

Overall Design Overview: AGE Love Loop (AGE • JZ)

Concept design • provisional geometry

PROVISIONAL • NO OFFICIAL REDLINE

Three zones + two wings

Three zones

Zhongzhiyuan: AI innovation and age-tech interface
AI Origin Community: community-service pilots
Dazhongsi: cultural experience and digital assistance

Two wings

ZGC tech-service wing: model evaluation, aid devices and professional services
Xiaoyuehe scenario wing: public-space pilots and feedback

Three nodes

Yixinglang = mobility and accessibility
Yiyangxiaoyuan = care and meals
Zhilingguan = digital skills and human assistance

Three Zones, Two Wings and Regional Cooperation Matrix

Concept design • provisional geometry

PROVISIONAL • NO OFFICIAL REDLINE

THREE ZONES

Zhongzhiyuan

AI Origin Community

Dazhongsi

TWO WINGS

ZGC tech-service wing

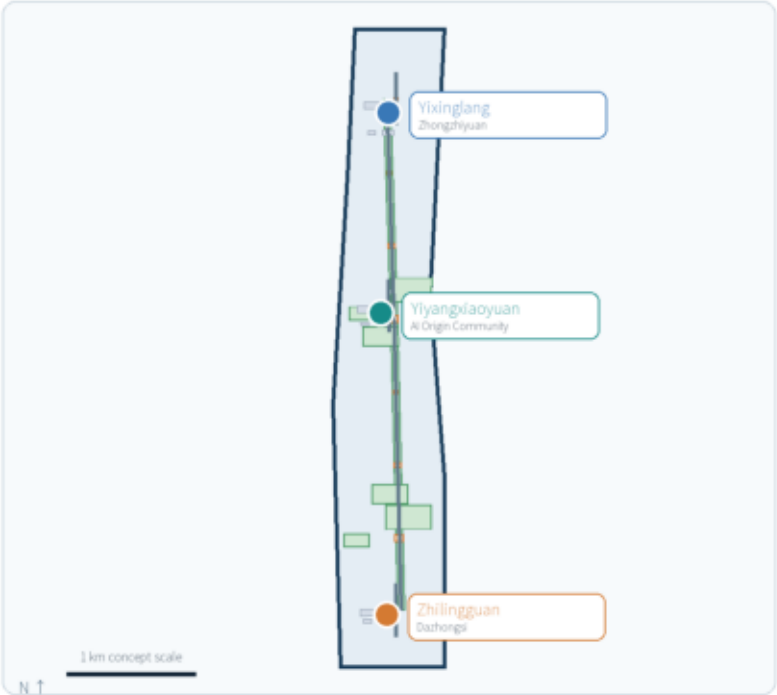

Xiaoyuehe scenario wing

Exchange and validation

Future Science City	→ equipment/model tests → Zhilingguan
Huairou Science City	→ research talent/age-tech → Yiyangxiaoyuan
Beijing E-Town	→ industrial conversion/supply → three-node pilot
Beiwei Community	→ community needs/co-design → Yiyangxiaoyuan
Beijing-Tianjin-Hebei	→ replicable standards/case exchange → belt replication

Three-node Detailed Design and Operating Interfaces

Concept design • provisional geometry

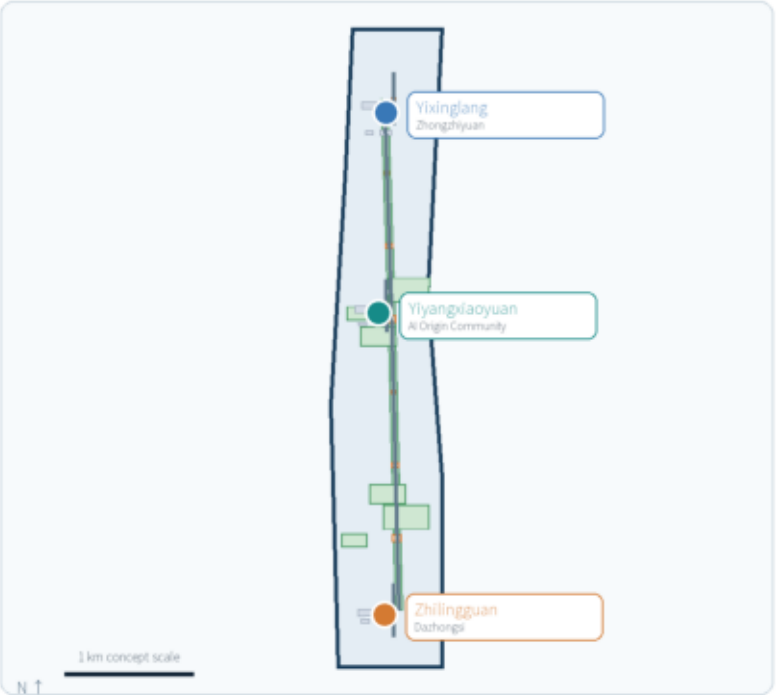

PROVISIONAL • NO OFFICIAL REDLINE

One-Corridor One-Courtyard One-Pavilion

- Yixinglang**
Linked cards: SC-01/02/06
Barrier-free movement, rest, lighting and one-touch help; pilot dispatch and inspection first.
- Yiyangxiaoyuan**
Linked cards: SC-03/04/09
Meals, day care, health checks and silver classroom; human review for critical alerts.
- Zhilingguan**
Linked cards: SC-05/06/10
Aid sharing, terminal teaching, fraud prevention and human assistance; no digital-only access.

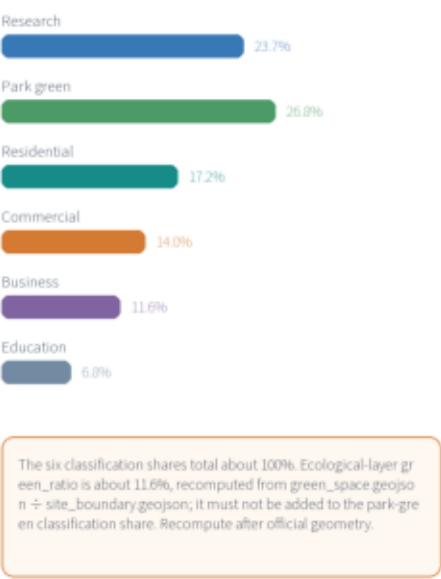

Land-use Structure: Classification and Ecological Layers

Concept design • provisional geometry

PROVISIONAL • NO OFFICIAL REDLINE

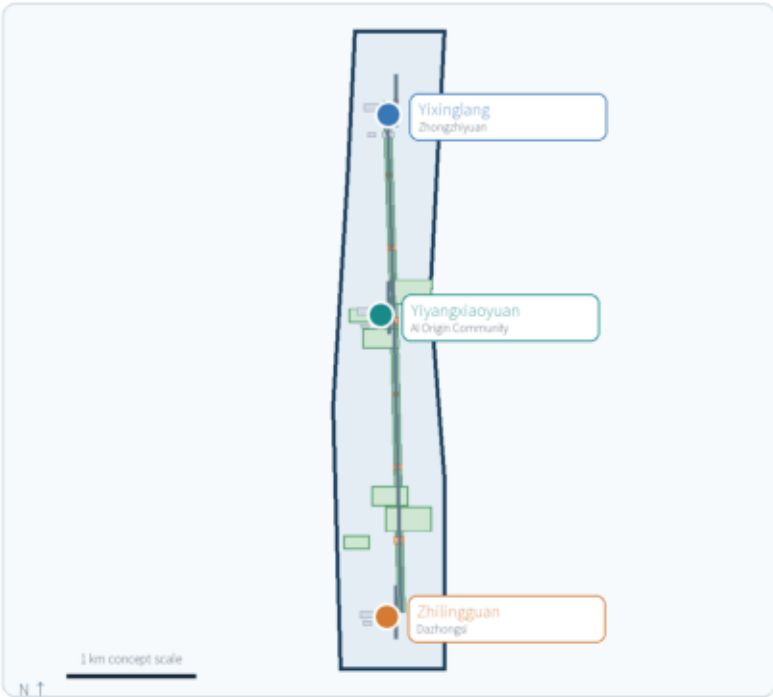

Land-classification layer

Slow Mobility and Blue-Green Network: Service First, Verify Before Scale

Concept design • provisional geometry

PROVISIONAL • NO OFFICIAL REDLINE

- Four perceivable interfaces
- Pause**
Seats, shade and lighting at pause points; human inspection ledger confirms integrity.
 - Transfer**
Yixinglang links rail and bus ends; phone and human desks remain when offline.
 - Blue-green**
Low-impact, reversible facilities follow the relic-park green belt; no statutory green-line claim.
 - Safety**
AI only flags facility anomalies; false positives/negatives are stratified and humans take over critical cases.

AI Innovation Ecosystem: Seven Factors in a Three-zone, Two-wing Loop

Concept design • provisional geometry

PROVISIONAL • NO OFFICIAL REDLINE

- Three validation gates
- 输入—输出**
Declare fields, output and purpose for each pilot
 - 误差—人工**
Stratify errors by group/time; humans take over critical decisions
 - 停止—复盘**
Pause, adjust and disclose review when safety, failure or satisfaction thresholds fail

10 AI+ Scenario Cards: One Format and Node Binding

Concept design • provisional geometry

PROVISIONAL • NO OFFICIAL REDLINE

SC-01 One-touch help

Yixinglang • voice call / dispatch

pilot-first • human review • opt-out

SC-02 Fall alert

Yiyangxiaoyuan • anomaly flag / human review

pilot-first • human review • opt-out

SC-03 Medication reminder

Yiyangxiaoyuan • reminder / missed-dose notice

pilot-first • human review • opt-out

SC-04 Meal ordering

Yiyangxiaoyuan • booking / delivery dispatch

pilot-first • human review • opt-out

SC-05 Digital assistance

Zhilingguan • teaching / service guidance

pilot-first • human review • opt-out

SC-06 Family link

Zhilingguan • visit booking / reminder

pilot-first • human review • opt-out

SC-07 Accessibility inspection

Three nodes • facility / lighting fault

pilot-first • human review • opt-out

SC-08 Aid sharing

Zhilingguan • match / rotation / disinfection

pilot-first • human review • opt-out

SC-09 Silver classroom

Yiyangxiaoyuan • course / interest match

pilot-first • human review • opt-out

SC-10 Accessible transit

Yixinglang • booking / dispatch

pilot-first • human review • opt-out

Metrics Evidence: Ratios, Areas and Counts Separated
