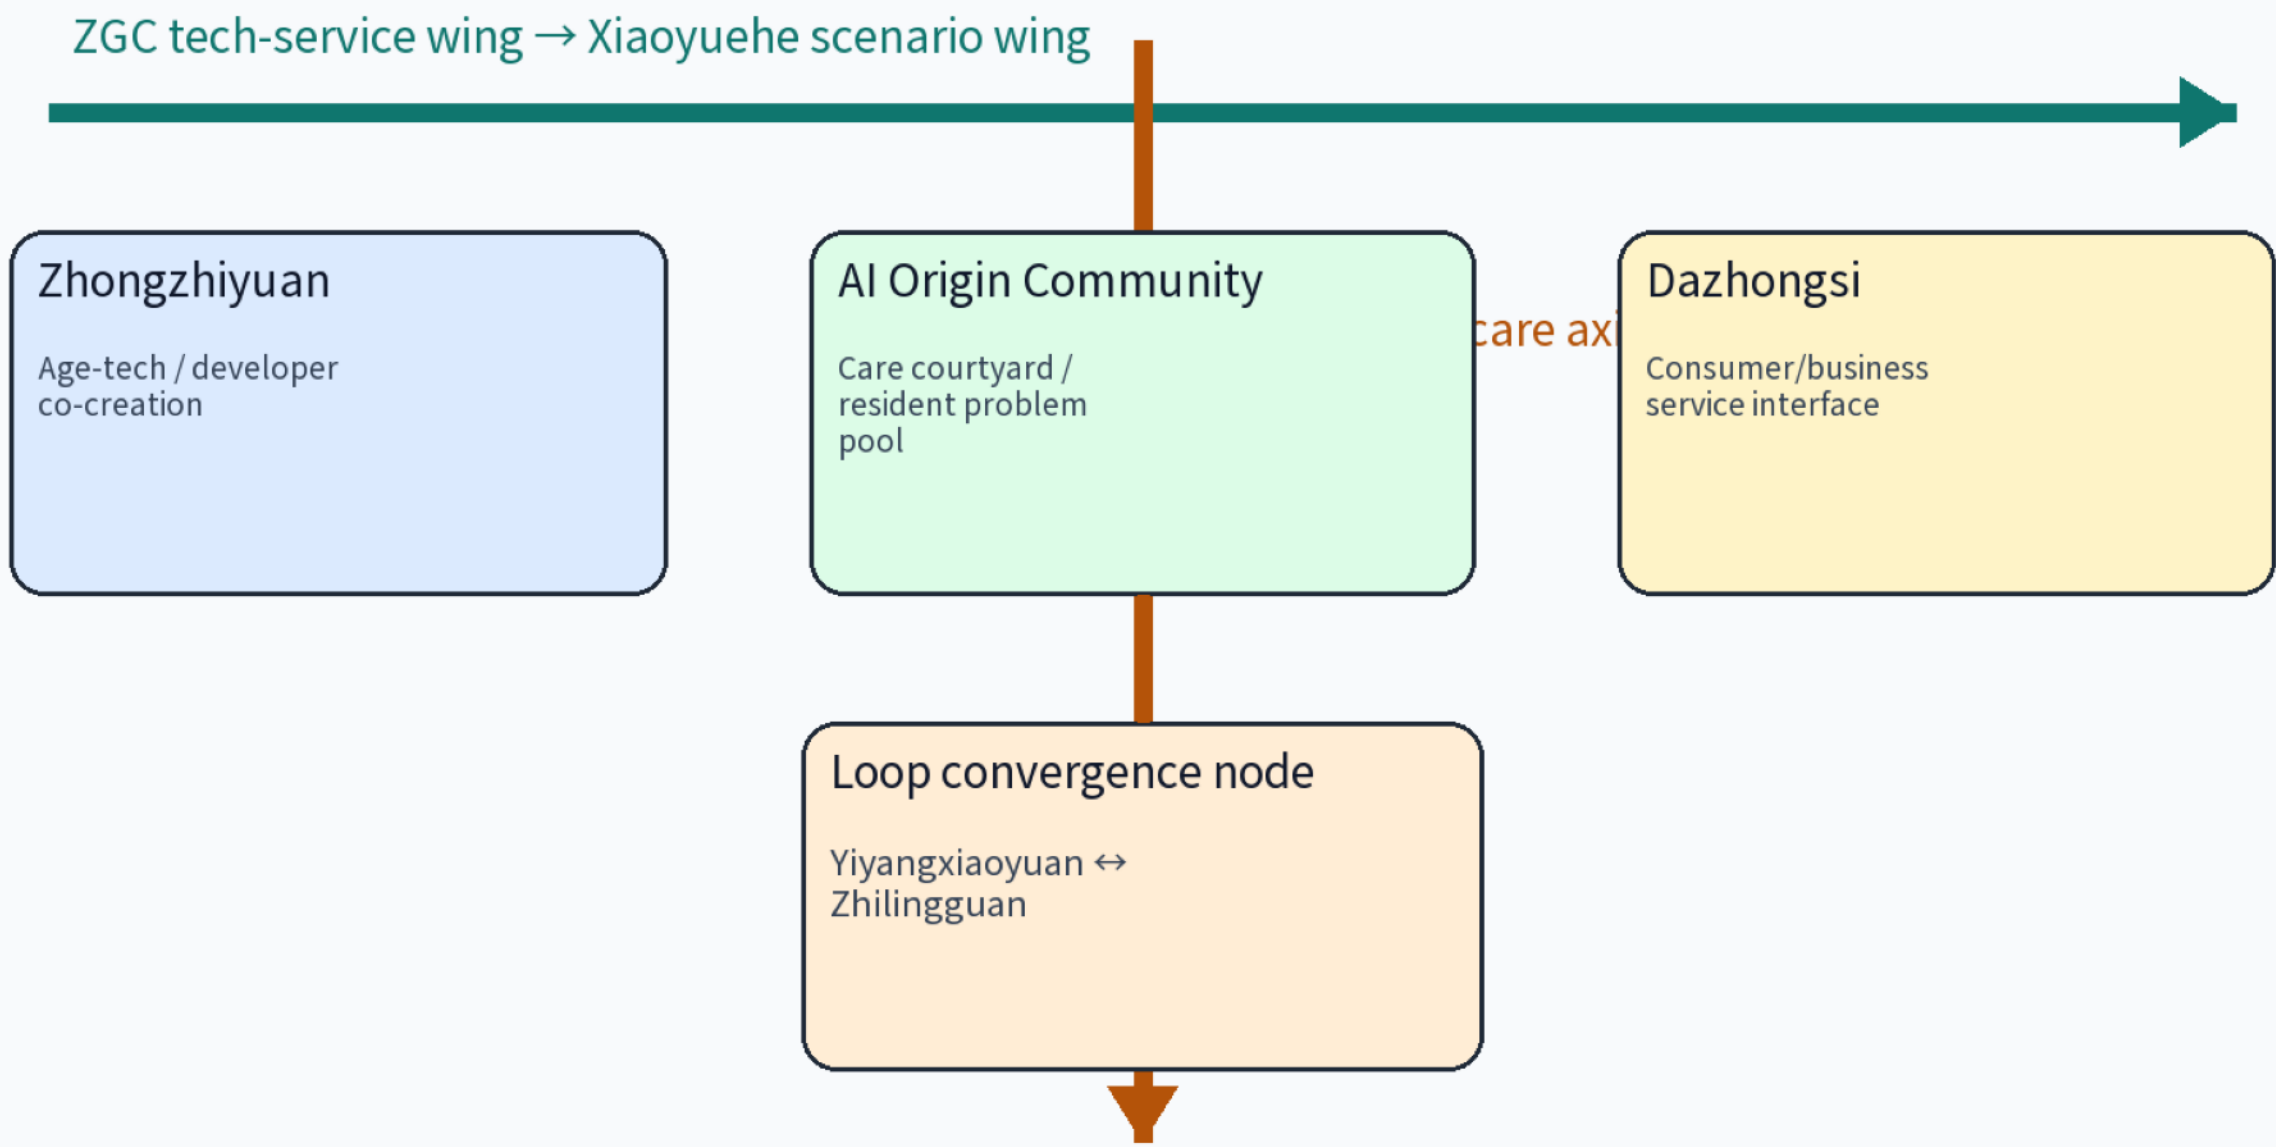

Network logic

- 01 North-south care axis
mobility → care → digital
- 02 East-west stitch
service → culture → commerce
- 03 Reversible library
pilot → review → remove

No official redline / approval claim

East–West Stitch × North–South Care Axis

Conceptual interface; not an official road, red line or coordinate.

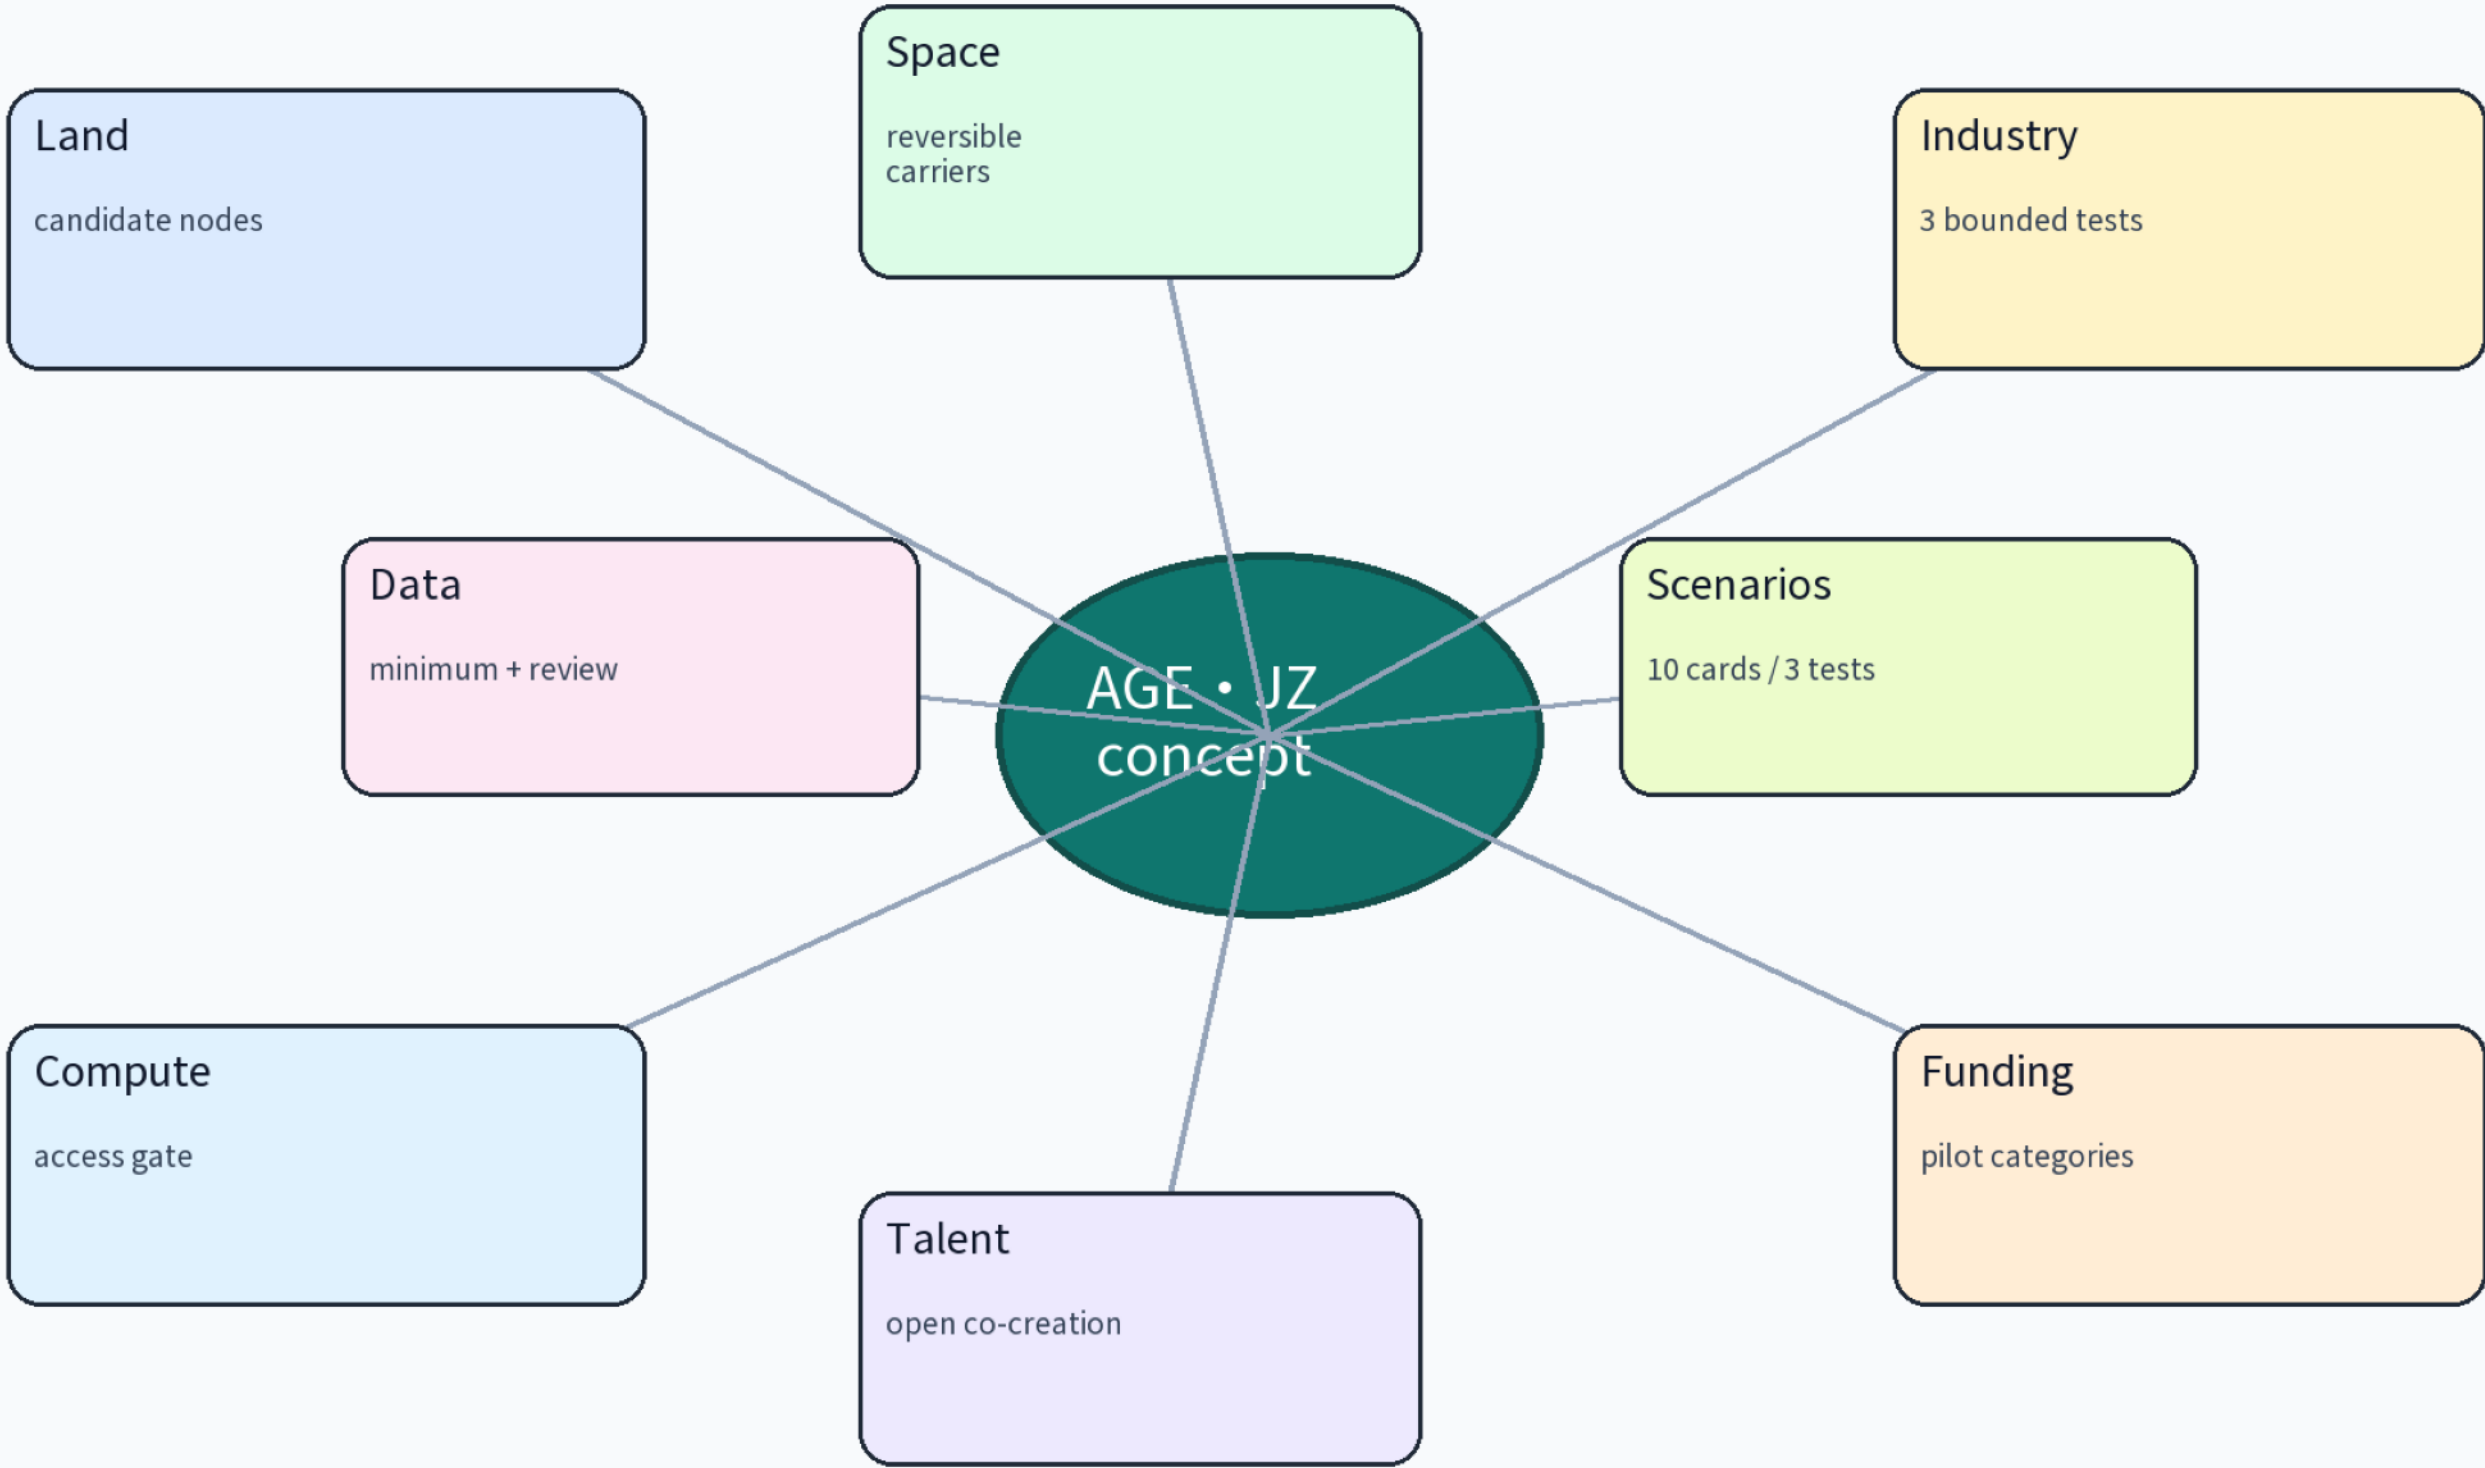

Operators: community • specialists • merchants • universities • volunteers

Fallback: human desk • phone • paper • proxy

AGE • JZ concept / provisional

AI ecosystem mechanism map

Six first-party comparisons; local transfer remains gated.

Source anchors: sources.json / formal comparison pool

10 AI+ scenario cards

Human fallback • minimum necessary fields • stop thresholds

SC-01 Help dispatch

approx. point / human callback

SC-02 Fall alert

short-lived image / human confirm

SC-03 Medication

minimum reminder field / phone

SC-04 Meal order

slot + contact / window booking

SC-05 Digital help

no teaching image / human desk

SC-06 Family link

authorized contact / withdrawal

SC-07 Accessibility inspection

facility image / no identity

SC-08 Aid sharing

de-identified stock / signed handoff

SC-09 Silver class

optional interest / manual choice

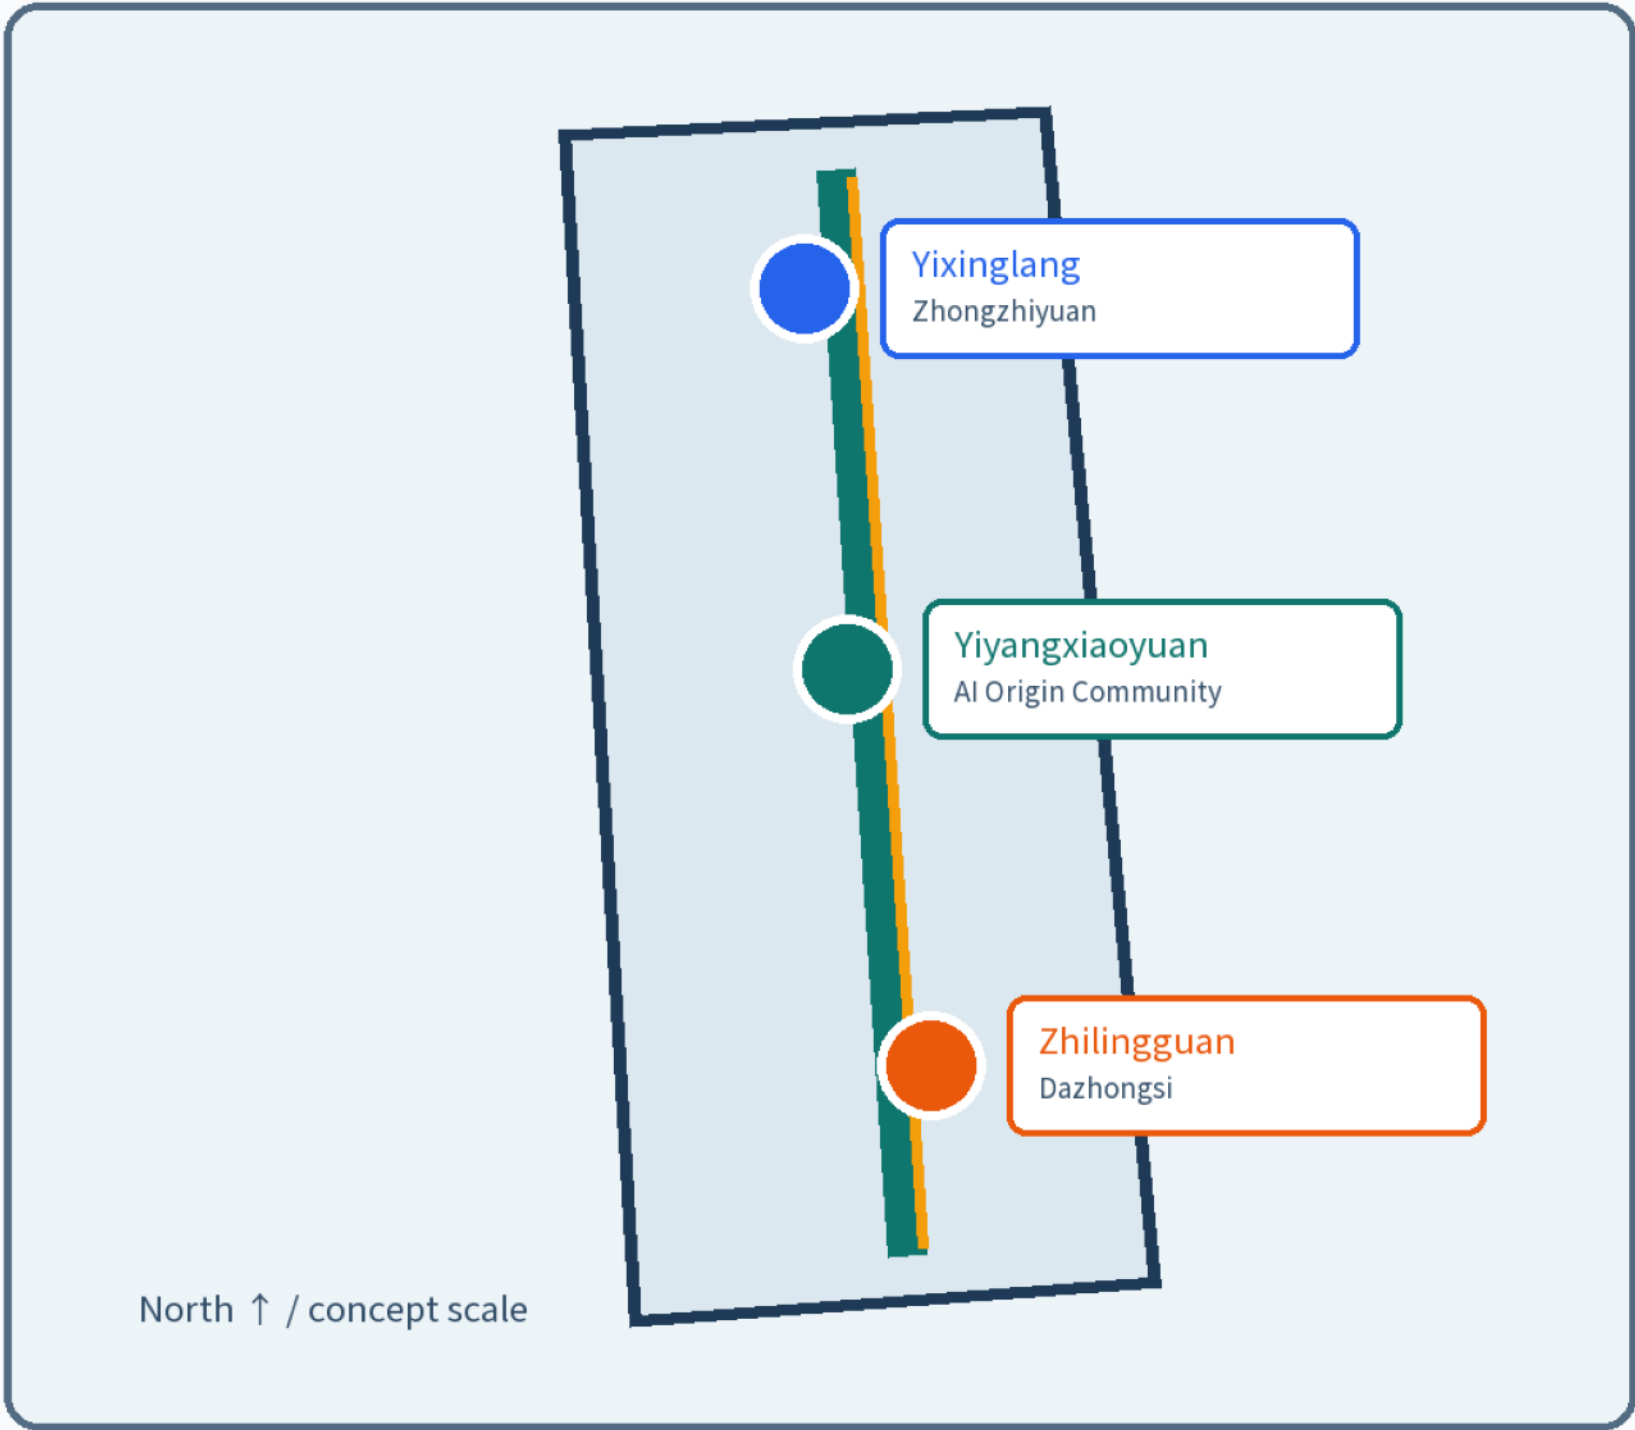

SC-10 Barrier-free transfer

trip minimum / phone alternative

Statistics may be anonymized/aggregated; individual service remains a separately governed workflow.

Three nodes / operation interfaces

Space → operation → scenario → gate

One corridor / one courtyard / one pavilion

- Yixinglang

Barrier-free route • rest • help

Human dispatch
- Yiyangxiaoyuan

Meals • day care • health

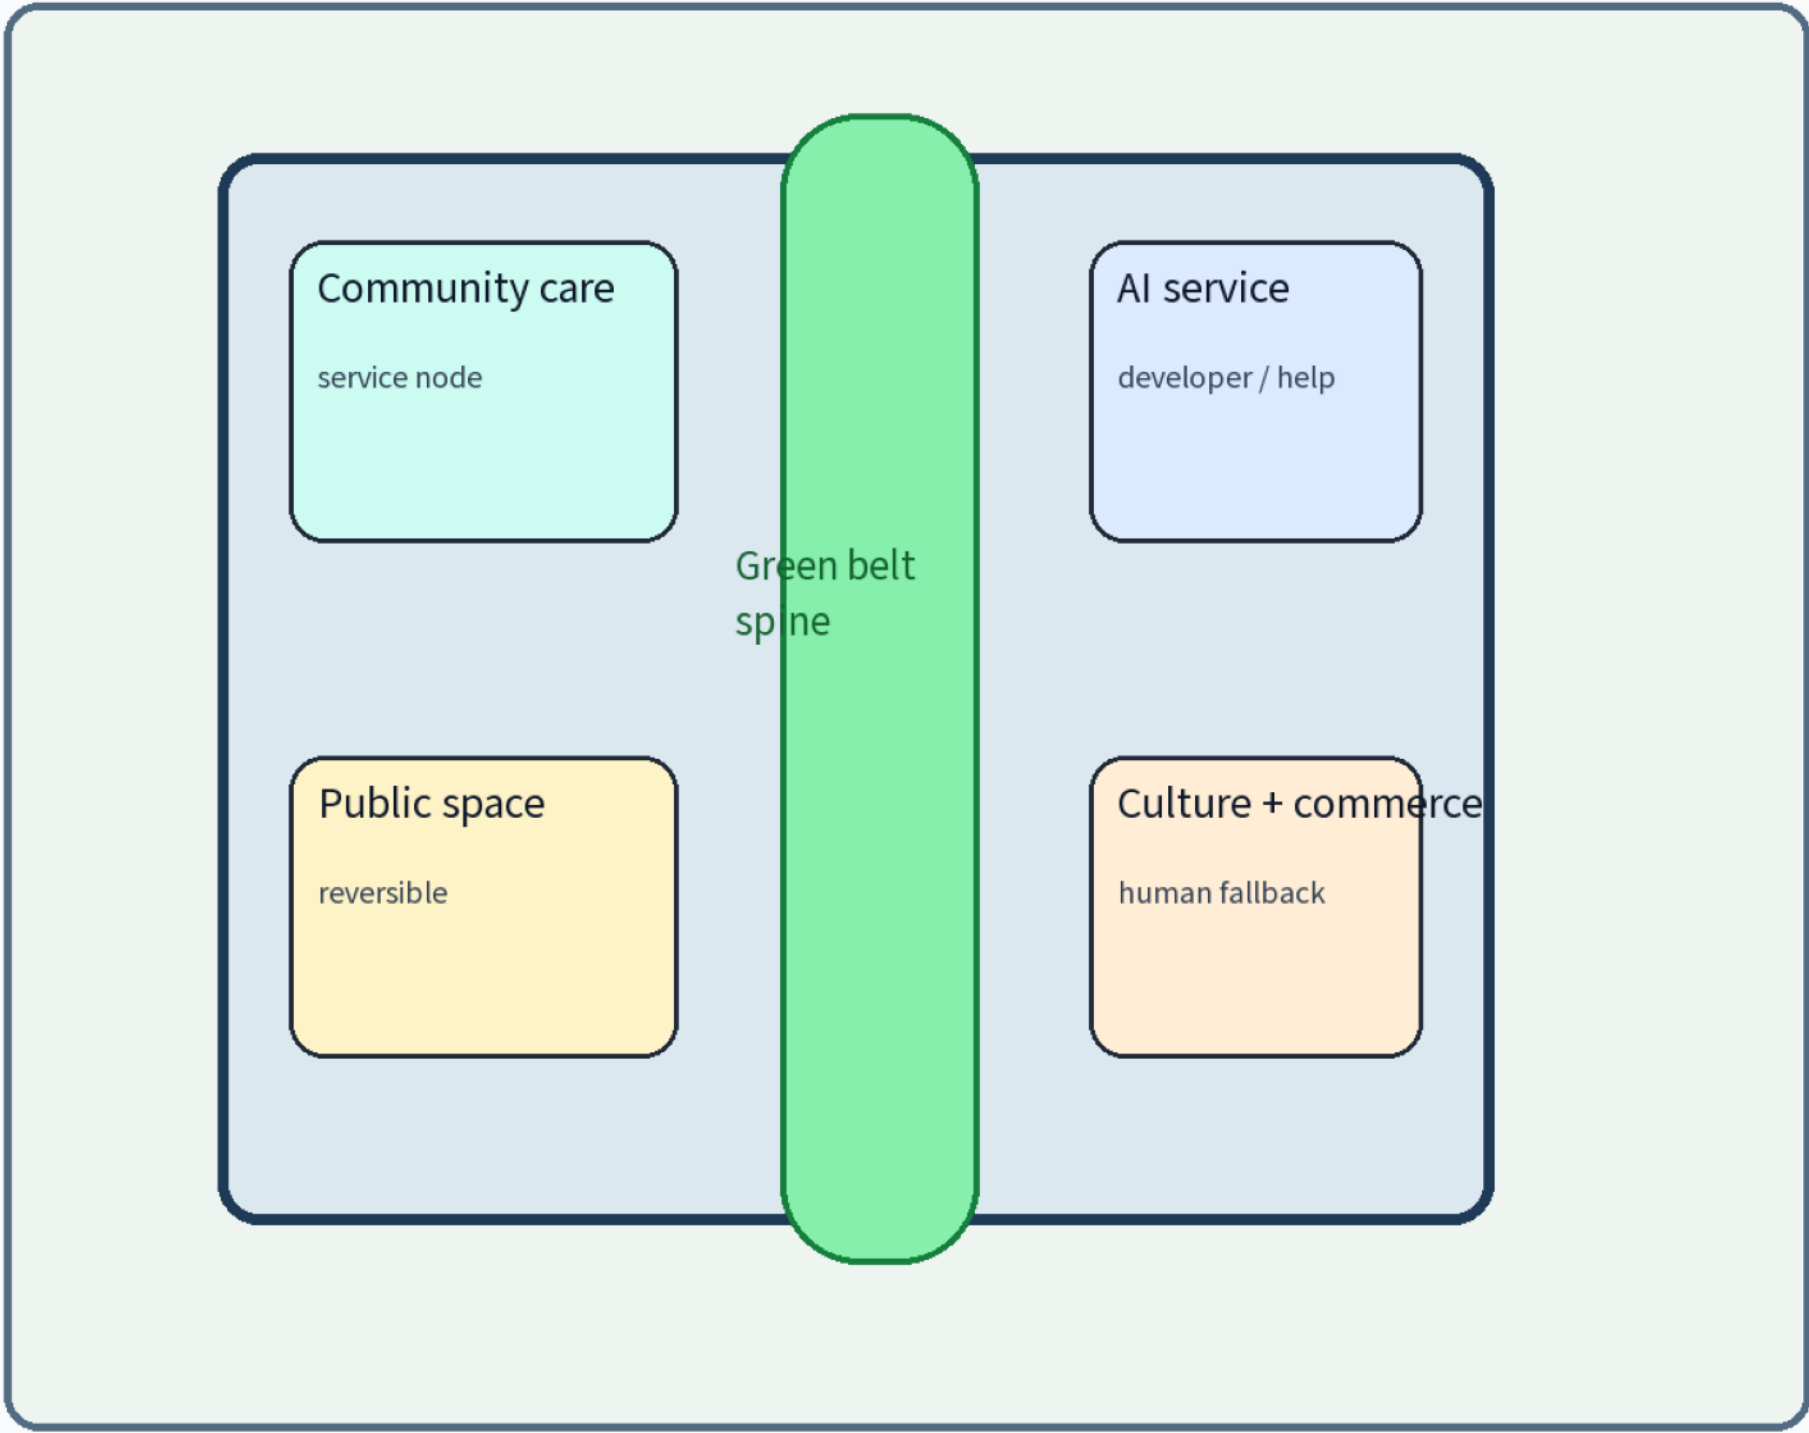

Human check
- Zhilingguan

Aid share • digital help • culture

Manual fallback
- KPI review → reversible removal

Land-use structure / single conceptual caliber

Retain-first • public service • green belt • provisional

Caliber and gates

Green ratio
11.6%
package geometry

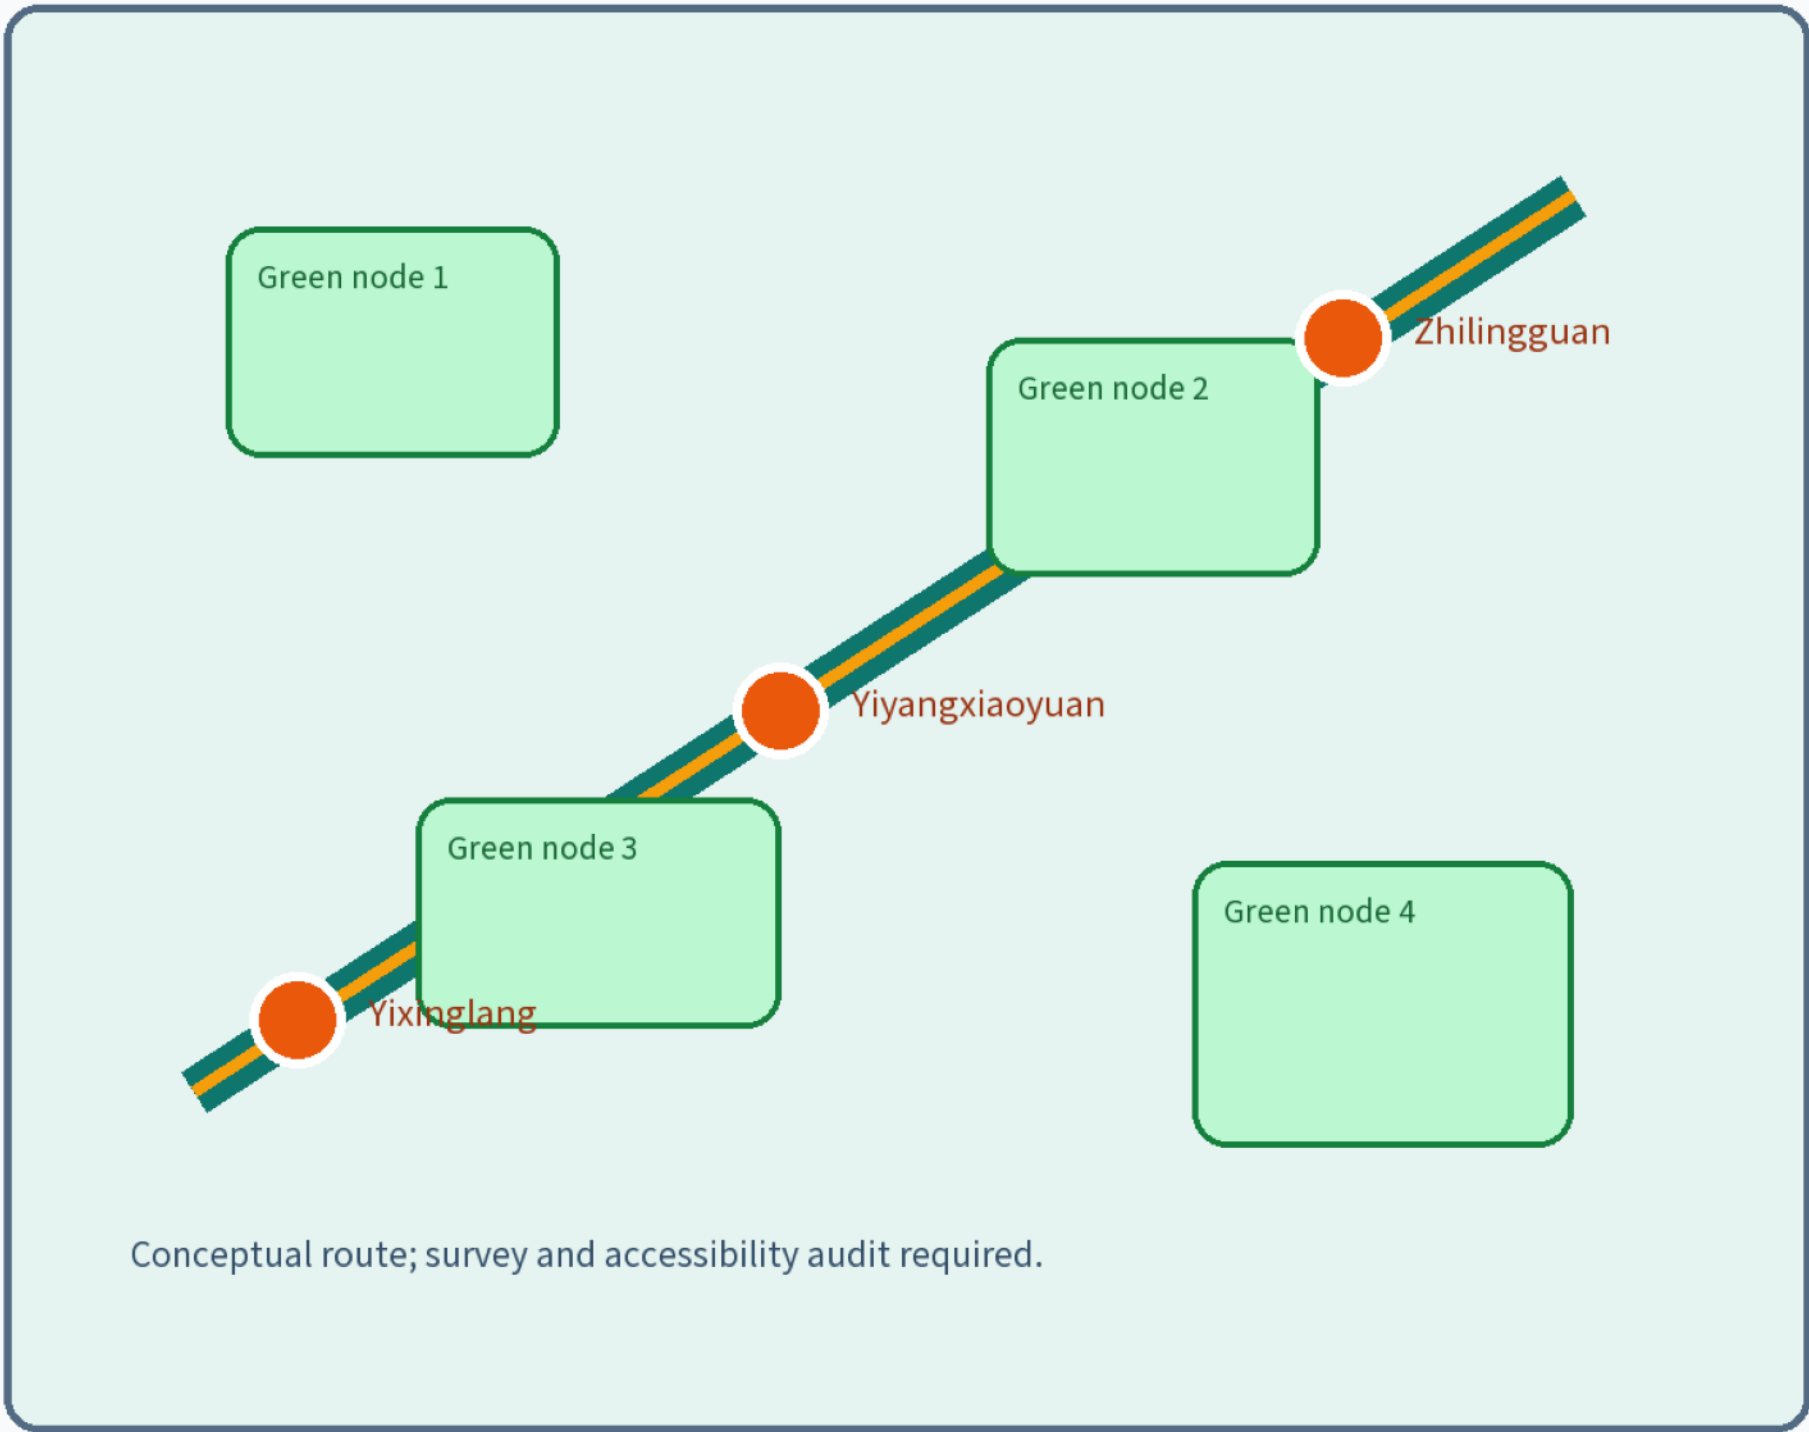

Public space ratio
0.4%
package geometry

Site area
~1,141 ha
provisional boundary

No FAR / height / demolition conclusion

Slow mobility and blue-green network

Barrier-free route • green belt • rail/bus last mile

Operating safeguards

Rest	shade + seats
Transfer	phone + human dispatch
Inspect	weekly log
Stop	safety / complaint / KPI

Road, rail and utility engineering remain unknown

Metrics Evidence: Ratios, Areas and Counts Separated

Concept design • provisional geometry

PROVISIONAL • NO OFFICIAL REDLINE

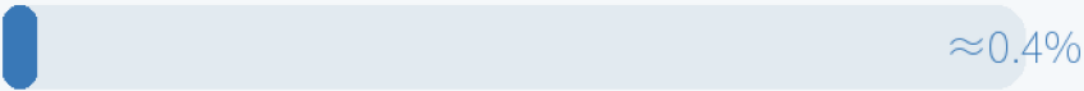

Ratio metrics

Ecological green

geometry-derived • provisional

Public space

geometry-derived • provisional

Count ledger

Scenario cards	10
Industry tests	3
Personas	5
Annual programmes	6
Three nodes	3

All counts are synchronized across proposal, metrics.json, HTML and PDFs.

AGE Love Loop AGE • JZ: Non-exclusive Visual Direction

Concept design • provisional geometry

PROVISIONAL • NO OFFICIAL REDLINE

Visual grammar

 Rail brick red

 Dusk orange

 Digital cyan

 Loop-dot icon

Application examples: node plaques, handrail markers, pavement bands , accessible wayfinding and annual programme cards. The mark is a self-drawn concept direction, not a claim of clearance or registration.
