

SITE OVERVIEW

RIDE • JZ LOOP Overview (provisional geometry)

PROVISIONAL boundary • not an official redline • recalculate after official data

The loop links the three areas and stitches the two wings; alignment is concept-only. Areas/ratios are provisional and recalculated after official data.

Three Areas + Two Wings

Nodes A1-A3 plus wing interfaces :

A1 Zhongzhiyuan • A2 AI Origin • A3 Dazhongsi

Loop Structure (concept)

Main line through the three areas, closed via the two wing arcs:

Station chain

12 AI scenario nodes + 3 loop landmarks (provisional)

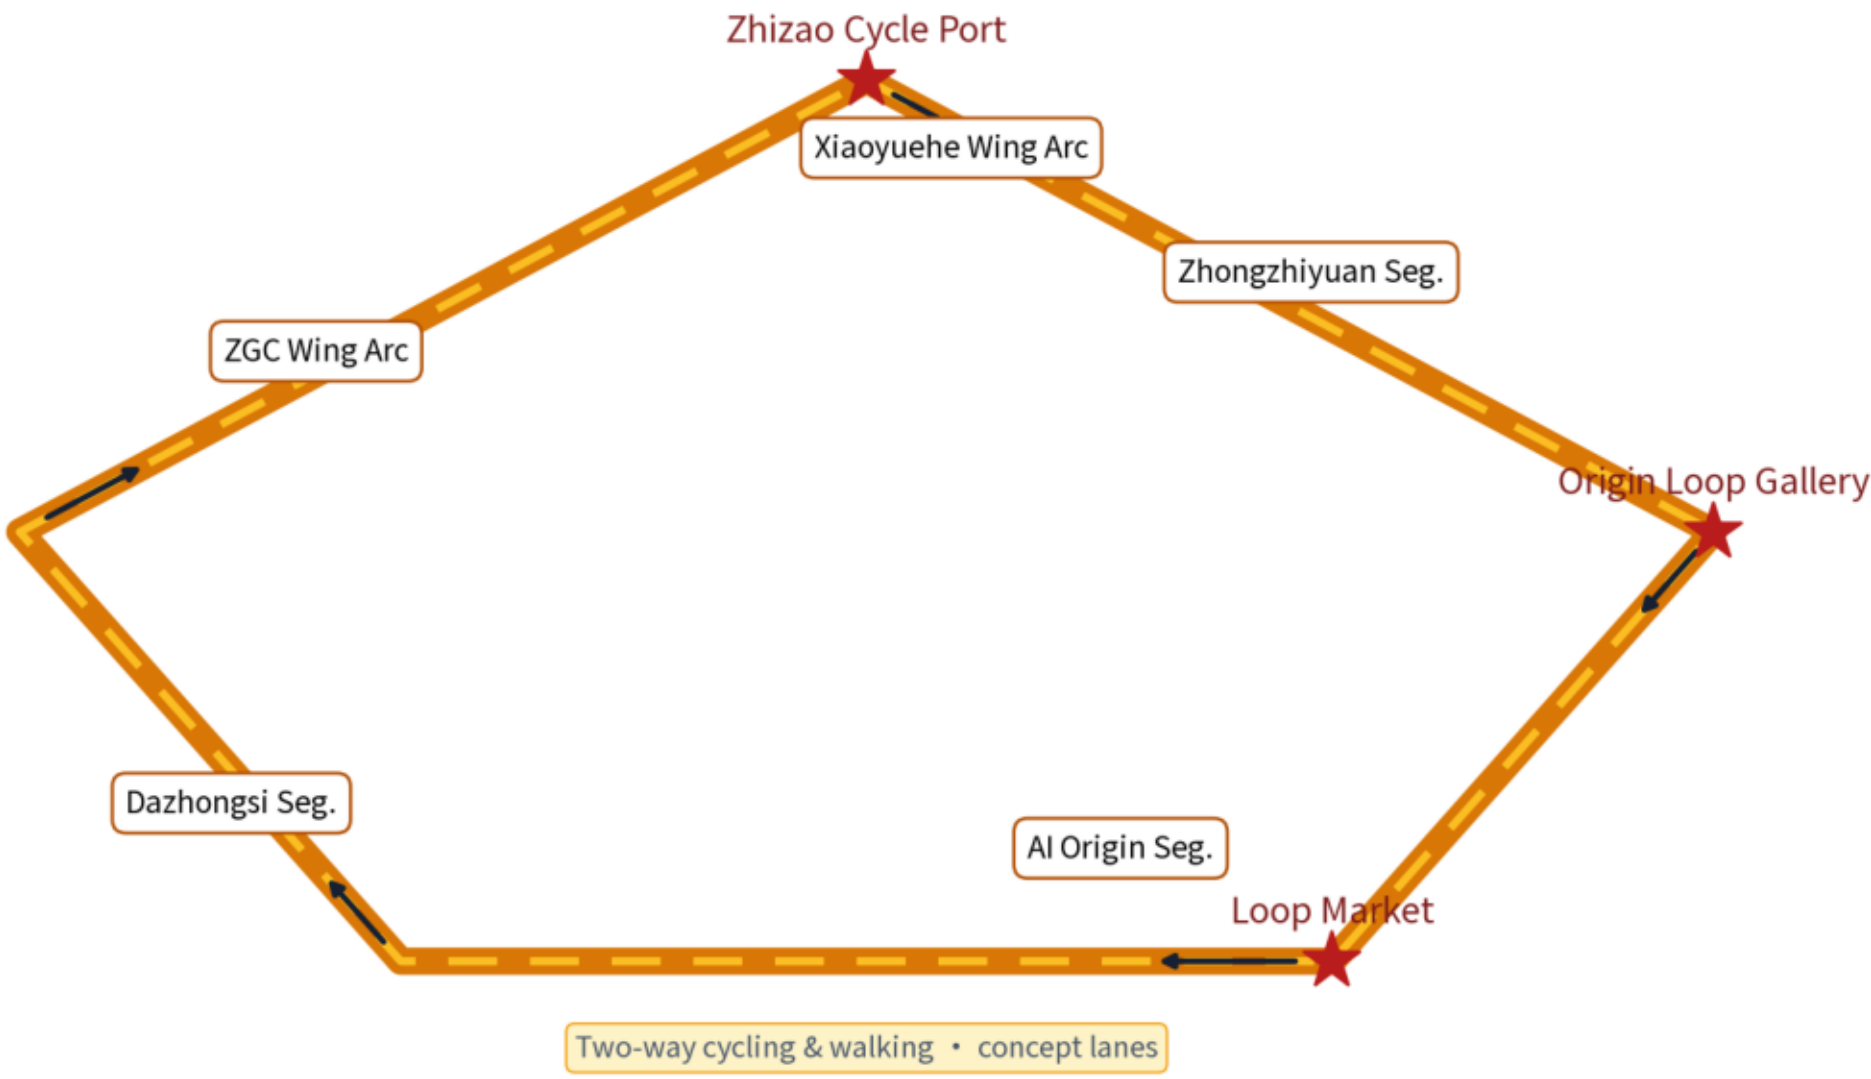

Note

The loop links the three areas and stitches the two wings; alignment is concept-only. Areas/ratios are provisional and recalculated after official data.

LOOP STRUCTURE

Loop Spatial Structure (concept)

PROVISIONAL boundary • not an official redline • recalculate after official data

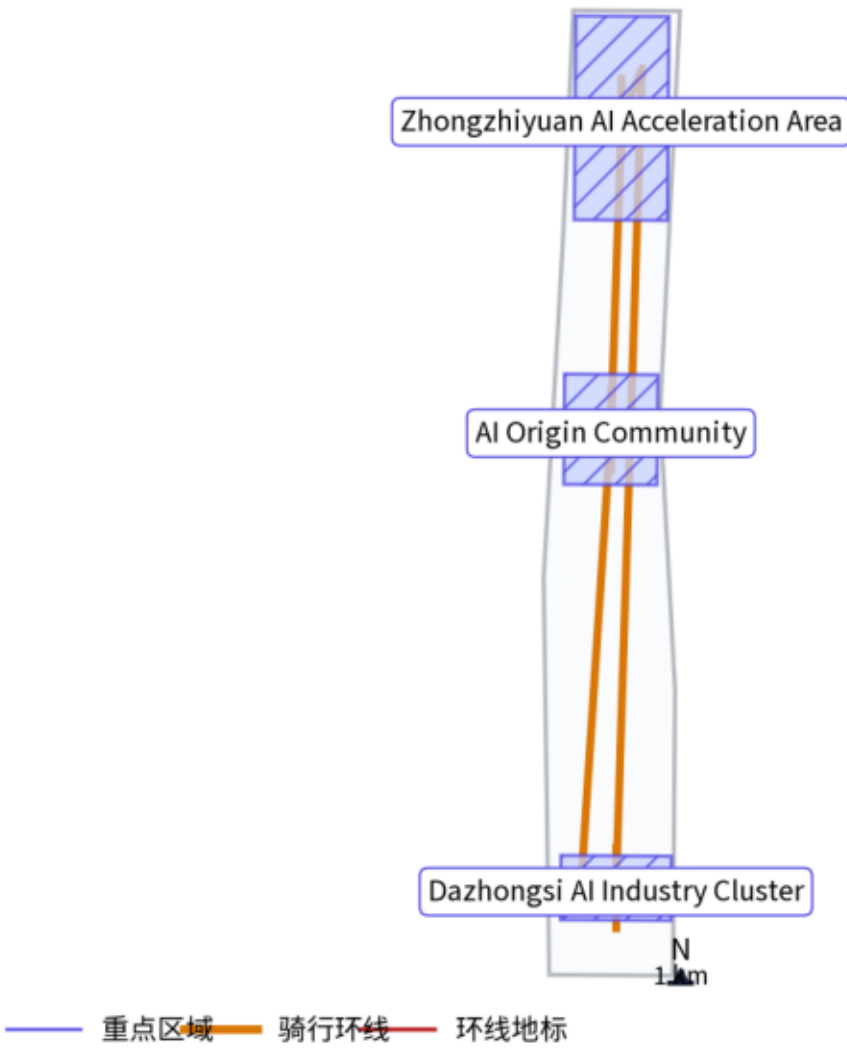

The loop is an original slow-traffic concept spanning the three areas with two wing arcs; alignment is schematic only - no redline or engineering conclusions.

KEY AREAS

Three-Area/Two-Wing Synergy and Loop Nodes (concept)

PROVISIONAL boundary • not an official redline • recalculate after official data

Loop Nodes and Wing Synergy (concept)

Zhizao Cycle Port
AI全线自主创新体系-骑行测试段

Origin Loop Gallery
AI创新生态-铁路遗产+AI文化展廊

Loop Market
智能原生新业态-骑行消费体验

ZGC Wing
要素配置与资本IP界面

Xiaoyuehe Wing
场景赋能与公共体验路径

Correspondence is a conceptual synergy loop per agent.1; it implies no ownership or statutory zoning conclusions.

MOBILITY BLUEGREEN

Slow-Traffic Network and Blue-Green Public Space (concept)

PROVISIONAL boundary • not an official redline • recalculate after official data

Station dots and cross-sections are conceptual; no redline, engineering or investment conclusions.

Cycling-friendly supports (concept)

Wayfinding

HuanYu AI wayfinding, bilingual

Rent&Return

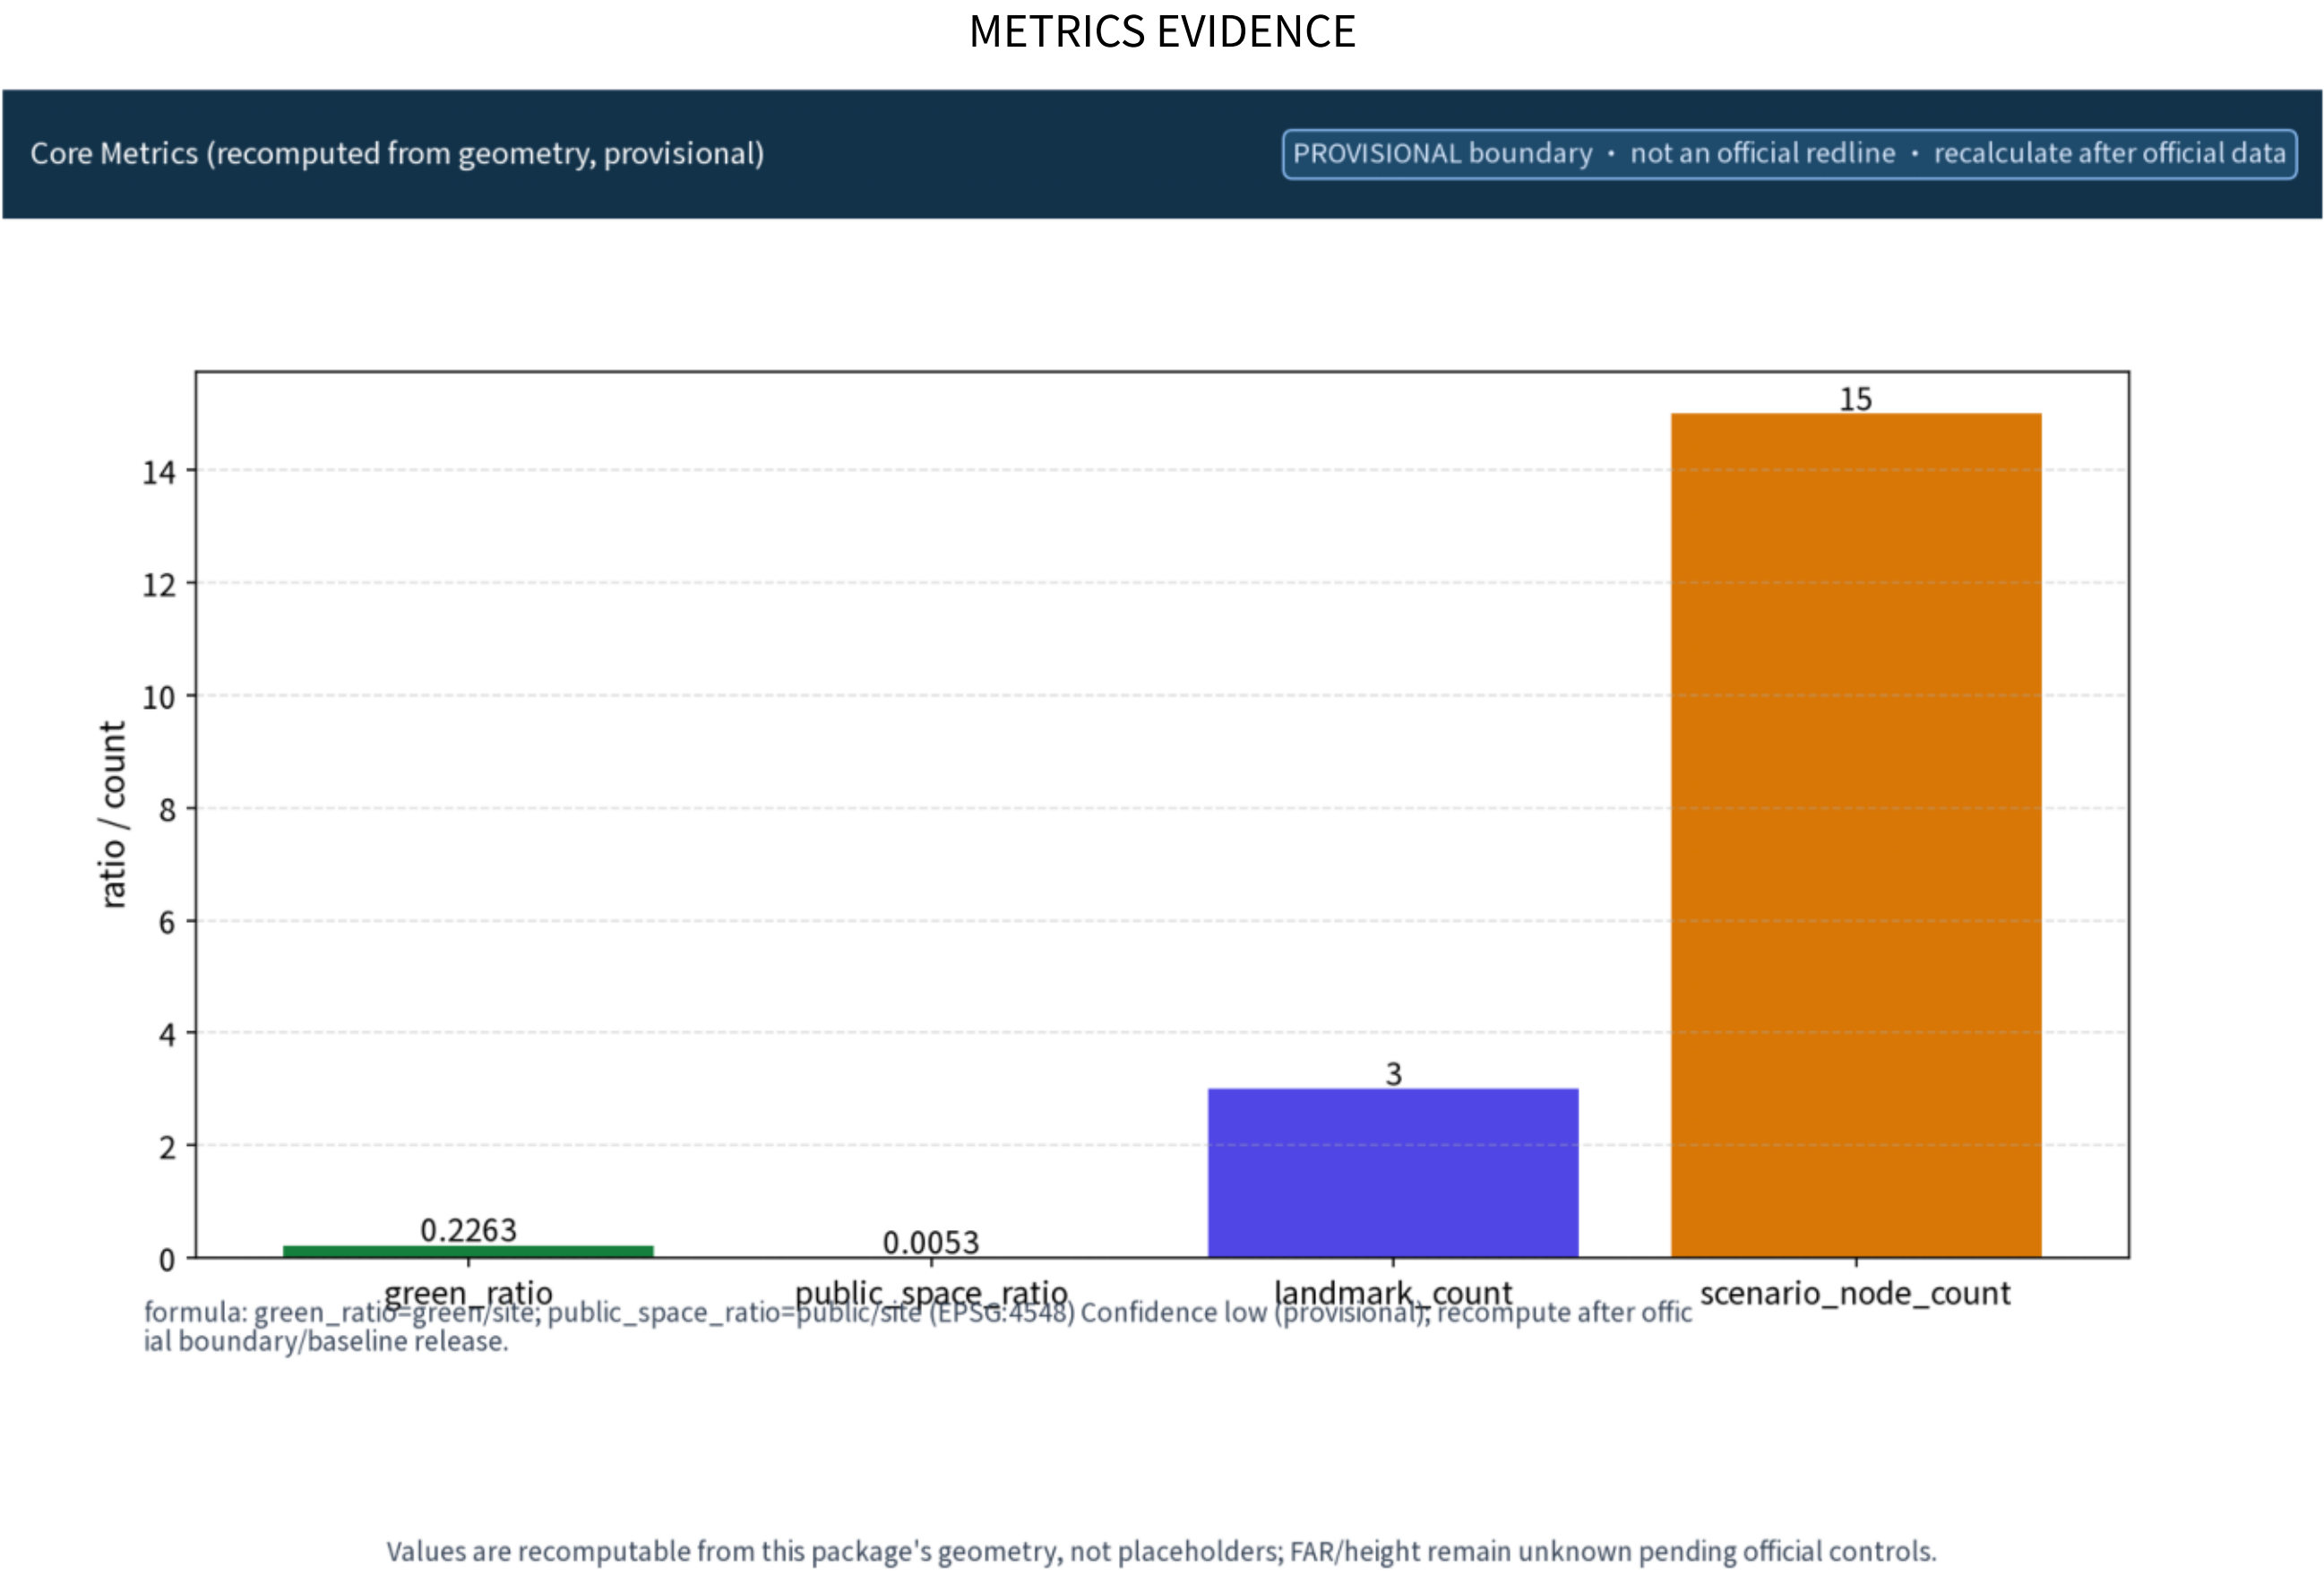

Wheel-Trace Card unified docks

Stations

Shuzhi station chain, reversible

Safety

AI safety alerts, human-reviewed

LOGO RIDEJZ

Logo & Visual Identity Direction (original concept)

PROVISIONAL boundary • not an official redline • recalculate after official data

RIDE • JZ

Visual direction (concept spec)

Colors

Rail blue + wheel orange + signal red

Mark

Wheel/rail-tie double meaning

Lock-up

RIDE • JZ LOOP, zh+en stack

Use

Stations, wayfinding, ride card

Logo is an original concept direction; trademark clearance required before use.
